## Cash Flow and Liquidity

- 2014 year-to-date cash flow from operations $\$ 241$ million versus $\$ 243$ million in 2013
- Increase in accounts receivable and inventory higher than 2013, in line with volume growth; days sales outstanding within normal range

- Interest expense $\$ 19$ million, up $\$ 1$ million from 2013
- Liquid Finishing dividends (post-tax) \$28 million, the same as 2013
- Dividend income will cease when the investment is sold

## Other Discussion Items

- Capital expenditures expected to be approximately $\$ 35$ million in 2015
- 2015 annualized tax rate is projected to be approximately 32-33\%
- The Federal R\&D tax credit has not been extended into 2015. If approved, the 2015 annualized tax rate is expected to be approximately $31-32 \%$
- Assumes no (post-tax) dividends from Liquid Finishing in 2015 and excludes gain on sale
- Share repurchases have continued into 2015; goal of weighted average diluted shares outstanding less than or equal to 60 million shares
- Unallocated corporate expenses, excluding acquisition and divestiture costs, are expected to be approximately $\$ 10$ million higher in 2015, due primarily to increased pension expenses
- At current exchange rates, assuming the same volumes, mix of products and mix of business by currency as in 2014, the unfavorable movement in foreign currencies would be a headwind of approximately $4 \%$ on sales and $10 \%$ on earnings
- Acquired four businesses in December 2014 and January 2015 with a combined purchase price of $\$ 185$ million. When combined with the acquisition of Alco Valves in October 2014, excluding transaction costs and charges related to inventory step-up, these acquisitions are expected to provide approximately 13 to 15 cents of accretion to EPS in 2015

- The Federal Trade Commission (FTC) issued its final Decision and Order in October 2014 requiring Graco to complete the sale of the Liquid Finishing business assets that were acquired in a larger transaction from Illinois Tool Works (ITW) in April 2012. The sale process must be completed in no more than 180 days
- Graco will continue to hold the Liquid Finishing business separate from its other businesses and maintain them as viable and competitive until a sale process is complete
- The Liquid Finishing business assets are currently held as a cost-method investment on Graco's balance sheet and income is recognized based on dividends from current earnings
- $\$ 28$ million (post-tax) dividends have been recognized in 2014. Once Graco completes the sale of the investment, there will be no further dividends from the Liquid Finishing business
- A definitive agreement to sell the Liquid Finishing business assets was announced on October 8, 2014
- The $\$ 590$ million cash transaction is anticipated to close in the first half of 2015 and is subject to regulatory and other customary closing conditions
- The divestiture is expected to be in compliance with the final Decision and Order issued by the FTC

## Net Proceeds From Sale to be Approximately $\$ 570$ million

- The all-cash sale price for the Liquid Finishing business assets is \$590 million, subject to normal post-closing adjustments
- Net proceeds from the sale are expected to be approximately $\$ 570$ million
- The difference between the purchase price and the net proceeds is due to:
- Tax expense related to the expected gain on the sale
- Cash balances in the held separate businesses
- May be distributed in form of dividends or purchase price adjustment
- Dividends may occur in a period different than the period in which the sale closes
- Transaction costs, including investment banker and legal fees

## Acquisition - High Pressure Equipment

- High Pressure Equipment Company (HiP), an Erie, Pennsylvania based manufacturer of high quality, high pressure values used in Oil \& Natural Gas (O\&NG) and other industrial processes was acquired on January $20^{\text {th }}, 2015$
