GRACO INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

1. The consolidated balance sheet of Graco Inc. and Subsidiaries (the “Company”) as of March 29, 2013 and the related statements of earnings for the thirteen weeks ended March 29, 2013 and March 30, 2012, and cash flows for the thirteen weeks ended March 29, 2013 and March 30, 2012 have been prepared by the Company and have not been audited.

In the opinion of management, these consolidated financial statements reflect all adjustments (consisting of only normal recurring adjustments) necessary to present fairly the financial position of Graco Inc. and Subsidiaries as of March 29, 2013, and the results of operations and cash flows for all periods presented.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed or omitted. Therefore, these statements should be read in conjunction with the financial statements and notes thereto included in the Company’s 2012 Annual Report on Form 10-K.

The results of operations for interim periods are not necessarily indicative of results that will be realized for the full fiscal year.

2. The following table sets forth the computation of basic and diluted earnings per share (in thousands, except per share amounts):

	Thirteen Weeks Ended	
	Mar 29, 2013	Mar 30, 2012
Net earnings available to common shareholders	\$ 52,130	\$ 35,381
Weighted average shares outstanding for basic earnings per share	60,961	60,052
Dilutive effect of stock options computed using the treasury stock method and the average market price	1,447	1,286
Weighted average shares outstanding for diluted earnings per share	62,408	61,338
Basic earnings per share	\$ 0.86	\$ 0.59
Diluted earnings per share	\$ 0.84	\$ 0.58

[Table of Contents](#)

Stock options to purchase 872,000 and 876,000 shares were not included in the March 29, 2013 and March 30, 2012 computations of diluted earnings per share, respectively, because they would have been anti-dilutive.

3. Information on option shares outstanding and option activity for the thirteen weeks ended March 29, 2013 is shown below (in thousands, except per share amounts):

	<u>Option Shares</u>	<u>Weighted Average Exercise Price</u>	<u>Options Exercisable</u>	<u>Weighted Average Exercise Price</u>
Outstanding, December 28, 2012	5,192	\$ 34.85	3,194	\$ 32.99
Granted	513	58.74		
Exercised	(283)	31.66		
Canceled	(11)	40.19		
Outstanding, March 29, 2013	<u>5,411</u>	<u>\$ 37.27</u>	<u>3,611</u>	<u>\$ 32.88</u>

The Company recognized year-to-date share-based compensation of \$3.4 million in 2013 and \$2.9 million in 2012. As of March 29, 2013, there was \$16.6 million of unrecognized compensation cost related to unvested options, expected to be recognized over a weighted average period of 2 years.

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option-pricing model with the following weighted average assumptions and results:

	<u>Thirteen Weeks Ended</u>	
	<u>Mar 29, 2013</u>	<u>Mar 30, 2012</u>
Expected life in years	6.5	6.5
Interest rate	1.3 %	1.3 %
Volatility	36.3 %	36.6 %
Dividend yield	1.7 %	1.8 %
Weighted average fair value per share	<u>\$ 18.29</u>	<u>\$ 15.44</u>

Under the Company's Employee Stock Purchase Plan, the Company issued 197,000 shares in 2013 and 239,000 shares in 2012. The fair value of the employees' purchase rights under this Plan was estimated on the date of grant. The benefit of the 15 percent discount from the lesser of the fair market value per common share on the first day and the last day of the plan year was added to the fair value of the employees' purchase rights determined using the Black-Scholes option-pricing model with the following assumptions and results:

	Thirteen Weeks Ended	
	Mar 29, 2013	Mar 30, 2012
Expected life in years	1.0	1.0
Interest rate	0.2 %	0.2 %
Volatility	26.0 %	40.6 %
Dividend yield	1.7 %	1.7 %
Weighted average fair value per share	\$ 14.16	\$ 15.58

In the first quarter of 2013, the Company granted 4,000 Restricted Share Awards to certain key employees that will vest on the fourth anniversary of the date of grant. The Company also granted 1,700 Restricted Share Units to a key employee that will vest on the third anniversary of the date of grant. The market value of the awards and units at the date of grant will be charged to operations over the vesting periods. The expense related to these arrangements is not significant.

4. The components of net periodic benefit cost for retirement benefit plans were as follows (in thousands):

	Thirteen Weeks Ended	
	Mar 29, 2013	Mar 30, 2012

Income taxes payable	19,509	4,305
Other	20,903	22,704
Total other current liabilities	<u>\$ 70,634</u>	<u>\$ 65,393</u>

A liability is established for estimated future warranty and service claims that relate to current and prior period sales. The Company estimates warranty costs based on historical claim experience and other factors including evaluating specific product warranty issues. Following is a summary of activity in accrued warranty and service liabilities (in thousands):

	Thirteen Weeks Ended Mar 29, 2013	Year Ended Dec 28, 2012
Balance, beginning of year	\$ 7,943	\$ 6,709
Assumed in business acquisition	-	1,121

Reductions for claims settled	(2,137)	(8,313)
Balance, end of period	<u>\$ 7,643</u>	<u>\$ 7,943</u>

10. Assets and liabilities measured at fair value on a recurring basis and fair value measurement level were as follows (in thousands):

	Level	Mar 29, 2013	Dec 28, 2012
Assets			
Cash surrender value of life insurance	2	\$ 9,978	\$ 9,483
Forward exchange contracts	2	64	491
Total assets at fair value		<u>\$ 10,042</u>	<u>\$ 9,974</u>
Liabilities			
Deferred compensation	2	<u>\$ 3,257</u>	<u>\$ 3,016</u>

Contracts insuring the lives of certain employees who are eligible to participate in certain non-qualified pension and deferred compensation plans are held in trust. Cash surrender value of the contracts is based on performance measurement funds that

shadow the deferral investment allocations made by participants in certain deferred compensation plans. The deferred compensation liability balances are valued based on amounts allocated by participants to the underlying performance measurement funds.

Long-term notes payable with fixed interest rates have a carrying amount of \$300 million and an estimated fair value of \$330 million as of March 29, 2013 and December 28, 2012. The fair value of variable rate borrowings approximates carrying value. The Company uses significant other observable inputs to estimate fair value based on the present value of future cash flows and rates that would be available for issuance of debt with similar terms and remaining maturities.

11. The Company accounts for all derivatives, including those embedded in other contracts, as either assets or liabilities and measures those financial instruments at fair value. The accounting for changes in the fair value of derivatives depends on their intended use and designation.

As part of its risk management program, the Company may periodically use forward exchange contracts and interest rate swaps to manage known market exposures. Terms of derivative instruments are structured to match the terms of the risk being managed and are generally held to maturity. The Company does not hold or issue derivative financial instruments for trading purposes. All other contracts that contain provisions meeting the definition of a derivative also meet the requirements of, and have been designated as, normal purchases or sales. The Company's policy is to not enter into contracts with terms that cannot be designated as normal purchases or sales.

The Company periodically evaluates its monetary asset and liability positions denominated in foreign currencies. The Company enters into forward contracts or options, or borrows in various currencies, in order to hedge its net monetary positions. These instruments are recorded at current market values and the gains and losses are included in other expense (income), net. The notional amount of contracts outstanding as of March 29, 2013 totaled \$21 million. The Company believes it uses strong financial counterparts in these transactions and that the resulting credit risk under these hedging strategies is not significant.

The Company uses significant other observable inputs (level 2 in the fair value hierarchy) to value the derivative instruments used to hedge and net monetary positions, including reference to market prices and financial models that incorporate relevant market assumptions. The fair market value and balance sheet classification of such instruments follows (in thousands):

	Balance Sheet Classification	Mar 29, 2013	Dec 28, 2012
Gain (loss) on foreign currency forward contracts			
Gains		\$ 192	\$ 553
Losses		(128)	(62)
Net	Accounts receivable	<u>\$ 64</u>	<u>\$ 491</u>

12. On April 2, 2012, the Company completed the purchase of the finishing businesses of Illinois Tool Works Inc. (“ITW”). The acquisition included powder finishing and liquid finishing equipment operations, technologies and brands (separately, the “Powder Finishing” and “Liquid Finishing” businesses). Results of the Powder Finishing businesses have been included in the Industrial segment since the date of acquisition, including \$32 million of sales and \$5 million of operating earnings in the first quarter of 2013.

In May 2012, the United States Federal Trade Commission (“FTC”) issued a proposed decision and order which requires Graco to sell the Liquid Finishing business assets no later than 180 days from the date the order becomes final. The FTC has not yet issued its final decision and order.

The Company has retained the services of an investment bank to help it market the Liquid Finishing businesses and identify potential buyers. While it seeks a buyer, Graco must hold the Liquid Finishing business assets separate from its other businesses and maintain them as viable and competitive.

The Company does not have a controlling interest in the Liquid Finishing businesses, nor is it able to exert significant influence over those businesses. Consequently, the Company’s investment in the shares of the Liquid Finishing businesses has been reflected as a cost-method investment on the Consolidated Balance Sheets, and its results of operations have not been consolidated with those of the Company.

As a cost-method investment, income is recognized based on dividends received from current earnings of Liquid Finishing. Dividends of \$4 million received in the first quarter of 2013 are included in other expense (income) on the Consolidated Statements of Earnings. Also in the first quarter of 2013, ITW reimbursed Graco approximately \$1 million for payments of pre-acquisition tax liabilities paid by Liquid Finishing businesses after the acquisition date. This reimbursement was recorded as a reduction of the cost-method investment on the Consolidated Balance Sheet.

The Company evaluates its cost-method investment for other-than-temporary impairment at each reporting period. As of March 29, 2013, the Company evaluated its investment in Liquid Finishing and determined that there was no impairment.

Sales and operating earnings of the Liquid Finishing businesses were as follows (in thousands):

	Thirteen Weeks Ended	
	Mar 29, 2013	Mar 30, 2012
Net Sales	\$ 63,198	\$ 69,899
Operating Earnings	13,580	12,134

[Table of Contents](#)

The following pro forma information reflects the combined results of Graco and Powder Finishing operations as if the acquisition had occurred at the beginning of 2011 (in thousands, except per share amounts):

	Thirteen Weeks Ended	
	Mar 29, 2013	Mar 30, 2012
Net Sales	\$ 269,046	\$ 264,367
Operating Earnings	71,497	64,193
Net Earnings	47,904	38,921
Basic earnings per share	0.79	0.65
Diluted earnings per share	0.77	0.63

Powder Finishing sales of \$32 million were included in net sales in 2013 and \$30 million were included in pro forma net sales in 2012.

Pro forma results for 2012 reflect additional depreciation and amortization of \$2 million, as if the acquisition of Powder Finishing had occurred at the beginning of 2011. Non-recurring acquisition expenses of \$4 million were eliminated from the 2012 pro forma results.

To the extent that the Liquid Finishing businesses generate funds in excess of financial resources needed, the Company has access to such funds consistent with practices in place prior to the acquisition. For pro forma purposes, dividend income from Liquid Finishing of \$4 million was eliminated from other income in 2013.

Item 2.

GRACO INC. AND SUBSIDIARIES

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF
FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

Overview

The Company designs, manufactures and markets systems and equipment to move, measure, control, dispense and spray fluid and coating materials. Management classifies the Company's business into three reportable segments: Industrial, Contractor and Lubrication. Key strategies include developing and marketing new products, expanding distribution globally, opening new markets with technology and channel expansion and completing strategic acquisitions.

The following Management's Discussion and Analysis reviews significant factors affecting the Company's results of operations and financial condition. This discussion should be read in conjunction with the financial statements and the accompanying notes to the financial statements.

Acquisition

On April 2, 2012, the Company completed the purchase of the finishing businesses of ITW. The acquisition included Powder Finishing and Liquid Finishing equipment operations, technologies and brands. Results of the Powder Finishing business have been included in the Industrial segment since the date of acquisition, including \$32 million of sales and \$5 million of operating earnings in the first quarter of 2013.

Pursuant to a March 2012 order, the Liquid Finishing businesses were to be held separate from the rest of Graco's businesses while the United States Federal Trade Commission ("FTC") considered a settlement with Graco and determined which portions of the Liquid Finishing businesses Graco must divest.

In May 2012, the FTC issued a proposed decision and order which requires Graco to sell the Liquid Finishing business assets, including business activities related to the development, manufacture, and sale of products under the Binks®, DeVilbiss®, Ransburg® and BGK® brand names, no later than 180 days from the date the order becomes final. The FTC has not yet issued its final decision and order.

The Company has retained the services of an investment bank to help it market the Liquid Finishing businesses and identify potential buyers. While it seeks a buyer, Graco must continue to hold the Liquid Finishing business assets separate from its other businesses and maintain them as viable and competitive.

The Company does not control the Liquid Finishing businesses, nor is it able to exert influence over those businesses. Consequently, the Company's investment in the shares of the Liquid Finishing businesses has been reflected as a cost-method investment, and its financial results have not been consolidated with those of the Company.

As a cost-method investment, income is recognized based on dividends received from current earnings of Liquid Finishing. Dividends of \$4 million received in the first quarter of 2013 are included in other expense (income) on the Consolidated Statements of Earnings. Also in the first quarter of 2013, ITW reimbursed Graco approximately \$1 million for payments of pre-

[Table of Contents](#)

acquisition tax liabilities paid by Liquid Finishing businesses after the acquisition date. This reimbursement was recorded as a reduction of the cost-method investment on the Consolidated Balance Sheet.

The Company evaluates its cost-method investment for other-than-temporary impairment at each reporting period. As of March 29, 2013, the Company evaluated its investment in Liquid Finishing and determined that there was no impairment.

Consolidated Results

Net sales, net earnings and earnings per share were as follows (in millions except per share amounts and percentages):

	Thirteen Weeks Ended		
	Mar 29, 2013	Mar 30, 2012	% Change
Net Sales	\$ 269.0	\$ 234.1	15%
Net Earnings	\$ 52.1	\$ 35.4	47%
Diluted Net Earnings per Common Share	\$ 0.84	\$ 0.58	45%

Sales increased 15 percent from last year, with 14 percentage points of the growth from the addition of Powder Finishing, which contributed \$32 million of sales.

Net earnings increased 45 percent over last year, driven by higher sales and strong gross margin rates, a decrease in acquisition-related expenses, investment income from Liquid Finishing businesses held separate and favorable tax provision adjustments.

Changes in currency translation rates did not have a significant effect on first quarter operating results.

The following table presents components of changes in sales:

	Quarter						
	Segment			Region			Total
	Industrial	Contractor	Lubrication	Americas	EMEA	Asia Pacific	
Volume and Price	(1) %	8 %	(3) %	4 %	(4) %	1 %	1 %
Acquisitions	24 %	- %	- %	6 %	30 %	17 %	14 %
Currency	(1) %	- %	- %	- %	- %	(2) %	- %
Total	<u>22 %</u>	<u>8 %</u>	<u>(3) %</u>	<u>10 %</u>	<u>26 %</u>	<u>16 %</u>	<u>15 %</u>

[Table of Contents](#)

Sales by geographic area were as follows (in millions):

	Thirteen Weeks Ended	
	Mar 29, 2013	Mar 30, 2012
Americas ¹	\$ 138.2	\$ 126.0
EMEA ²	68.8	54.7
Asia Pacific	62.0	53.4
Consolidated	<u>\$ 269.0</u>	<u>\$ 234.1</u>

¹ North and South America, including the U.S.

² Europe, Middle East and Africa

Sales increased 15 percent, including increases of 10 percent in the Americas, 26 percent in EMEA and 16 percent in Asia Pacific.

Sales included \$32 million from Powder Finishing operations acquired in April 2012, including \$7 million in the Americas, \$16 million in EMEA and \$9 million in Asia Pacific. Sales from legacy operations (excluding Powder Finishing) were up 4 percent in the Americas, down 4 percent in EMEA and flat in Asia Pacific.

Gross profit margin, expressed as a percentage of sales, was 56 percent, down one-half percentage point from the first quarter last year. The unfavorable effect of lower margin rates from acquired Powder Finishing operations was offset somewhat by realized price increases and manufacturing cost improvements.

Total operating expenses increased by \$5 million, but included \$9 million from Powder Finishing operations. Acquisition and divestiture costs included in operating expenses decreased by \$4 million.

Other expense (income) included dividends of \$4 million received from the Liquid Finishing businesses that are required to be held separate from the Company's other businesses and accounted for as a cost-method investment.

The effective income tax rate of 27 percent was 8 percentage points lower than first quarter last year. This year's rate includes the impact of the federal R&D credit that was renewed in the first quarter, effective retroactive to the beginning of 2012. There was no R&D credit recognized in 2012. The effective rate in 2013 also reflects the effects of the after-tax dividend income received from the Liquid Finishing businesses held separate.

Segment Results

Certain measurements of segment operations compared to last year are summarized below:

Industrial

	Thirteen Weeks Ended	
	Mar 29, 2013	Mar 30, 2012
Net sales (in millions)		
Americas	\$ 66.2	\$ 59.4
EMEA	50.3	36.8
Asia Pacific	47.7	37.9
Total	<u>\$ 164.2</u>	<u>\$ 134.1</u>
Operating earnings as a percentage of net sales	<u>34 %</u>	<u>36 %</u>

Industrial segment sales increased 22 percent, including \$32 million from Powder Finishing operations. Sales from legacy operations were down 2 percent, mostly from an 8 percent decrease in EMEA, partially offset by a 3 percent increase in Asia Pacific. Operating margin rate for this segment decreased due to the lower rate earned in the Powder Finishing operations.

Contractor

	Thirteen Weeks Ended	
	Mar 29, 2013	Mar 30, 2012
Net sales (in millions)		
Americas	\$ 51.5	\$ 46.3
EMEA	16.1	15.9
Asia Pacific	10.0	9.8
Total	<u>\$ 77.6</u>	<u>\$ 72.0</u>
Operating earnings as a percentage of net sales	<u>21 %</u>	<u>17 %</u>

Contractor segment sales increased 8 percent, mostly in the Americas, where sales were strong in both the paint store and home center channels. Higher sales volume, improved gross margin rate (factory efficiencies and pricing) and expense leverage led to a higher operating margin rate in the Contractor segment.

Lubrication

	Thirteen Weeks Ended	
	Mar 29, 2013	Mar 30, 2012
Net sales (in millions)		
Americas	\$ 20.5	\$ 20.3
EMEA	2.5	1.9
Asia Pacific	4.2	5.8
Total	<u>\$ 27.2</u>	<u>\$ 28.0</u>
Operating earnings as a percentage of net sales	<u>19 %</u>	<u>22 %</u>

Lubrication segment sales decreased 3 percent. Increases in the Americas and EMEA were more than offset by a decrease in Asia Pacific, where several large industrial lubrication transactions in 2012 were not repeated in 2013. Lower volume led to a decrease in operating earnings in the Lubrication segment.

Liquidity and Capital Resources

Net cash provided by operating activities was \$39 million in 2013 and \$23 million in 2012. The increase mostly reflects the increase in net earnings. Accounts receivable and inventory balances have increased since the end of 2012 due to first quarter increases in business activity.

In May 2012, the FTC issued a proposed decision and order which requires Graco to sell the Liquid Finishing business assets, including business activities related to the development, manufacture, and sale of products under the Binks, DeVilbiss, Ransburg and BGK brand names, no later than 180 days from the date the order becomes final. The FTC has not yet issued its final decision and order.

The Company has retained the services of an investment bank to help it market the Liquid Finishing businesses and identify potential buyers. The Company believes its investment in the Liquid Finishing businesses, carried at a cost of \$426 million, is not impaired.

Under terms of the FTC's hold separate order, the Company is required to provide sufficient resources to maintain the viability, competitiveness and marketability of the Liquid Finishing businesses, including general funds, capital, working capital and reimbursement of losses. To the extent that the Liquid Finishing businesses generate funds in excess of financial resources needed, the Company has access to such funds consistent with practices in place prior to the acquisition. In the first quarter, the Company received \$4 million of dividends from current earnings of the Liquid Finishing businesses.

At March 29, 2013, the Company had various lines of credit totaling \$484 million, of which \$258 million was unused. Internally generated funds and unused financing sources are expected to provide the Company with the flexibility to meet its liquidity needs in 2013, including the needs of the Powder Finishing and Liquid Finishing businesses acquired in April 2012.

Outlook

We remain focused on achieving year-over-year sales growth in every region of the world in 2013. We believe the recovery in the U.S. housing market should result in double-digit growth in our Contractor Americas business for the year. The general industrial environment in the Americas is stable, despite a disappointing first quarter for our Industrial segment, and should result in low-to-mid single-digit growth for 2013. Challenging macroeconomic conditions in Western Europe and Asia Pacific continue to be a headwind, but our new product development, channel expansion and sales initiatives are expected to drive modest growth in EMEA and Asia Pacific in 2013.

SAFE HARBOR CAUTIONARY STATEMENT

The Company desires to take advantage of the “safe harbor” provisions regarding forward-looking statements of the Private Securities Litigation Reform Act of 1995 and is filing this Cautionary Statement in order to do so. From time to time various forms filed by our Company with the Securities and Exchange Commission, including our Form 10-K, our Form 10-Qs and Form 8-Ks, and other disclosures, including our 2012 Overview report, press releases, earnings releases, analyst briefings, conference calls and other written documents or oral statements released by our Company, may contain forward-looking statements. Forward-looking statements generally use words such as “expect,” “foresee,” “anticipate,” “believe,” “project,” “should,” “estimate,” “will,” and similar expressions, and reflect our Company’s expectations concerning the future. All forecasts and projections are forward-looking statements. Forward-looking statements are based upon currently available information, but various risks and uncertainties may cause our Company’s actual results to differ materially from those expressed in these statements. The Company undertakes no obligation to update these statements in light of new information or future events.

Future results could differ materially from those expressed, due to the impact of changes in various factors. These risk factors include, but are not limited to: changes in laws and regulations; economic conditions in the United States and other major world economies; whether we are able to locate, complete and effectively integrate acquisitions; whether we are able to effectively and timely complete a divestiture of the acquired Liquid Finishing businesses, which has not been completed and remains subject to FTC approval; risks incident to conducting business internationally, including currency fluctuations and political instability; supply interruptions or delays; the ability to meet our customers’ needs, and changes in product demand; new entrants who copy our products or infringe on our intellectual property; results of and costs associated with, litigation, administrative proceedings and regulatory reviews incident to our business; compliance with anti-corruption laws; the possibility of decline in purchases from few large customers of the Contractor segment; fluctuations in new construction and remodeling activity; natural disasters; and security breaches. Please refer to Item 1A of our Annual Report on Form 10-K for fiscal year 2012 for a more comprehensive discussion of these and other risk factors. These reports are available on the Company’s website at www.graco.com/ir and the Securities and Exchange Commission’s website at www.sec.gov. Shareholders, potential investors and other readers are urged to consider these factors in evaluating forward-looking statements and are cautioned not to place undue reliance on such forward-looking statements.

Investors should realize that factors other than those identified above and in Item 1A might prove important to the Company’s future results. It is not possible for management to identify each and every factor that may have an impact on the Company’s operations in the future as new factors can develop from time to time.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes related to market risk from the disclosures made in the Company's 2012 Annual Report on Form 10-K.

Item 4. Controls and Procedures

Evaluation of disclosure controls and procedures

As of the end of the fiscal quarter covered by this report, the Company carried out an evaluation of the effectiveness of the design and operation of its disclosure controls and procedures. This evaluation was done under the supervision and with the participation of the Company's President and Chief Executive Officer, the Chief Financial Officer, the Vice President and Controller, and the Vice President, General Counsel and Secretary. Based upon that evaluation, they concluded that the Company's disclosure controls and procedures are effective.

Changes in internal controls

During the quarter, there was no change in the Company's internal control over financial reporting that has materially affected or is reasonably likely to materially affect the Company's internal control over financial reporting.

PART II OTHER INFORMATION

Item 1A. Risk Factors

There have been no material changes to the Company's risk factors from those disclosed in the Company's 2012 Annual Report on Form 10-K.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

Issuer Purchases of Equity Securities

On September 14, 2012, the Board of Directors authorized the Company to purchase up to 6,000,000 shares of its outstanding common stock, primarily through open-market transactions. The authorization expires on September 30, 2015.

In addition to shares purchased under the Board authorizations, the Company purchases shares of common stock held by employees who wish to tender owned shares to satisfy the exercise price or tax withholding on option exercises.

No shares were purchased in the first quarter of 2013. As of March 29, 2013, there were 5,999,600 shares that may yet be purchased under the Board authorization.

Graco Reports Record Sales and Earnings Earnings Up 47 Percent on Sales Increase of 15 Percent

MINNEAPOLIS, MN (April 24, 2013) - Graco Inc. (**NYSE: GGG**) today announced results for the first quarter ended March 29, 2013.

Summary

\$ in millions except per share amounts

	Thirteen Weeks Ended		
	Mar 29, 2013	Mar 30, 2012	% Change
Net Sales	\$ 269.0	\$ 234.1	15%
Net Earnings	52.1	35.4	47%
Diluted Net Earnings per Common Share	\$ 0.84	\$ 0.58	45%

- Powder Finishing operations acquired in April 2012 contributed 14 percentage points of sales growth.
- Contractor segment operating earnings increased 31 percent, driven by double-digit percentage sales growth in the Americas.
- Acquisition and divestiture costs included in operating expenses decreased by \$4 million.
- Other expense (income) includes dividend income of \$4 million received from the Liquid Finishing businesses held as a cost-method investment.
- Changes in currency translation rates did not have a significant effect on operating results.

“Sales in the first quarter achieved a new record for the Company, driven by the 2012 acquisition of the Gema powder finishing business and strong double-digit growth by our Contractor business in the Americas,” said Patrick J. McHale, Graco's President and Chief Executive Officer. “The Industrial segment began the year slower than expected, with softness in the Americas and the EMEA region. This was partially offset by Graco's Asia Pacific Industrial business, which returned to growth. Lubrication segment sales were soft in Asia Pacific, as demand in the mining sector remained weak, somewhat offset by strength in EMEA. Gross margins Company-wide were solid, reflecting continued performance by Graco's factories and further improvements in the Gema business, significantly contributing to the Company's record earnings in the first quarter.”

Consolidated Results

Sales increased 15 percent, including increases of 10 percent in the Americas, 26 percent in EMEA and 16 percent in Asia Pacific.

More . . .

Page 2 GRACO

Sales included \$32 million from Powder Finishing operations acquired in April 2012, including \$7 million in the Americas, \$16 million in EMEA and \$9 million in Asia Pacific. Sales from legacy operations (excluding Powder Finishing) were up 4 percent in the Americas, down 4 percent in EMEA and flat in Asia Pacific.

Gross profit margin, expressed as a percentage of sales, was 56 percent, down one-half percentage point from the first quarter last year. The unfavorable effect of lower margin rates from acquired Powder Finishing operations was offset somewhat by realized price increases and manufacturing cost improvements.

Total operating expenses increased by \$5 million, but included \$9 million from Powder Finishing operations. Acquisition and divestiture costs included in operating expenses decreased by \$4 million.

Other expense (income) included dividends of \$4 million received from the Liquid Finishing businesses that are required to be held separate from the Company's other businesses and accounted for as a cost-method investment.

The effective income tax rate of 27 percent was 8 percentage points lower than first quarter last year. This year's rate includes the impact of the federal R&D credit that was renewed in the first quarter, effective retroactive to the beginning of 2012. There was no R&D credit recognized in 2012. The effective rate in 2013 also reflects the effects of the after-tax dividend income received from the Liquid Finishing businesses held separate.

Segment Results

Certain measurements of segment operations are summarized below:

	Thirteen Weeks		
	Industrial	Contractor	Lubrication
Net sales (in millions)	\$ 164.2	\$ 77.6	\$ 27.2
Percentage change from last year			
Sales	22%	8%	(3)%
Operating earnings	14%	31%	(16)%
Operating earnings as a percentage of sales			
2013	34%	21%	19%
2012	36%	17%	22%

Industrial segment sales increased 22 percent, including \$32 million from Powder Finishing operations. Sales from legacy operations were down 2 percent, mostly from an 8 percent decrease in EMEA, partially offset by a 3 percent increase in Asia Pacific. Operating margin rate for this segment decreased due to the lower rate earned in the Powder Finishing operations.

Contractor segment sales increased 8 percent, mostly in the Americas, where sales were strong in both the paint store and home center channels. Higher sales volume, improved gross margin rate and expense leverage led to a higher operating margin rate in the Contractor segment.

Lubrication segment sales decreased 3 percent. Increases in the Americas and EMEA were more than offset by a decrease in Asia Pacific, where several large industrial lubrication transactions in 2012 were not repeated in 2013. Lower volume led to a decrease in operating earnings in the Lubrication segment.

More . . .

Acquisition in 2012

On April 2, 2012, the Company completed the purchase of the finishing businesses of Illinois Tool Works Inc. The acquisition included Powder Finishing and Liquid Finishing equipment operations, technologies and brands. Results of the Powder Finishing business have been included in the Industrial segment since the date of acquisition.

Pursuant to a March 2012 order, the Liquid Finishing businesses were to be held separate from the rest of Graco's businesses while the United States Federal Trade Commission ("FTC") considered a settlement with Graco and determined which portions of the Liquid Finishing business Graco must divest.

In May 2012, the FTC issued a proposed decision and order which requires Graco to sell the Liquid Finishing business assets, including business activities related to the development, manufacture, and sale of products under the Binks®, DeVilbiss®, Ransburg® and BGK® brand names, no later than 180 days from the date the order becomes final. The FTC has not yet issued its final decision and order.

The Company has retained the services of an investment bank to help it market the Liquid Finishing businesses and identify potential buyers. While it seeks a buyer, Graco must continue to hold the Liquid Finishing business assets separate from its other businesses and maintain them as viable and competitive.

The Company does not control the Liquid Finishing businesses, nor is it able to exert influence over those businesses. Consequently, the Company's investment in the shares of the Liquid Finishing businesses has been reflected as a cost-method investment, and its financial results have not been consolidated with those of the Company. Income is recognized based on dividends received from current earnings and is included in other income.

The Liquid Finishing businesses generated sales of \$63 million and EBITDA of \$14 million in the first quarter.

Outlook

"We remain focused on achieving year-over-year sales growth in every region of the world in 2013," stated McHale. "We believe the recovery in the U.S. housing market should result in double-digit growth in our Contractor Americas business for the year. The general industrial environment in the Americas is stable, despite a disappointing first quarter for our Industrial segment, and should result in low-to-mid single-digit growth for 2013. Challenging macroeconomic conditions in Western Europe and Asia Pacific continue to be a headwind, but our new product development, channel expansion and sales initiatives are expected to drive modest growth in EMEA and Asia Pacific in 2013."

Cautionary Statement Regarding Forward-Looking Statements

The Company desires to take advantage of the "safe harbor" provisions regarding forward-looking statements of the Private Securities Litigation Reform Act of 1995 and is filing this Cautionary Statement in order to do so. From time to time various forms filed by our Company with the Securities and Exchange Commission, including our Form 10-K, our Form 10-Qs and Form 8-Ks, and other disclosures, including our 2012 Overview report, press releases, earnings releases, analyst briefings, conference calls and other written documents or oral statements released by our Company, may contain forward-looking statements. Forward-looking statements generally use words such as "expect," "foresee," "anticipate," "believe," "project," "should," "estimate," "will," and similar expressions, and reflect our Company's expectations concerning the future. All forecasts and projections are forward-looking statements. Forward-looking statements are based upon currently available information, but various risks and uncertainties may cause our Company's actual results to differ materially from those expressed in these statements. The Company undertakes no obligation to update these statements in light of new information or future events.

More . . .

Future results could differ materially from those expressed, due to the impact of changes in various factors. These risk factors include, but are not limited to: changes in laws and regulations; economic conditions in the United States and other major world economies; whether we are able to locate, complete and effectively integrate acquisitions; whether we are able to effectively and timely complete a divestiture of the acquired Liquid Finishing businesses, which has not been completed and remains subject to FTC approval; risks incident to conducting business internationally, including currency fluctuations and political instability; supply interruptions or delays; the ability to meet our customers' needs, and changes in product demand; new entrants who copy our products or infringe on our intellectual property; results of and costs associated with, litigation, administrative proceedings and regulatory reviews incident to our business; compliance with anti-corruption laws; the possibility of decline in purchases from few large customers of the Contractor segment; fluctuations in new construction and remodeling activity; natural disasters; and security breaches. Please refer to Item 1A of our Annual Report on Form 10-K for fiscal year 2012 (and most recent Form 10-Q) for a more comprehensive discussion of these and other risk factors. These reports are available on the Company's website at www.graco.com/ir and the Securities and Exchange Commission's website at www.sec.gov. Shareholders, potential investors and other readers are urged to consider these factors in evaluating forward-looking statements and are cautioned not to place undue reliance on such forward-looking statements.

Investors should realize that factors other than those identified above and in Item 1A might prove important to the Company's future results. It is not possible for management to identify each and every factor that may have an impact on the Company's operations in the future as new factors can develop from time to time.

Conference Call

Graco management will hold a conference call, including slides via webcast, with analysts and institutional investors on Thursday, April 25, 2013, at 11:00 a.m. ET, to discuss Graco's first quarter results.

A real-time webcast of the conference call will be broadcast live over the Internet. Individuals wanting to listen and view slides can access the call at the Company's website at www.graco.com/ir. Listeners should go to the website at least 15 minutes prior to the live conference call to install any necessary audio software.
