

Graco Launches Patented LazerGuide 2000 Laser-Guided Layout System

February 27, 2018

The industry's most innovative accessory in walk-behind striping equipment

MINNEAPOLIS--(BUSINESS WIRE)--Feb. 27, 2018-- Graco Inc. (**NYSE:GGG**), a leading manufacturer of fluid handling equipment, is pleased to introduce the LazerGuide™ 2000 Laser-Guided Layout System. This industry-leading technology produces a laser reference line that, when paired with Graco's AutoLayout™ system found on LineLazer™ V HP Automatic stripers, eliminates the need for tape measures, strings, chalk and a second person for some common line striping procedures, reducing setup time and cutting labor costs.

"The LazerGuide 2000 Laser-Guided Layout System eliminates tedious manual layout work while helping to produce straight and accurate line stripes every time," said Mike Vangstad, Global Product Marketing Manager for Pavement Equipment at Graco.

The LazerGuide 2000 Laser-Guided Layout System is now available worldwide for the full range of Graco LineLazer stripers, each with the LazerGuide 2000 laser and target box, providing an ideal striping solution for parking lots, intersections, athletic fields and more.

To learn more about the LazerGuide 2000 system and other line striping equipment, visit www.graco.com/LazerGuide2000.
