Cap Ex	 Capital expenditure expectations of approximately \$85 million in 2020, including approximately \$50 million facility expansion
Expenses	 Unallocated corporate expenses in 2020 are expected to be approximately \$30 million
Shares	Through September 2020, we repurchased 2.3 million shares. We may make opportunistic repurchases going forward
Currency	At current exchange rates, assuming the same volumes, mix of products and mix of business by currency as in 2019, the movement in foreign currencies would have no impact on sales or earnings for the full year 2020 and be a benefit of approximately 2% on sales and 3% on earnings in the fourth quarter
Taxes	At our current estimate of results and mix of earnings, we anticipate the effective tax rate for the fourth quarter and the full year to be between 18% - 19%, excluding any impact from excess tax benefits related to stock option exercises and other one time items. Actual results and mix of earnings may materially impact the expected tax rate for the fourth quarter and full year
Fiscal Year 2021	There will be 53 weeks in fiscal 2021, with 14 weeks in the fourth quarter compared to 52 weeks in fiscal 2020, with 13 weeks in the fourth quarter
