

Graco Reports Second Quarter Results

July 24, 2024

MINNEAPOLIS--(BUSINESS WIRE)--Jul. 24, 2024-- Graco Inc. (NYSE: GGG) today announced results for the second quarter ended June 28, 2024.

- (1) Excludes the impact of excess tax benefits from stock option exercises. See Financial Results Adjusted for Comparability below for a reconciliation of adjusted non-GAAP financial measures to GAAP.
 - Net sales for the second quarter decreased 1 percent. Sales growth in the Contractor segment was unable to offset
 declines in the Industrial and Process segments. Regionally, sales decreased in EMEA and Asia Pacific and increased in
 the Americas.
 - Operating earnings for the second quarter increased 3 percent, as an improved gross profit margin rate offset lower sales volume and higher operating expenses.
 - Net earnings for the second quarter decreased 1 percent as higher operating earnings and lower interest expense were
 unable to offset the impact of a higher effective income tax rate. On an adjusted basis, net earnings increased 3 percent.

"Strength in the Contractor segment this quarter was not enough to offset declines elsewhere, resulting in overall sales performance that was below our expectations," said Mark Sheahan, Graco's President and CEO. "New product introductions in Contractor were well-received and led to sales growth. Declines in Asia Pacific were driven largely by the China market, where softening demand is negatively impacting our sealant and adhesives, powder coating equipment and semiconductor businesses. Operating earnings performance was strong for the quarter with an expansion of more than 100 basis points when compared to our second quarter last year."

Consolidated Results

Net sales for the second quarter decreased 1 percent from the comparable period last year. Second quarter net sales increased 5 percent in the Americas, decreased 6 percent in EMEA (5 percent at consistent translation rates) and decreased 18 percent in Asia Pacific (16 percent at consistent translation rates). Year-to-date net sales decreased 4 percent from the comparable period last year. Year-to-date net sales decreased 1 percent in the Americas, decreased 2 percent in EMEA (3 percent at consistent translation rates) and decreased 17 percent in Asia Pacific (15 percent at consistent translation rates). Changes in currency translation rates decreased worldwide sales by \$3 million for the quarter and \$4 million for the year to date.

Gross profit margin rate improved 2 percentage points for the second quarter and 1 percentage point for the year to date from the comparable periods last year mostly due to lower product costs and realized price increases.

Total operating expenses for the second quarter were \$5 million (4 percent) higher than the second quarter last year. The increase for the quarter included approximately \$3 million of expenses associated with the relocation to a new distribution center and \$2 million related to product development, growth initiatives and other corporate items. Year-to-date operating expenses increased \$10 million (4 percent) compared to the first half last year. The increase included \$5 million related to product development, growth initiatives and other corporate items, \$3 million associated with the distribution center relocation, and \$2 million of incremental share-based compensation. Operating expense rate-related increases of approximately 3 percent for both the quarter and year to date were mostly offset by reductions in sales and earnings-based expenses.

Interest expense was \$1 million lower for the second quarter and \$2 million lower for the year to date compared to the same periods last year as private placement debt was repaid in the third quarter of 2023. Other income was flat for the quarter and increased \$6 million year-to-date from the comparable periods last year. The year-to-date increase was largely due to increased interest income.

The effective income tax rate was up 4 percentage points to 20 percent for the second quarter and down 1 percentage point to 16 percent for the year to date from the comparable periods last year due primarily to variations in excess tax benefits related to stock option exercises.

Segment Results

Management assesses performance of segments by reference to operating earnings excluding unallocated corporate expenses. For a reconciliation of segment operating earnings to consolidated operating earnings, refer to the segment information table included in the financial statement section of this release. Certain measurements of segment operations are summarized below:

| | | | Thi | ree Months | | | | S | x Months | |
|---|----|-----------|-----|------------|-------------|----|----------------|----|-----------|-------------|
| | Co | ontractor | li | ndustrial | Process | Co | ontractor | li | ndustrial | Process |

| 2023 | | 27% | | 34% | 31% | | 28% | | 35% | 31% |

Components of net sales change by geographic region for the Contractor segment were as follows:

| | | Three N | /lonths | | Six Months | | | | | | | |
|--------------|------------------|--------------|----------|-------|------------------|--------------|----------|-------|--|--|--|--|
| | Volume and Price | Acquisitions | Currency | Total | Volume and Price | Acquisitions | Currency | Total | | | | |
| Americas | 9% | 0% | 0% | 9% | (1)% | 0% | 0% | (1)% | | | | |
| EMEA | (7)% | 0% | (1)% | (8)% | 0% | 0% | 1% | 1% | | | | |
| Asia Pacific | 10% | 0% | (3)% | 7% | 3% | 0% | (4)% | (1)% | | | | |
| Consolidated | 6% | 0% | (1)% | 5% | 0% | 0% | 0% | 0% | | | | |

Favorable response from new product offerings led to a 5 percent increase in net sales for the second quarter. Net sales were flat for the year to date as favorable response from new product offerings offset softness in worldwide construction markets. The operating margin rate increased 4 percentage points for the quarter driven by lower product costs and price realization. For the year to date, lower product costs and price realization were partially offset by higher expenses, particularly in new product development, resulting in a 2 percentage point increase to the operating margin rate.

Components of net sales change by geographic region for the Industrial segment were as follows:

| | | Three N | /lonths | | Six Months | | | | | | |
|--------------|------------------|--------------|----------|-------|------------------|--------------|----------|-------|--|--|--|
| | Volume and Price | Acquisitions | Currency | Total | Volume and Price | Acquisitions | Currency | Total | | | |
| Americas | 10% | 0% | 0% | 10% | 4% | 0% | 0% | 4% | | | |
| EMEA | (2)% | 0% | (1)% | (3)% | (3)% | 0% | 0% | (3)% | | | |
| Asia Pacific | (25)% | 0% | (2)% | (27)% | (19)% | 0% | (2)% | (21)% | | | |
| Consolidated | (4)% | 0% | (1)% | (5)% | (5)% | 0% | 0% | (5)% | | | |

Industrial segment net sales decreased 5 percent for the second quarter and year to date, as growth in the Americas was more than offset by double-digit declines in Asia Pacific. The operating margin rate was flat for the quarter and decreased 2 percentage points for the year to date. The favorable effects of product and channel mix was able to offset higher expenses for the quarter, but unable to offset higher expenses for the year to date. Changes in foreign currency translation rates further reduced the operating margin rate for the year to date.

Components of net sales change by geographic region for the Process segment were as follows:

| | | Three N | /lonths | | Six Months | | | | | | |
|--------------|------------------|--------------|----------|-------|------------------|--------------|----------|-------|--|--|--|
| | Volume and Price | Acquisitions | Currency | Total | Volume and Price | Acquisitions | Currency | Total | | | |
| Americas | (5)% | 0% | 0% | (5)% | (6)% | 0% | 0% | (6)% | | | |
| EMEA | (9)% | 0% | 0% | (9)% | (8)% | 0% | 0% | (8)% | | | |
| Asia Pacific | (19)% | 0% | (1)% | (20)% | (20)% | 0% | (2)% | (22)% | | | |
| Consolidated | (9)% | 0% | 0% | (9)% | (9)% | 0% | 0% | (9)% | | | |

Process segment net sales decreased 9 percent for both the second quarter and year to date, as sales decreased in most product applications. Weakness in the semiconductor and industrial lubrication product applications was notable for both the quarter and year to date. The operating margin rate for this segment decreased approximately 2 percentage points for the quarter and year to date due primarily to unfavorable expense leverage on lower sales volume.

Outlook

"Given the slow first half of the year in both our Industrial and Process segments, we are lowering our full-year 2024 worldwide outlook to low single-digit sales decline on an organic, constant currency basis," stated Sheahan. "While overall economic conditions are challenging, particularly in Asia Pacific, Graco is well-positioned for the long term as we continue to pursue our proven growth strategies and invest in our businesses."

Financial Results Adjusted for Comparability

Excluding the impacts of excess tax benefits from stock option exercises presents a more consistent basis for comparison of financial results. A calculation of the non-GAAP adjusted measurements of income taxes, effective income tax rate, net earnings and diluted earnings per share follows
