

Graco Launches New Line of G-Force II Pressure Washers

March 20, 2019

Contractor-grade performance & reliability on eight new models

MINNEAPOLIS--(BUSINESS WIRE)--Mar. 20, 2019-- Graco Inc. (NYSE:GGG), a leading manufacturer of fluid handling equipment, is proud to introduce its new full-line of G-Force™ II professional pressure washers designed to help contractors maximize productivity on any job.

The new line of Graco pressure washers includes quality brand name components to deliver contractor-grade performance for all types of applications – from remodeling or property maintenance to large commercial and industrial jobs. The competitively priced units feature industry-proven Honda® or Kohler® engines (depending on the model) for easy-starting, reliable power and three types of professional-grade triplex plunger pumps, including Cat Pumps® on select models.

In addition to quality brand name components, the all-new Graco pressure washers feature durable aluminum frames that are lightweight, easy to maneuver and corrosion resistant. Depending on the types of applications involved, contractors can choose between compact and lightweight direct-drive models or heavy-duty belt-drive models for the most demanding applications.

“After talking with contractors, we know they’re looking for top-quality, high-performing pressure washers that are reliable, day in and day out. We’re confident the new line of G-Force II pressure washers will deliver on their needs, with brand name components that have a proven reputation for quality and support, high-pressure cleaning power and availability at a competitive price in the market,” said Kate Grathwohl, Global Product Marketing Manager at Graco.
