

**UNITED STATES  
SECURITIES AND EXCHANGE COMMISSION**  
WASHINGTON, D.C. 20549

**FORM 10-K**

- Annual Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934  
for the fiscal year ended **December 29, 2023**, or
- Transition report pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934  
for the transition period from \_\_\_\_\_ to \_\_\_\_\_.

**Commission File No. 001-09249**

**Graco Inc.**

(Exact name of Registrant as specified in its charter)

Minnesota  
(State or other jurisdiction of incorporation or organization)

41-0285640  
(I.R.S. Employer Identification No.)

88 - 11th Avenue N.E.  
Minneapolis, Minnesota

\_\_\_\_\_  
(Address of principal executive offices)

55413

\_\_\_\_\_  
(Zip Code)

(612) 623-6000

\_\_\_\_\_  
(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

Title of each class	Trading Symbol(s)	Name of each exchange on which registered
Common Stock, par value \$1.00 per share	GGG	The New York Stock Exchange

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.  Yes  No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act.  Yes  No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.  Yes  No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data file required to be submitted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit such files).  Yes  No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act:

Large accelerated filer     Accelerated filer     Non-accelerated filer     Smaller reporting company   
Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report.

If securities are registered pursuant to Section 12(b) of the Act, indicate by check mark whether the financial statements of the registrant included in the filing reflect the correction of an error to previously issued financial statements.

Indicate by check mark whether any of those error corrections are restatements that required a recovery analysis of incentive-based compensation received by any of the registrant's executive officers during the relevant recovery period pursuant

\_\_\_\_\_

\_\_\_\_\_

to §240.10D-1(b).

Indicate by check mark whether the registrant is a shell company (as defined by Rule 12b-2 of the Act).  Yes  No

The aggregate market value of 168,985,091 shares of common stock held by non-affiliates of the registrant was \$14,591,862,608 as of June 30, 2023.

168,178,661 shares of common stock were outstanding as of January 26, 2024.

**DOCUMENTS INCORPORATED BY REFERENCE**

Portions of the Company's definitive Proxy Statement for its Annual Meeting of Shareholders to be held on April 26, 2024, are incorporated by reference into Part III, as specifically set forth in said Part III.

**ACCESS TO REPORTS**

Investors may obtain access free of charge to the Graco Inc. Annual Report on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K, other reports and amendments to the reports by visiting the Graco website at [www.graco.com](http://www.graco.com). These reports will be available as soon as reasonably practicable following electronic filing with, or furnishing to, the Securities and Exchange Commission.

## **PART I**

### **Item 1. Business**

Graco Inc., together with its subsidiaries (“Graco,” “us,” “we,” or “our Company”), is a multi-national manufacturing company. We supply technology and expertise for the management of fluids and coatings in industrial and commercial applications. We design, manufacture and market systems and equipment used to move, measure, mix, control, dispense and spray fluid and powder materials. Our equipment is used in manufacturing, processing, construction and maintenance industries. Graco is a Minnesota corporation and was incorporated in 1926.

We specialize in providing equipment solutions for difficult-to-handle materials with high viscosities, abrasive or corrosive properties, and multiple component materials that require precise ratio control. We aim to serve niche markets, providing high customer value through product differentiation. Our products enable customers to reduce their use of labor, material and energy, improve quality and environmental performance.

We make significant investments in developing innovative, high-quality products. We strive to grow into new geographic markets by strategically adding commercial and technical resources and third-party distribution in growing and emerging markets. We have grown our third-party distribution to have specialized experience in particular end-user applications. We leverage our product technologies for new applications and industries.

We also make targeted acquisitions to broaden our product offerings, enhance our capabilities in the end-user markets we serve, expand our manufacturing and distribution base and potentially strengthen our geographic presence. These acquisitions may be integrated into existing Graco operations or may be managed as stand-alone operations. We completed business acquisitions in 2022 and 2021 that were not material to our consolidated financial statements.

We have particularly strong manufacturing, engineering and customer service capabilities that enhance our ability to provide premium customer experience, produce high-quality and reliable products and drive ongoing cost savings.

Our investment in new products, targeted acquisitions and strong manufacturing, engineering and customer service capabilities comprise our long-term growth strategies, which we coordinate and drive across our geographic regions. Values central to our identity - growth, product innovation, premium customer service, quality and continuous improvement - are leveraged to integrate and expand the capabilities of acquired businesses.

We classify our business into three reportable segments, each with a worldwide focus: Contractor, Industrial and Process.

Each segment sells its products in North, Central and South America (the “Americas”), Europe, Middle East and Africa (“EMEA”), and Asia Pacific. For 2023, sales in the Americas represented approximately 61 percent of our Company’s total sales. Sales in EMEA represented approximately 21 percent and sales in Asia Pacific represented approximately 18 percent. We provide marketing and product design in each of these geographic regions. Our Company also provides application assistance to distributors and employs sales personnel in each of these geographic regions.

Financial information concerning our segments and geographic markets is set forth in Part II, Item 7, Management’s Discussion and Analysis of Financial Condition and Results of Operations and Note B (Segment Information) to the Consolidated Financial Statements of this Form 10-K.

For information about our Company and our products, services and solutions, visit our website at [www.graco.com](http://www.graco.com). The information on the website is not part of this report nor any other report filed or furnished to the Securities and Exchange Commission (“SEC”).

#### **Manufacturing and Distribution**

We manufacture a majority of our products in the United States (“U.S.”). We also manufacture products in Switzerland (Industrial segment), Italy (Industrial segment), the United Kingdom (Process segment), the People’s Republic of China (“P.R.C.”, or “China”) (all segments), Belgium (all segments) and Romania (Industrial segment). Our manufacturing is aligned with our business segments and is co-located with product development to accelerate technology improvements and improve our cost structure. We perform critical machining, assembly and testing in-house for most of our products to control quality, improve response time and maximize cost-effectiveness. We make our products in focused factories and product cells. We source raw materials and components from suppliers around the world.

For all segments, we primarily sell our equipment through third-party distributors worldwide, positioned throughout our geographic regions, and through selected retailers. Our products are sold from our warehouse to our third-party distributors or retailers who sell our products to end users. Certain of our businesses sell their products directly to end-user customers and have direct relationships with customers.

Outside of the U.S., our subsidiaries located in Australia, Belgium, Spain, Japan, Italy, Korea, India, the P.R.C., the United Kingdom and Brazil distribute our Company's products. Operations in Maasmechelen, Belgium, St. Gallen, Switzerland, and Shanghai, P.R.C. reinforce our commitment to those regions.

Our manufacturing capacity is sufficient for current business demand levels. In 2023, we completed an expansion of our Sioux Falls, South Dakota manufacturing facility and the construction of a new manufacturing facility in Sibiu, Romania. We also took possession of our newly constructed worldwide distribution center in Dayton, Minnesota, which we anticipate will first be operational later in 2024. In addition, in 2023, we continued construction of a new facility in St. Gallen, Switzerland that will contain manufacturing operations for our Powder division, as well as began an expansion of our Anoka, Minnesota facility. The completion of these projects, which we expect to occur in 2024, represents the culmination of a period of significant investment in expansion and modernization of our key manufacturing and distribution facilities. Following completion of these projects, production requirements in the immediate future are expected to be met through existing facilities, the installation of new automatic and semi-automatic machine tools, efficiency and productivity improvements, the use of leased space and available subcontract services. For more details on our facilities, see Item 2, Properties.

### **Product Development**

Our primary product development efforts are carried out in facilities located in Minneapolis, Anoka, Dayton and Rogers, Minnesota; North Canton, Ohio; St. Gallen, Switzerland; Barcelona, Spain; Aachen, Germany; Suzhou, Shanghai and Dongguan City, P.R.C.; Dexter, Michigan; Erie, Pennsylvania; and Kamas, Utah. The product development and engineering groups focus on new product design, product improvements, and new applications for existing products and technologies for their specific customer base. We continue to enhance our product capabilities with particular emphasis on automation and configurability, easier integration with end-user customer manufacturing and business systems, and increased focus on data and analytics. Our product development efforts focus on bringing new and supplemental return on investment value to end users of our products and enhance their ability to manage products and efficiency and support their sustainability initiatives.

Our Company consistently makes significant investments in new products. Total product development expenditures for all segments were \$83 million in 2023, \$80 million in 2022 and \$80 million in 2021. The amounts invested in product development averaged approximately 4 percent of sales over the last three years. Our product development activities are focused both on upgrades to our current product lines to provide features and benefits that will provide a return on investment to our end-user customers and development of products that will reach into new industries and applications to incrementally grow our sales. Sales of products that refresh and upgrade our product lines are measured and compared with planned results. Sales of products that provide entry into new industries and applications are also measured, with additional focus on commercial resources and activities to build specialized third-party distribution and market acceptance by end users.

Our Company measures the results of acquired businesses as compared to historical results and projections made at the time of acquisition. We will invest in engineering, manufacturing and commercial resources for these businesses based on expected return on investment.

### **Business Segments**

Effective January 1, 2022, our high performance coatings and foam product offerings previously included within the Applied Fluid Technologies division of the Industrial segment were realigned and are now managed under the Contractor segment. This change aligns the types of products offered and markets served within the segments. Prior year segment information has been restated to conform to the current organizational structure.

### **Contractor Segment**

The Contractor segment represented approximately 45 percent of our total sales in 2023. Through this segment, we offer sprayers that apply paint to walls and other structures, with product models for users ranging from do-it-yourself homeowners to professional contractors. Contractor equipment also includes sprayers that apply texture to walls and ceilings, highly viscous coatings to roofs, and markings on roads, parking lots, athletic fields and floors.

This segment also manufactures two-component proportioning systems that are used to spray polyurethane foam ("spray foam") and polyurea coatings. Spray foam is commonly used for insulating building walls, roofs, water heaters, refrigerators, hot tubs and other items. Polyurea coatings are applied on storage tanks, pipes, roofs, truck beds, concrete and other items. We offer a complete line of pumps and proportioning equipment that sprays specialty coatings on a variety of surfaces for protection and fireproofing.

End users of this segment are primarily professional painters in the construction and maintenance industries, specialty contractors, tradesmen and do-it-yourselfers. Contractor products are marketed and sold in all major geographic areas. We continue to add distributors throughout the world that specialize in the sale of Contractor products. Globally, we are pursuing a broad strategy of converting contractors accustomed to manually applying paint and other coatings to spray technology.

Our Contractor products are distributed primarily through distributor outlets whose main products are paint and other coatings. Certain sprayers and accessories are distributed globally through the home center channel. Contractor products are also sold through general equipment distributors outside of North America.

### **Industrial Segment**

The Industrial segment represented approximately 30 percent of our total sales in 2023. It includes the Industrial and Powder divisions. The Industrial segment markets equipment and solutions for moving and applying paints, coatings, sealants, adhesives and other fluids. Markets served include automotive and vehicle assembly and components production, including Electro or e-mobility, wood and metal products, rail, marine, aerospace, farm, construction, bus, recreational vehicles and various other industries. End users often invest in our equipment to gain process efficiencies, improve quality or save on material or energy costs. A majority of this segment's business is outside of North America.

Most Industrial segment equipment is sold worldwide through specialized third-party distributors, integrators, design centers, original equipment manufacturers and material suppliers. Some products are sold directly to end users and may include design and installation to specific customer requirements. We work with material suppliers to develop or adapt our equipment for use with specialized or hard-to-handle materials. Distributors promote and sell the equipment, hold inventory, provide product application expertise and offer on-site service, technical support and integration capabilities. Integrators implement large individual installations in manufacturing plants where products and services from a number of different manufacturers are aggregated into a single system. Design centers engineer systems for their customers using our products. Original equipment manufacturers incorporate our Industrial segment products into systems and assemblies that they then supply to their customers.

### **Industrial**

The Industrial division makes liquid finishing and advanced fluid dispense equipment primarily for use in industrial applications.

This division's products include liquid finishing equipment that applies liquids on metals, wood and plastics, with emphasis on solutions that provide easy integration to paint monitoring and control systems. Products include paint circulating and paint supply pumps, paint circulating advanced control systems, plural component coating proportioners, various accessories to filter, transport, agitate and regulate fluid, and spare parts such as spray tips, seals and filter screens. The Industrial division also offers a variety of applicators that use different methods of atomizing and spraying liquid materials, paint or other coatings depending on the viscosity of the fluid, the type of finish desired and the need to maximize transfer efficiency, minimize overspray and minimize the release of volatile organic compounds into the air. Manufacturers in the automotive, automotive feeder, commercial and recreational vehicle, military and utility vehicle, aerospace, farm, construction, wood and general metals industries use our liquid finishing products.

The Industrial division also manufactures equipment for industrial customers that pumps, meters, mixes and dispenses sealant, adhesive and composite materials. Advanced fluid dispense equipment includes gel-coat equipment, chop and wet-out systems, resin transfer molding systems and applicators and precision dispensing solutions. This precision

dispense equipment bonds, molds, seals, vacuum encapsulates and laminates parts and devices in a wide variety of industrial applications.

### **Powder**

The Powder division makes powder finishing products and complete powder finishing systems that coat powder on metals. These products are sold under the Gema® and SAT™ brands. Gema powder systems coat window frames, metallic furniture, automotive components and sheet metal. Primary end users of our powder finishing products include manufacturers in the construction, home appliance, automotive component and custom project coater industries. We strive to provide innovative solutions in powder coating for end users in emerging and developed markets.

### **Process Segment**

The Process segment represented approximately 25 percent of our total sales in 2023. It includes the Process and Lubrication divisions. The Process segment markets pumps, valves, meters and accessories to move and dispense chemicals, oil and natural gas, water, wastewater, petroleum, food, lubricants and other fluids. Markets served include food and beverage, dairy, oil and natural gas, pharmaceutical, cosmetics, semiconductor, electronics, wastewater, mining, fast oil change facilities, service garages, fleet service centers, automobile dealerships and industrial lubrication applications.

Most Process segment equipment is sold worldwide through third-party distributors and original equipment manufacturers. Some products are sold directly to end users, particularly in the oil and natural gas and semiconductor industries.

### **Process**

The Process division makes pumps of various technologies that move chemicals, water, wastewater, petroleum, food and other fluids. Manufacturers and processors in the food and beverage, dairy, pharmaceutical, cosmetic, oil and natural gas, semiconductor, electronics, wastewater, mining and ceramics industries use these pumps. This division makes environmental monitoring and remediation equipment that is used to conduct ground water sampling and ground water remediation, and for landfill liquid and gas management.

### **Lubrication**

The Lubrication division primarily designs and sells equipment for use in equipment maintenance and vehicle servicing. We supply pumps, hose reels, meters, valves and accessories for use by fast oil change facilities, service garages, fleet service centers, automobile dealerships, auto parts stores, truck builders and heavy equipment service centers.

This division also offers systems, components and accessories for the automatic lubrication of bearings, gears and generators in industrial and commercial equipment, compressors, turbines and on- and off-road vehicles. Automatic lubrication systems reduce maintenance costs, downtime and extend equipment life. These systems are utilized across a variety of industries including construction, mining, industrial manufacturing, transportation, wind energy and oil and natural gas.

The Lubrication division also manufactures high pressure and ultra-high pressure valves used in the oil and natural gas industry, hydrogen refueling infrastructure, other industrial processes and research facilities. The division also has a line of chemical injection pumping solutions for precise injection of chemicals into producing oil wells and pipelines.

## **Raw Materials**

The primary materials and components in our products are steel of various alloys, sizes and hardness; specialty stainless steel and aluminum bar stock, tubing and castings; tungsten carbide; electric and gas motors; injection molded plastics; sheet metal; forgings; powdered metal; hoses; electronic components and high-performance plastics, such as polytetrafluoroethylene ("PTFE"). The materials and components that we use are generally available through multiple sources of supply. To manage cost, we source significant amounts of materials and components from outside the U.S., primarily in the Asia Pacific region.

In 2023, the Company's supply chain stabilized, and the associated effects of inflation largely subsided. While the Company experienced isolated supply chain disruptions in 2023, the impact was not as significant as compared to previous years in 2022 and 2021. We are generally able to find alternative suppliers to source raw materials and components for our products in the event of isolated disruptions.

We endeavor to address fluctuations in the price and availability of various materials and components through close management of current suppliers, price negotiations and an intensive search for new suppliers. We have performed risk assessments of our key suppliers, and we factor the risks identified into our commodity plans.

## **Intellectual Property**

We own a number of patents across our segments and have patent applications pending in the U.S. and other countries. We also license our patents to others and are a licensee of patents owned by others. In our opinion, our business is not materially dependent upon any one or more of these patents or licenses. Our Company also owns a number of trademarks in the U.S. and foreign countries, including registered trademarks for "GRACO," "Gema," several forms of a capital "G," and various product trademarks that are material to our business, inasmuch as they identify Graco and our products to our customers.

## **Competition**

We encounter a wide variety of competitors that vary by product, industry and geographic area. Each of our segments generally has multiple competitors. Our competitors are both U.S. and foreign companies and range in size. We believe that our ability to compete depends upon product quality, product reliability, innovation, design, customer support and service, specialized engineering and competitive pricing. Although no competitor duplicates all of our products, some competitors are larger than our Company, both in terms of sales of directly competing products and in terms of total sales and financial resources. We also face competitors with different cost structures and expectations of profitability, and these companies may offer competitive products at lower prices. We refresh our product line and continue development of our distribution channel to stay competitive. We also face competitors who illegally sell counterfeits of our products or otherwise infringe on our intellectual property rights. As this type of unfair competition grows or evolves, we may have to increase our intellectual property and unfair competition enforcement activities.

## **Environmental Protection**

Our compliance with federal, state and local laws and regulations did not have a material effect upon our capital expenditures, earnings or competitive position during the fiscal year ended December 29, 2023.

## **Human Capital Resources**

As of December 29, 2023, we employed approximately 4,000 persons. Of this total, approximately 1,400 were employees based outside of the U.S., and 1,300 were hourly factory workers in the U.S. None of our U.S. employees are covered by a collective bargaining agreement. Various national industry-wide labor agreements apply to certain employees in various countries outside of the U.S. Compliance with such agreements has no material effect on our Company or our operations.

The location of the majority of our manufacturing operations within the U.S. allows us to flex employee resources as needed to respond to changes in demand of our business. Our manufacturing, product development, warehouse and administrative employees are generally located in the same or adjacent facilities, which we believe contributes to our culture of strong manufacturing, engineering and customer service capabilities.

## **Health, Wellness & Safety**

The personal health, wellness and safety of each of our employees is of primary importance. The prevention of occupationally induced injuries and illnesses is given precedence over operating productivity. Our Health, Wellness and Safety program is designed to increase engagement, reduce absenteeism due to illness or injury, provide healthier lifestyle choices, and reduce health risk factors for our employees.

### **Total Rewards**

Our reward programs connect all employees to the performance and success of the Company. As an employer of choice, we offer pay, benefits and a work environment that attracts and retains high-performing talent. We believe that an effective compensation program must be market competitive as well as fair and equitable. Our compensation program is designed to attract and retain top talent, drive and reward performance and enhance our reputation. Our total rewards program is comprised of various elements, including base pay, variable pay, equity-based compensation for all employees, and health, welfare and retirement benefits.

### **Talent**

To achieve our strategic objectives, it is imperative that we attract, develop and retain qualified personnel. We seek to develop talent from within our organization and supplement our workforce with external hires as necessary. This approach has helped create among our employees an in-depth understanding of our business, products, competition and customers, while also adding new employee ideas and perspectives in support of our continuous improvement initiatives.

As of December 29, 2023, our executive officers responsible for setting overall strategy averaged nearly 21 years of tenure with us. Tenure of all employees averaged nearly 10 years, reflective of our positive workplace culture. Our recruiting team uses internal and external resources to recruit highly skilled and talented workers, and we encourage and reward employee referrals for open positions.

We are committed to maintaining a culture of trust that recognizes the dignity and uniqueness of the individual. We provide equal opportunities for professional growth and advancement based on performance, qualifications, demonstrated skill and achievements. All employees are encouraged, under a continuous improvement program with financial incentives, to submit ideas to improve profitability, quality, safety and environmental practices. New employee orientation and regular ethics training are required for all employees. We complete a biennial survey of our employees to assess our culture, benchmark us against industry leaders, and to make improvements as necessary.

### **Community**

We have a long history of giving back to the communities where we live and work through the volunteer efforts of our employees and the giving efforts of the Graco Foundation. The Graco Foundation's goal is to help organizations grow their ability to serve community needs through grants focused on capital projects, specific programs and technology needs. The Graco Foundation places emphasis on educational programs, especially STEM (science, technology, engineering and math) programs; human service programs promoting workforce development; and youth development programs. The Graco Foundation also supports several employee-based programs, including dollar-for-dollar gift matching, grants to support volunteerism, scholarships for children of employees, tutoring with a local middle school and an annual Paint-A-Thon that helps low-income seniors and people with permanent disabilities continue to live independently in their own homes.

### **Item 1A. Risk Factors**

As a global manufacturer of systems and equipment designed to move, measure, control, dispense and spray fluid and powder materials, our business is subject to various risks and uncertainties. Below are risk factors that could materially and adversely affect our business, financial condition and results of operations.

#### **Economic, Financial and Political Risks**

##### **Economic Environment - Demand for our products depends on the level of commercial and industrial activity worldwide.**

The demand for our products depends, in part, on the general economic conditions of the industries, geographies or economies in which our customers operate. An economic downturn, recession, depression, sustained inflationary pressures or financial market turmoil may depress demand for our equipment in all or some major geographies and markets. Economic uncertainty and volatility in various geographies and industries in which we conduct business may adversely affect our net sales and earnings. If our distributors and original equipment manufacturers are unable to, or have a diminished ability to, purchase our products because of unavailable credit or unfavorable credit terms, depressed end-user demand, or are simply unwilling to purchase our products, our net sales and earnings will be adversely affected.

An economic downturn may have an adverse effect on our results of operations and financial condition and affect our ability to satisfy the financial covenants in the terms of our financing arrangements. We cannot predict the timing, severity or duration of any such downturn, or the timing of any recovery.

**Currency - Changes in currency translation rates could adversely impact our revenue, earnings and the valuation of assets denominated in foreign currencies.**

A significant number of routine transactions to which we are a party are conducted in foreign currencies. Changes and volatility in exchange rates have impacted, and in the future may impact, our sales, cost of materials and earnings and the valuation of assets denominated in foreign currencies. A majority of our manufacturing and cost structure is based in the U.S. In addition, decreased value of local currency may make it difficult for some of our distributors and end users to purchase our products. A significant fluctuation in exchange rates may negatively impact our financial condition and results of operations.

**Russian Invasion of Ukraine and Political Instability – Russia’s invasion of Ukraine, and the sanctions and actions taken against Russia and Belarus in response to the invasion, has adversely impacted our business and may continue to do so. Uncertainty surrounding political leadership, as well as geopolitical unrest, could cause economic conditions in the U.S. or abroad to deteriorate, which could limit our growth opportunities and otherwise harm our business.**

The Russian invasion of Ukraine in 2022 and the resulting sanctions and actions taken against Russia and Belarus by the U.S., the United Kingdom, the European Union, Switzerland and others considerably restricted our ability to sell certain products in Russia and Belarus. As a consequence, beginning in 2022, we indefinitely suspended sales into Russia and Belarus, which continued throughout the entirety of 2023 and into 2024. We expect our ability to sell certain products in Russia and Belarus to continue to be restricted for the foreseeable future. While our sales into Russia and Belarus prior to 2022 were not material to our overall business, a significant escalation or expansion of the conflict beyond its current geographic, political and economic scope and scale could have a material adverse effect on our business, results of operations and financial condition, and could exacerbate other risks discussed in this report. Such risks include, but are not limited to: an increase in the frequency and severity of cybersecurity threats against us and the parties with whom we do business; unfavorable changes in exchange rates; further shortages, delivery delays and price inflation in a wide variety of raw materials and components; widespread reductions in end-user demand; and increased logistical challenges.

Domestic political instability, including government shut downs, may limit our ability to grow our business. International political instability (including tensions between the U.S. and the countries in which we conduct business, rumors or threats of war, terrorism and other hostilities, and geopolitical activity or trade disruptions, such as those caused by the Russia-Ukraine and Israel-Hamas conflicts, or any conflict or threatened conflict between China and Taiwan) may cause economic conditions in the U.S. or abroad to deteriorate. The occurrence of any of these events could result in a prolonged economic slowdown, prevent us or our customers from expanding into certain geographies or limit our ability to grow our business. Civil disturbances may harm our business.

**Interest Rate Fluctuations and Credit Markets – Declines in interest rates, asset values and investment returns could increase our pension costs and required pension contributions. Increases in interest rates, or the reduced availability of credit due to instability in the financial markets, could limit our ability to pursue growth initiatives and our customers’ ability to invest in their businesses, which could adversely impact demand for our products.**

The Company sponsors a qualified defined benefit pension plan for certain U.S. employees and retirees of the Company. The pension plan is funded with trust assets invested in a diversified portfolio of equity, fixed income and other investments. Declines in interest rates, the market value of plan assets, and investment returns could significantly increase our future estimated pension liabilities, net periodic pension costs and pension contribution requirements and, as a result, adversely affect our results of operations and financial condition.

While we believe our current cash position is strong and will enable us to fund many of our foreseeable growth initiatives, including acquisitions and capital investments, rising interest rates or reduced access to debt financing could impact our ability to pursue these initiatives. Reduced credit availability or a higher cost of capital may also limit the ability of end users of our products to invest in their businesses, which could depress demand for our equipment in all or some major geographies and markets.

## **Operational Risks**

### **Global Sourcing - Risks associated with foreign sourcing, supply interruption, delays in raw material or component delivery, supply shortages and counterfeit components may adversely affect our production or profitability.**

While we manufacture many of our parts and product components in the U.S., we source certain of our materials and components from suppliers outside the U.S., and from suppliers within the U.S. who engage in foreign sourcing. Long lead times or supply interruptions associated with a global supply base may reduce our flexibility and make it more difficult to respond promptly to fluctuations in demand or respond quickly to product quality problems. The availability and prices for raw materials, parts and components may be curtailed for a variety of reasons. Our suppliers may allocate the supply of certain raw materials, parts or components to other purchasers. Changes in exchange rates between the U.S. dollar and other currencies and fluctuations in the price of raw materials and components have impacted and may continue to impact the manufacturing costs of our products and affect our profitability.

Geopolitical instability (including in Europe and the Middle East), protective tariffs, unpredictable changes in duty rates, and changes in trade policies, agreements, relations and regulations have made and may continue to make certain foreign-sourced parts of limited availability or no longer competitively priced. Long supply chains may be disrupted by environmental events, public health crises, political or other factors. Raw materials may become limited in availability from certain regions. Port labor issues may delay shipments. We source a large volume and a variety of electronic components, which exposes us to an increased risk of counterfeit components entering our supply chain. If counterfeit components unknowingly become part of our products, we may need to stop delivery and rework our products. We may be subject to warranty claims and may need to recall products. While many of our raw materials, parts and components are generally commercially available from a number of sources, some of them are sourced from single suppliers, which has limited, and could continue to limit, their availability when those suppliers are unable or unwilling to meet our production requirements and we are unable to timely source such items from an alternative supplier. In addition, we source some of our materials, parts and components from suppliers located in China. As such, we are exposed to potential disruptions in deliveries from these suppliers due to political tensions with China, geopolitical risks, government-mandated facility closures in China due to public health matters or other causes. Shortages, delivery delays and price inflation in a wide variety of raw materials and components (including but not limited to electronic components, castings, engines and motors) and logistical challenges (including but not limited to increased freight costs, shipping container shortages, trucking shortages, ocean, railway and air freight capacity constraints, labor shortages and port delays) have adversely affected production and profitability and may continue to adversely affect production and profitability.

### **Information Systems - Interruption of or intrusion into information systems may impact our business.**

We rely on information systems and networks to conduct and support our business. Some of these systems and networks are managed, hosted and provided by third parties. We use these systems and networks to record, process, summarize, transmit and store electronic information, and to manage or support our business processes and activities. We have implemented measures and incurred costs intended to secure our information systems and networks and prevent unauthorized access to or loss of sensitive data by employing a number of measures, including employee training, comprehensive monitoring of our networks and systems, and maintenance of backup and protective systems. However, these measures may not be effective against all eventualities, and there is a possibility that our information systems, networks, and those of our third-party service providers may be exposed to risks, including unauthorized access, operational errors, fraudulent activities, system failures, poor password management, and other potential irregularities. Our employees, customers and others may be the subject of social engineering attacks and induced to disclose confidential, proprietary or other sensitive information, including their network credentials, to cybercriminals, who may then gain access to our and our customers' information, data and information technology systems. Cybersecurity threats are increasing in frequency, sophistication and severity. We have experienced and expect to continue to experience cybersecurity threats and attacks on our systems and networks and those of our third-party service providers. To date, none of the cybersecurity threats and attacks we have experienced have had a material adverse impact on our operations, business or financial condition.

The tactics and capabilities of cybercriminals are growing increasingly sophisticated, and it is virtually impossible for any organization, including us, to completely eliminate the risk of cyberattacks. Security breaches or intrusion into our information systems or networks or the information systems or networks of the third parties with whom we do business pose a risk to the confidentiality, availability and integrity of our data and of our customers, suppliers and employees, and could lead to any one or more of the following: the compromising of confidential information; manipulation, unauthorized use, theft or destruction of data; product defects or malfunctions; production downtimes and operations disruptions; litigation; regulatory action; reputational harm, including loss of confidence by our customers, suppliers and employees in our ability to adequately protect their information; fines; ransoms; and other costs and adverse consequences. As a

manufacturer, our operating technology assets and systems are susceptible to disruption through cyberattacks. We anticipate that meaningful investments in our operating technology infrastructure will be necessary as we continue to assess our operating technology posture and respond to the increasingly-pronounced risks posed by third-party cyber actors. The occurrence of a security breach or an intrusion into an information system or a network, or the breakdown, interruption in or inadequate upgrading or maintenance of our information processing software, hardware or networks or the internet, may adversely affect our business, reputation, results of operations and financial condition. We do not currently maintain specific cyber insurance coverage. Any insurance coverage we do have may be inadequate to compensate us for losses arising from any security breach or cybersecurity incident, and may in the future not be available to us on economically reasonable terms, or at all.

The laws, regulations and customer-imposed controls governing cybersecurity and privacy continue to evolve and are becoming increasingly complex. We will be required to commit significant resources to keep pace with continued changes in information technology processes, legal, regulatory and customer requirements, and the increased frequency and severity of cyberattacks and the sophistication of the methods used by those who perpetrate them. There can be no assurance that our efforts will be successful. In addition, we are subject to new cybersecurity disclosure rules, and we may face increased costs and be required to incur significant costs in the event of an actual or perceived cybersecurity incident and to comply with these rules.

**Intellectual Property - Demand for our products may be affected by new entrants who copy our products or infringe on our intellectual property. Competitors may allege that our products infringe the intellectual property of others.**

From time to time, we have been faced with instances where competitors have infringed or unfairly used our intellectual property or taken advantage of our design and development efforts. The ability to protect and enforce intellectual property rights varies across jurisdictions. Competitors who attempt to copy our products are prevalent in Asia, and they are increasingly offering their low-cost copies outside of Asia, including in Europe and North America. While we believe these copies oftentimes are of inferior quality to our products and lack much of the technology and many of the features inherent in our products, if we are unable to effectively meet these challenges, they could adversely affect our revenues and profits and hamper our ability to grow. Competitors and others may also initiate litigation to challenge the validity of our intellectual property or allege that we infringe their intellectual property. We may be required to pay substantial damages if it is determined our products infringe their intellectual property. We may also be required to develop an alternative, non-infringing product that could be costly and time-consuming, or acquire a license (if available) on terms that are not favorable to us. Regardless of whether infringement claims against us are successful, defending against such claims could significantly increase our costs, divert management's time and attention away from other business matters, and otherwise adversely affect our results of operations and financial condition.

**Generative Artificial Intelligence ("AI") – Use of generative AI technologies in the conduct of our business could result in the unintentional loss of confidential or proprietary information and have other adverse impacts on us.**

While we believe the development and adoption of generative AI technologies are in their early stages, the increased use of these technologies in the conduct of our business poses risks which, if they materialize, could adversely impact our business, financial condition, results of operation and reputation. The employment of generative AI tools creates opportunities for the potential loss or misuse of personal data, the inadvertent dissemination of our confidential or proprietary information, or the unintentional use of third parties' intellectual property. In addition, the content, analyses, recommendations or other output that generative AI tools produce could be deficient, inaccurate or biased or be based on flawed or insufficient datasets.

**Foreign Operations - Conducting business internationally exposes our Company to risks that could harm our business.**

In 2023, approximately 47 percent of our sales were generated by customers located outside the U.S. Operations and sales outside of the U.S. expose us to certain risks that could adversely impact our sales volume, rate of growth or profitability. These risks include: complying with foreign legal and regulatory requirements; international trade factors (export controls, customs clearance, trade policy, trade sanctions, trade agreements, duties, tariff barriers and other restrictions); trade disruptions arising out of geopolitical activity (such as those caused by the Russia-Ukraine and Israel-Hamas conflicts, or any conflict or threatened conflict between China and Taiwan); protection of our proprietary technology in certain countries; potentially burdensome taxes; potential difficulties staffing and managing local operations; and changes in exchange rates.

**Catastrophic Events - Our operations are at risk of damage, destruction or disruption by natural disasters and other unexpected events.**

The loss of, or substantial damage to, one of our facilities, our information system infrastructure or the facilities of our suppliers could make it difficult to manufacture product, fulfill customer orders and provide our employees with work. Flooding, tornadoes, hurricanes, unusually heavy precipitation or other severe weather events, earthquakes, tsunamis, fires, explosions, acts of war, terrorism, civil unrest or outbreaks, epidemics or pandemics of infectious diseases could adversely impact our operations.

**Personnel - Our success may be affected if we are not able to attract, develop and retain qualified personnel.**

Our success depends in large part on our ability to identify, recruit, develop and retain qualified personnel. If we are unable to successfully identify, recruit, develop and retain qualified personnel or adapt to changing worker expectations and working arrangements, it may be difficult for us to meet our strategic objectives and grow our business, which could adversely affect our results of operations and financial condition.

**Public health crises, such as an epidemic or pandemic, could have a material and adverse effect on our business, results of operations and financial condition.**

A significant public health crisis, and any associated governmental, business and societal responses, could have an adverse effect on our operations, employees, supply chains, distribution channels, and end-user customers. Any such public health crisis could have negative impacts similar to those we experienced during the recent COVID-19 pandemic, including: employees being infected by, or exposed to, the virus; adverse impacts on the efficiency and productivity of our workforce and our operations; adverse impacts on our ability to manufacture products and provide related services in a timely manner; supply chain disruptions, including increased costs of raw materials and components, and delays, shortages and difficulties in sourcing raw materials and components; volatility in demand for certain of our products; inability to meet end-user customer demand; distribution and logistics challenges, including increased freight costs, reduced freight capacity, and shipping delays; restrictions on our employees' ability to meet customers in person and the cancellation, postponement and reformatting of trade shows, industry events and product demonstrations, which impacted our selling activities and our ability to convert those activities into actual sales; and a significant investment of time, energy and resources by management in mitigating the effects of the pandemic on our employees and our business and complying with existing, new or modified governmental rules, regulations, standards and mandates. We could experience similar or additional, and potentially more significant, adverse effects on our business, results of operations and financial condition as a result of any future pandemic. The extent to which a public health crisis impacts us will depend on numerous factors and future developments that are uncertain and that we are not able to predict, including: the severity of the virus and new variants of the virus; the duration and scope of the pandemic; the efficacy, distribution and adoption rate of vaccines and therapeutic treatments; infection rates in the areas in which we or our suppliers, distributors or end-user customers operate; governmental, business, societal, individual and other actions taken in response to the pandemic; the effect on our suppliers and distributors, and disruptions to the global supply chain; the impact on economic activity; the effect on our end-user customers and their demand and buying patterns for our products and services; the effect of any closures or other changes in operations of our and our suppliers', distributors' and end-user customers' facilities; the health of and the effect on our employees and our ability to meet staffing needs; our ability to sell our products and services and provide product support; restrictions or disruptions to transportation, including reduced availability of ground, sea or air transport; and the effect on our ability to access capital on favorable terms and continue to meet our liquidity needs, all of which are highly uncertain and cannot be predicted. Even after a public health crisis subsides, we may continue to experience adverse effects to our business as a result of ongoing or new economic impacts. A public health crisis, including a pandemic, could also exacerbate or trigger other risks discussed in this report, any of which could have a material and adverse effect on our business, results of operations and financial condition.

**Strategic Risks**

**Growth Strategies and Acquisitions - Our growth strategies may not provide the return on investment desired if we are not successful in implementation of these strategies.**

Making acquisitions, investing in new products, expanding geographically and targeting new industries are among our growth strategies. We may not obtain the return on investment desired if we are not successful in implementing these growth strategies. The success of our acquisition strategy depends on our ability to successfully identify and properly value suitable acquisition candidates, negotiate appropriate acquisition terms, obtain financing at a reasonable cost, prevail against competing acquirers, complete the acquisitions and integrate or add the acquired businesses into our existing businesses or corporate structure. There is significant competition for quality acquisition opportunities, and there is no assurance that we will be successful in securing those opportunities, particularly in situations where other interested acquirers with greater resources than ours are involved. Once successfully integrated into our existing businesses or

added to our corporate structure, an acquired business may not perform as planned, be accretive to earnings, generate positive cash flows, provide an acceptable return on investment or otherwise be beneficial to us. We may not realize projected efficiencies and cost-savings from the businesses we acquire. We cannot predict how customers, competitors, suppliers, distributors and employees will react to the acquisitions that we make. Acquisitions may result in the assumption of undisclosed or contingent liabilities, the incurrence of increased indebtedness and expenses, and the diversion of management's time and attention away from other business matters, any of which may have an adverse effect on our business, results of operations and financial condition. We make significant investments in developing products that have innovative features and differentiated technology in their industries and in niche markets. We are adding to the geographies in which we do business with third-party distributors. We cannot predict whether and when we will be able to realize the expected financial results and accretive effect of the acquisitions that we close, the new products that we develop and the channel expansions that we make.

**Impairment - If acquired businesses do not meet performance expectations, acquired assets could be subject to impairment.**

Our total assets reflect goodwill from acquisitions, representing the excess cost over the fair value of the identifiable net assets acquired. We test annually whether goodwill has been impaired, or more frequently if events or changes in circumstances indicate the goodwill may be impaired. If future operating performance at one or more of our operating units were to fall significantly below forecast levels or if market conditions for one or more of our acquired businesses were to decline, we could be required to incur a non-cash charge to operating income for impairment. Any impairment in the value of our goodwill would have an adverse non-cash impact on our results of operations and reduce our net worth.

**Competition - Our success depends upon our ability to develop or acquire, and market and sell, new products that meet our customers' evolving needs and desires, and anticipate industry and market changes.**

Our profitability will be affected if we do not develop or acquire new products and technologies that meet our customers' evolving needs and desires. Our ability to develop or acquire, and market and sell, products that meet our customers' needs and desires depends upon a number of factors, including anticipating the features and products that our customers will need or want in the future, successfully implementing our acquisition strategies, identifying and entering into new markets, training our distributors, and anticipating market trends. Changes in industries and markets that we serve, including consolidation of competitors, distributors and customers, could affect our success. Changes in the competitive landscape, increases in the market reach of competitors, and improvements in the quality of competitive products could also affect our success. Price competition and competitor strategies could negatively impact our growth and have an adverse impact on our results of operations.

**Major Customers - Our Contractor segment depends on a few large customers for a significant portion of its sales. Significant declines in the level of purchases by these customers could reduce our sales and impact segment profitability.**

Our Contractor segment, which is our largest reporting segment by sales, derives a significant amount of revenue from a few large channel partners. Substantial decreases in purchases by these customers, difficulty in collecting amounts due or the loss of their business would adversely affect the profitability of this segment. The business of these customers is dependent upon prevailing levels of residential, commercial, industrial and institutional building and remodeling activities. If these activities decline, the business of our customers could be adversely affected and their purchases of our equipment could decrease which could have an adverse impact on our results of operations.

**Cyclical Industries - Our success may be affected by variations in the construction, automotive, electronics, aerospace, semiconductor, and agriculture and construction equipment industries.**

A substantial portion of our revenues is attributable to sales to customers in cyclical industries. Downturns in these industries could result in a deterioration of our customers' businesses and, in turn, a reduced demand for some of our products. Our business may be affected by fluctuations in residential, commercial, industrial and institutional building and remodeling activities. Changes in construction materials and techniques may also impact our business. Our business may also be affected by fluctuations of activity in the automotive, electronics, aerospace, semiconductor, and agriculture and construction equipment industries.

**Legal, Regulatory and Compliance Risks**

**Laws and Regulations - Changes in laws and regulations, and the imposition of new or additional laws and regulations, may impact how we can do business and the cost of doing business around the world.**

We are subject to many laws and regulations in the jurisdictions where we operate, and as the nature and geographic scope of our business grows and expands, we may become subject to additional laws and regulations previously inapplicable to our business. Changes to laws and regulations to which we are currently subject, exposure to additional laws and regulations previously inapplicable to our business, and the imposition of new laws and regulations increase our cost of doing business, may affect the manner in which our products will be produced or delivered, may affect the locations and facilities from which we conduct business, and may impact our long-term ability to provide returns to our shareholders.

**Climate-Related Laws, Regulations and Accords – Climate-related laws, regulations and accords may adversely impact our operations, the industries in which we operate, and increase our cost of doing business.**

Growing concerns over climate change has resulted in, and may continue to result in, new laws, regulations and accords intended to reduce emissions of certain greenhouse gases and to require reporting on such emissions and other climate-related matters. Existing and new laws, regulations and accords relating to emissions of certain greenhouse gases and the reporting of such emissions and other climate-related matters may be difficult and costly to comply with, may adversely impact certain aspects of our operations (including but not limited to the manufacture and distribution of our products), may adversely impact certain industries in which we operate, may result in increased energy, input, compliance and other costs, and may decrease demand for certain of our products.

**ESG Expectations and Requirements – Expectations and requirements relating to environmental, social and governance ("ESG") matters may increase our cost of doing business and expose us to reputational harm and potential liability.**

Many regulators, investors, employees, vendors, customers, community members and other stakeholders are increasingly focused on ESG matters such as climate change, greenhouse gas emissions, human capital, and diversity, equity and inclusion. As the nature, scope and complexity of ESG reporting, diligence and disclosure requirements expand, we may have to devote more resources, and incur additional costs, to control, assess and report on ESG metrics. We may make public statements about various ESG-related matters and initiatives from time to time, including on our website, in our press releases, in our ESG report, and in other communications. Addressing stakeholder expectations and regulatory requirements relating to ESG matters requires an investment of time, money and other resources, any or all of which may increase our cost of doing business. In addition, as investor and other stakeholder expectations relating to ESG matters change and evolve over time, any failure or perceived failure by us to adequately address those expectations may damage our reputation and adversely affect our business and results of operations. Similarly, any public statements we make about ESG-related matters and initiatives may result in legal and regulatory proceedings against us which could adversely affect our business and results of operations.

**Anti-Corruption and Trade Laws - We may incur costs and suffer damages if our employees, agents, distributors or suppliers violate anti-bribery, anti-corruption or trade laws and regulations.**

As a global manufacturer, we are subject to a variety of complex and stringent laws and regulations related to bribery, corruption and trade. The continued geographic expansion of our business increases our exposure to, and cost of complying with, these laws and regulations. Changes in export control or trade sanctions laws may restrict our business practices, including cessation of business activities in sanctioned countries or with sanctioned entities, and may result in modifications to our compliance programs and increase compliance costs. If our internal controls and compliance program do not adequately prevent or deter our employees, agents, distributors, suppliers and other third parties with whom we do business from violating anti-bribery, anti-corruption or trade laws and regulations, we may incur defense costs, fines, penalties, reputational damage and business disruptions.

**Tax Rates and New Tax Legislation - Changes in tax rates or the adoption of new tax legislation may affect our results of operations, cash flows and financial condition.**

The Company is subject to taxes in the U.S. and a number of foreign jurisdictions where it conducts business. The Company's effective tax rate has been and may continue to be affected by changes in the mix of earnings in jurisdictions with differing statutory tax rates, changes in the valuation of deferred tax assets and liabilities, and changes in tax laws or their interpretation, such as the 15% global minimum tax under the Organization for Economic Cooperation and Development ("OECD") Pillar Two, Global Anti-Base Erosion Rules. In addition, the U.S. government could adopt changes to international trade agreements, tariffs, taxes and other related regulations. If the Company's effective tax rate were to increase, or if the ultimate determination of the Company's taxes owed is for an amount in excess of amounts previously accrued, the Company's results of operations, cash flows and financial condition could be adversely affected.

**Legal Proceedings - Costs associated with claims, litigation, administrative proceedings and regulatory reviews, and potentially adverse outcomes, may affect our profitability.**

The nature of our business, including the equipment we develop, manufacture and sell, or have in the past developed, manufactured and sold, exposes us to the risk of product liability, warranty and tort (including toxic tort), commercial and employment-related claims, demands and litigation. As we grow, we are at an increased risk of being a target in matters related to the assertion of claims and demands, litigation, administrative proceedings and regulatory reviews. We may also need to pursue claims or litigation to protect our interests. The cost of pursuing, defending and insuring against such matters is increasing, particularly in the U.S. A claim against us could cause us to incur substantial and unexpected costs and affect customer confidence in our products, which may adversely affect our profitability. Further, due to adverse changes in costs to insure against such matters, we have increased our self-insured retention and deductibles and procured lower coverage limits under certain policies, which may increase our risk exposure for certain types of claims and adversely affect our profitability if we are ultimately held responsible for such claims. In some cases, our insurers may have the right to compel us to settle litigation we are defending and make a payment in connection with the settlement, even where we have a strong conviction in our defenses and believe our exposure is limited. Successful claims against the Company and settlements may adversely affect our results.

**Item 1B. Unresolved Staff Comments**

None.

**Item 1C. Cybersecurity**

Our cybersecurity program seeks to identify, assess and monitor material cybersecurity and other information technology risks and threats that may affect our information systems, networks and operations, including those systems and networks managed by third parties. We regularly assess potential risks and execute a layered cybersecurity strategy based on prevention, detection, mitigation, and remediation. The Company's cybersecurity risks are evaluated at least annually through our enterprise risk management program, which is a company-wide effort to identify, assess, manage, report and monitor material risks that may affect our ability to achieve our business objectives.

To manage our cybersecurity program, we have established a cross-functional cybersecurity oversight committee and cybersecurity team, both led by our Chief Information Officer ("CIO"). Our cybersecurity oversight committee and cybersecurity team, with the support of external cyber-specialist resources, include technical experts in cybersecurity risk management, incident response and security operations with extensive experience in the operations of networks, network security and infrastructure management. In addition, members of our cybersecurity team have cybersecurity experience or certifications, such as the Certified Information Systems Security Professional certification. Our CIO is informed about and monitors prevention, detection, mitigation, and remediation efforts through regular communication and reporting from professionals on the cybersecurity management team and through the use of technological tools and software.

Policies, procedures and controls under our cybersecurity program are designed in consideration of published frameworks, including the Center for Information Security ("CIS") Critical Security Controls, and routinely evaluated for ongoing adherence to those frameworks. Our cybersecurity program includes a process for incident response and continuous improvement. We enlist outside advisors to evaluate the maturity of our cybersecurity program, review processes and policies, conduct penetration and vulnerability tests and simulation exercises, and to monitor and help identify potential cybersecurity incidents. We provide training to our employees to help identify potential cybersecurity threats and attacks through an annual cybersecurity awareness month and targeted phishing campaigns. When considering to engage with third-party service providers, we assess the risks from cybersecurity threats posed by such engagement and continue to evaluate those risks throughout the duration of the relationship.

The Audit Committee of the Board of Directors oversees the Company's cybersecurity risks and strategy. Management provides regular updates to the Audit Committee on cybersecurity risks facing the Company, the systems management has in place to mitigate and manage those risks, the status of key cybersecurity initiatives through a review of the Company's cybersecurity strategic roadmap and whether any material cybersecurity incidents have occurred. The Audit Committee performs an annual review of the Company's cybersecurity program, which includes an update of the cybersecurity threat landscape, discussion of management's actions to identify and detect threats, and a review of assessments, penetration tests and other audits performed by internal and external parties. In addition, management periodically arranges for outside experts to present to the Audit Committee on cyber governance frameworks, regulatory developments, industry practices and risk management.

None of the cybersecurity risks, including as a result of any prior incidents we have experienced, have had a material adverse impact on our operations, business or financial condition.

**Item 2. Properties**

Our facilities are in satisfactory condition, suitable for their respective uses, and are generally adequate to meet current needs. A description of our principal facilities as of February 20, 2024, is set forth in the chart below.

Facility	Owned or Leased	Square Footage	Facility Activities	Operating Segment
<b>North America</b>				
Rogers, Minnesota, United States	Owned	782,000	Manufacturing, warehouse, office and product development	Contractor
Dayton, Minnesota, United States	Owned	538,000	Manufacturing, warehouse, office and product development	Contractor and Process
Dayton, Minnesota, United States	Owned	520,000	Distribution center and office	All segments
Minneapolis, Minnesota, United States	Owned	390,000	Manufacturing and office	Industrial
Rogers, Minnesota, United States	Leased	268,000	Distribution center and office	All segments
Anoka, Minnesota, United States	Owned	208,000	Manufacturing, warehouse, office and product development	Process
Sioux Falls, South Dakota, United States	Owned	203,000	Manufacturing, warehouse and office	Industrial and Contractor
Minneapolis, Minnesota, United States	Owned	141,000	Worldwide headquarters; office and product development	Corporate and Industrial
North Canton, Ohio, United States	Owned	131,000	Manufacturing, warehouse, office and application laboratory	Industrial
Erie, Pennsylvania, United States	Owned	89,000	Manufacturing, warehouse, office and product development	Process
Minneapolis, Minnesota, United States	Owned	87,000	Assembly	Industrial
Kamas, Utah, United States	Owned	70,000	Manufacturing, warehouse, office, product development and test laboratory	Process
Dexter, Michigan, United States	Owned	65,000	Manufacturing, warehouse, office and product development	Process
Indianapolis, Indiana, United States	Owned	64,000	Warehouse, office, product development and application laboratory	Industrial
Minneapolis, Minnesota, United States	Owned	42,000	Corporate administrative office	All segments
<b>Europe</b>				
Maasmechelen, Belgium	Owned	210,000	EMEA headquarters, warehouse and assembly	All segments
Verona, Italy	Owned	164,000	Manufacturing and warehouse	Industrial
Sibiu, Romania	Owned	129,000	Manufacturing	Industrial
St. Gallen, Switzerland	Owned	82,000	Manufacturing, warehouse, office, product development and application laboratory	Industrial
Maasmechelen, Belgium	Leased	64,000	Warehouse	All segments
Rödermark, Germany	Leased	32,000	Office and warehouse	Industrial
Verona, Italy	Owned	31,000	Office and warehouse	Industrial
St. Gallen, Switzerland	Leased	26,000	Manufacturing	Industrial
Aachen, Germany	Leased	22,000	Office and warehouse	All segments
<b>Asia Pacific</b>				
Shanghai, P.R.C.	Leased	80,000	Asia Pacific headquarters	All segments
Suzhou, P.R.C.	Owned	80,000	Manufacturing, warehouse, office and product development	All segments

Derrimut, Australia	Leased	38,000	Warehouse	All segments
Gyeonggi-do, South Korea	Leased	33,000	Office and warehouse	All segments
Shanghai, P.R.C.	Leased	27,000	Office and warehouse	Industrial

### Item 3. Legal Proceedings

Our Company is engaged in routine litigation, administrative proceedings and regulatory reviews incident to our business. It is not possible to predict with certainty the outcome of these unresolved matters, but management believes that they will not have a material effect upon our operations or consolidated financial position.

### Item 4. Mine Safety Disclosures

Not applicable.

### Information About Our Executive Officers

The following are all the executive officers of Graco Inc. as of February 20, 2024:

**Mark W. Sheahan, 59**, became President and Chief Executive Officer in June 2021. From June 2018 to June 2021, he served as Chief Financial Officer and Treasurer. He was Vice President and General Manager, Applied Fluid Technologies Division from February 2008 to June 2018. He served as Chief Administrative Officer from September 2005 to February 2008, and was Vice President and Treasurer from December 1998 to September 2005. Prior to becoming Treasurer in December 1996, he was Manager, Treasury Services. Mr. Sheahan joined the Company in 1995.

**Ronita Banerjee, 46**, became Executive Vice President and Chief Human Resources Officer in May 2023. Before joining Graco, Ms. Banerjee was Global Human Resources Vice President and Chief Human Resources Officer at Westinghouse Electric Company LLC, a provider of nuclear products and services to utilities globally, from May 2019 to April 2023. From December 2017 to May 2019, she served as Global Human Resources Vice President, Building Solutions, and Global Human Resources Director, at Honeywell Inc., a diversified technology and manufacturing company, prior to which she served as Global Human Resources Director from April 2015 to December 2017. Prior to her time at Honeywell, Ms. Banerjee was Senior Human Resources Manager at General Mills, Inc., a global manufacturer and marketer of branded consumer foods, from May 2007 to March 2015, and Compensation Consultant and Staffing Specialist at Dell Technologies Inc., from October 2003 to May 2005 and March 2003 to September 2003, respectively. Ms. Banerjee joined the Company in May 2023.

**Caroline M. Chambers, 59**, became President, EMEA in August 2020. From August 2020 to January 2022, she also held the additional role of Executive Vice President, Information Systems. From June 2018 to August 2020, she served as Executive Vice President, Corporate Controller and Information Systems. She also served as the Company's principal accounting officer from September 2007 to August 2020. She was Vice President, Corporate Controller and Information Systems from December 2013 to June 2018. From April 2009 to December 2013, she was Vice President and Corporate Controller. She served as Vice President and Controller from December 2006 to April 2009. She was Corporate Controller from October 2005 to December 2006 and Director of Information Systems from July 2003 through September 2005. Prior to becoming Director of Information Systems, she held various management positions in the internal audit and accounting departments. Prior to joining Graco, she was an auditor with Deloitte & Touche in Minneapolis, Minnesota and Paris, France. Ms. Chambers joined the Company in 1992.

**Laura L. Evanson, 43**, became Executive Vice President, Marketing in January 2023. From September 2021 to December 2022, she served as Vice President of Marketing for the Lubrication Equipment Division and Vice President of Marketing for South and Central America. From July 2017 to September 2021, she served as the Director of Marketing for the Lubrication Equipment Division. From December 2015 to July 2017 she served as a Senior Global Marketing Manager for the Lubrication Equipment Division. From 2010 to December 2015, she was a Senior Global Product Marketing Manager for the Lubrication Equipment Division. Prior to that, she worked in various product marketing and channel marketing roles for the Lubrication Equipment Division and Industrial Products Division. Ms. Evanson joined the Company in 2008.

**Anthony J. Gargano, 53**, became President, Asia Pacific in July 2021. From October 2020 to July 2021, he was Vice President of Sales and Marketing for the Advanced Fluid Dispense business segment in Asia Pacific. He served as Vice President of Sales and Marketing for the global High Performance Coatings and Foams business segment from September 2018 to October 2020. From January 2017 to December 2018, he served as President of Global Automotive. He served as Director of Sales and Marketing for the Applied Fluid Technologies Division in Asia Pacific from February 2012 to January 2017. From June 2008 to February 2012, he was Director of Sales and Marketing for the PMG business

in the Lubrication Equipment Division. Prior to becoming Director of Sales and Marketing for the PMG business in the Lubrication Equipment Division, he held various product and sales management positions. Mr. Gargano joined the Company in 2005.

**Inge Grasdahl, 53**, became Executive Vice President, Corporate Development in January 2022. Prior to joining Graco, he was Vice President Corporate Development at Ecolab Inc., a global provider of water, hygiene and infection prevention solutions and services, from November 2018 to January 2022. Prior to joining Ecolab, he was Senior Director Corporate Development at 3M Company, a diversified global technology company, from 2012 to October 2018. From 2007 to 2012, he was Vice President Investment Banking at Piper Jaffray & Co. Prior to joining Piper Jaffray, he held various roles in finance, consulting and engineering, including most recently as Director of Finance – Analytics at United Health Group from 2003 to 2007. Mr. Grasdahl joined the Company in January 2022.

**Joseph J. Humke, 53**, became Executive Vice President, General Counsel and Corporate Secretary in July 2021. Before joining Graco, he was an equity partner in the Mergers & Acquisitions and Private Equity practice groups at Ballard Spahr LLP and Lindquist & Vennum LLP (which combined in January 2018) from 2004 to June 2021, and an associate from 2001 to 2003. Prior to joining Lindquist & Vennum, he worked as an associate in the Corporate & Securities practice group of Mayer Brown LLP in Chicago from 1998 to 2001, and served as a law clerk to the Honorable John L. Coffey on the United States Court of Appeals for the Seventh Circuit from 1997 to 1998. Mr. Humke joined the Company in July 2021.

**Dale D. Johnson, 69**, became Chief Commercial Development Officer in January 2024, prior to which he was President, Worldwide Contractor Equipment Division, from February 2017 to December 2023. From April 2001 through January 2017, he served as Vice President and General Manager, Contractor Equipment Division. From January 2000 through March 2001, he served as President and Chief Operating Officer. From December 1996 to January 2000, he was Vice President, Contractor Equipment Division. Prior to becoming Director of Marketing, Contractor Equipment Division in June 1996, he held various marketing and sales positions in the Contractor Equipment Division and the Industrial Equipment Division. Mr. Johnson joined the Company in 1976.

**Christopher D. Knutson, 46**, became Executive Vice President, Corporate Controller in May 2023. He has served as the Company's principal accounting officer since May 2023. From April 2020 to May 2023, he was Director of Corporate Treasury and Investor Relations, and from July 2017 to April 2020, was Director of Corporate Treasury and Regional Controller, South and Central America. From May 2016 to July 2017, he was Vice President of Finance at United Skin Specialists, after which he returned to Graco. From June 2010 to May 2016, he served in several Controller roles at Graco, including in the Applied Fluid Technologies Division, the Asia Pacific region, and the Lubrication Equipment Division, and from August 2008 to August 2010 was Internal Audit Manager. Prior to joining Graco, Mr. Knutson worked at PricewaterhouseCoopers for seven years within their audit practice. He joined the Company in 2008.

**David M. Lowe, 68**, became Chief Financial Officer and Treasurer in June 2021. From April 2020 to June 2021, he served as President, Worldwide Process Division. He was President, Worldwide Industrial Products Division from June 2018 to April 2020. From April 2012 to June 2018, he was Executive Vice President, Industrial Products Division. From February 2005 to April 2012, he was Vice President and General Manager, Industrial Products Division. He was Vice President and General Manager, European Operations from September 1999 to February 2005. Prior to becoming Vice President, Lubrication Equipment Division in December 1996, he was Treasurer. Mr. Lowe joined the Company in 1995.

**Claudio Merengo, 54**, became President, Worldwide Gema in 2007, his title having been changed to President, Worldwide Powder Division in February 2024. During this time, he also served as Group President, ITW Finishing from 2010 to 2012 and Group President, ITW Dynatec from 2008 to 2009. From 2004 to 2007, he was President, Gema Europe. From 1999 to 2004, he was Managing Director, Gema Italy. From 1994 to 1999, he held different positions in R&D, Sales and After Sales for Gema. Gema has been part of Graco since the acquisition of the ITW Finishing Group in 2012. Mr. Merengo joined Gema in 1994.

**Peter J. O'Shea, 59**, became President, Worldwide Lubrication Equipment Division, and President, South and Central America in January 2022. From July 2021 to January 2022, he was President, Worldwide Industrial Products Division, and President, South and Central America. From April 2020 to January 2022, he was President, Worldwide Lubrication Equipment Division. He was Vice President and General Manager, Lubrication Equipment Division from January 2016 to June 2018. From January 2013 to December 2015, he was Vice President and General Manager, Asia Pacific. From January 2012 to December 2012, he was Director of Sales and Marketing, Industrial Products Division, and from 2008 to January 2012, he was Director of Sales and Marketing, Industrial Products Division and Applied Fluid Technologies Division. He was Country Manager, Australia - New Zealand from 2005 to 2008, and from 2002 to 2005 he served as Business Development Manager, Australia - New Zealand. Prior to becoming Business Development Manager, Australia - New Zealand, he worked in various Graco sales management positions. Mr. O'Shea joined the Company in 1995.

**Christian E. Rothe, 50**, became President, Worldwide Industrial Division in January 2022. From June 2018 to January 2022, he was President, Worldwide Applied Fluid Technologies Division. He was Chief Financial Officer and Treasurer from September 2015 to June 2018. From June 2011 through August 2015, he was Vice President and Treasurer. Prior to joining Graco, he held various positions in business development, accounting and finance, including, most recently, at Gardner Denver, Inc. as Vice President, Treasurer from January 2011 to June 2011, Vice President - Finance, Industrial Products Group from October 2008 to January 2011, and Director, Strategic Planning and Development from October 2006 to October 2008. Mr. Rothe joined the Company in 2011.

**Kathryn L. Schoenrock, 46**, became Executive Vice President and Chief Technology Officer in May 2023, her title having been changed to Executive Vice President and Chief Information Officer in February 2024. From January 2022 to April 2023, she was Executive Vice President, Corporate Controller and Information Systems, and from August 2020 to January 2022, she was Executive Vice President, Corporate Controller. She also served as the Company's principal accounting officer from August 2020 to April 2023. From December 2018 to August 2020, she served as Director of Corporate Finance. She served as Director of Financial Reporting from August 2012 to December 2018. Prior to joining Graco, she served as a Senior Manager in the audit practice of Deloitte & Touche LLP from 2008 to 2012, and held various positions in the audit practice of Deloitte & Touche LLP from 2002 to 2008 and in the audit practice of Arthur Andersen LLP from 2000 to 2002. Ms. Schoenrock joined the Company in 2012.

**David J. Thompson, 56**, became President, Worldwide Contractor Equipment Division in January 2024. From December 2021 to December 2023, he was Vice President of Engineering, Worldwide Contractor Equipment Division, and from 2007 to December 2021, he was Director of Engineering, Worldwide Contract Equipment Division. Prior to 2007, he held various engineering-related positions within the Contractor Equipment Division. Mr. Thompson joined the Company in 1988.

**Timothy R. White, 54**, became President, Worldwide Process Division, in June 2021. From August 2020 to June 2021, he served as President, White Knight and QED Environmental Systems. From December 2018 to August 2020, he served as President, EMEA. From August 2015 to December 2018, he was President of Q.E.D. Environmental Systems, Inc., a Graco subsidiary. He served as Director of Sales and Marketing, Applied Fluid Technologies Division, from April 2012 to August 2015. From May 2011 to April 2012, he was North American Sales Manager, Applied Fluid Technologies Division. From January 2008 to April 2011, he was Operations Director, Contractor Equipment Division. Prior to January 2008, he held various manufacturing management positions. Mr. White joined the Company in 1992.

**Angela F. Wordell, 52**, became Executive Vice President, Operations, in January 2022. From April 2020 to January 2022, she was Executive Vice President, Operations, and President, Worldwide Oil & Natural Gas Division. From December 2018 to April 2020, she was Executive Vice President, Operations. From April 2017 to December 2018, she was Purchasing Director. From January 2017 to April 2017, she served as Strategic Sourcing Director. From March 2010 to January 2017, she was Operations Director, Industrial Products Division and China Factory. From February 2008 to March 2010, she was Operations Manager, Industrial Products Division. Prior to February 2008, she held various manufacturing management and engineering positions. Ms. Wordell joined the Company in 1993.

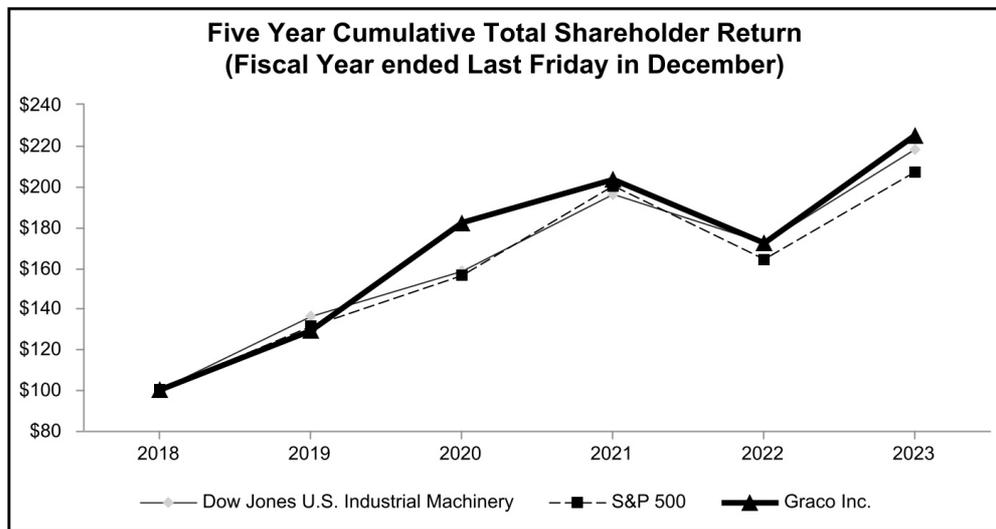

**PART II**

**Item 5. Market for Registrant’s Common Equity, Related Shareholder Matters and Issuer Purchases of Equity Securities**

**Graco Common Stock**

Graco common stock is traded on the New York Stock Exchange under the ticker symbol “GGG.” As of January 26, 2024, the share price was \$84.75 and there were 168,178,661 shares outstanding and 1,641 common shareholders of record, which includes nominees or broker dealers holding stock on behalf of an estimated 147,980 beneficial owners.

The graph below compares the cumulative total shareholder return on the common stock of the Company for the last five fiscal years with the cumulative total return of the S&P 500 Index and the Dow Jones U.S. Industrial Machinery Index over the same period (assuming the value of the investment in Graco common stock and each index was \$100 on December 31, 2018, and all dividends were reinvested).

	2018	2019	2020	2021	2022	2023
Dow Jones U.S. Industrial Machinery	\$100	\$136	\$158	\$196	\$172	\$218
S&P 500	100	131	156	200	164	207
Graco Inc.	100	129	182	203	172	225

**Issuer Purchases of Equity Securities**

On December 7, 2018, the Board of Directors authorized the Company to purchase up to 18 million shares of its outstanding common stock, primarily through open-market transactions. The authorization is for an indefinite period of time or until terminated by the Board. There are no shares available for repurchase under previous authorizations.

In addition to shares purchased under the Board authorization, the Company purchases shares of common stock held by employees who wish to tender owned shares to satisfy the exercise price or tax due upon exercise of stock options or vesting of restricted stock.

Information on issuer purchases of equity securities follows:

Period	Total Number of Shares Purchased	Average Price Paid per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Maximum Number of Shares that May Yet Be Purchased Under the Plans or Programs (at end of period)
Sep 30, 2023 - Oct 27, 2023	971,961	\$ 71.96	—	13,572,340
Oct 28, 2023 - Nov 24, 2023	22,700	\$ 74.17	—	13,549,640
Nov 25, 2023 - Dec 29, 2023	—	\$ —	—	13,549,640

**Item 6. [Reserved]**

## Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following Management's Discussion and Analysis reviews significant factors affecting the Company's consolidated results of operations, financial condition and liquidity. This discussion should be read in conjunction with our financial statements and the accompanying notes to the financial statements. A discussion of changes in our financial condition and the results of operations from the year ended December 30, 2022 compared to December 31, 2021 can be found in Part II, Item 7, Management's Discussion and Analysis of Financial Condition and Results of Operations of our Annual Report on Form 10-K for the year ended December 30, 2022. The discussion is organized in the following sections:

- [Overview](#)
- [Results of Operations](#)
- [Segment Results](#)
- [Financial Condition and Cash Flow](#)
- [Critical Accounting Estimates](#)

### Overview

Graco designs, manufactures and markets systems and equipment used to move, measure, control, dispense and spray fluid and powder materials. The Company specializes in equipment for applications that involve difficult-to-handle materials with high viscosities, materials with abrasive or corrosive properties and multiple-component materials that require precise ratio control. Graco sells primarily through independent third-party distributors worldwide to industrial and contractor end users. Graco's business is classified by management into three reportable segments: Contractor, Industrial and Process. Each segment is responsible for product development, manufacturing, marketing and sales of their products.

Graco's key strategies include developing and marketing new products, leveraging products and technologies into additional, growing end-user markets, expanding distribution globally and completing strategic acquisitions that provide additional channel and technologies. Long-term financial growth targets accompany these strategies, including our objectives of 10 percent revenue growth and 12 percent consolidated net earnings growth per annum. We continue to develop new products in each operating division that are expected to drive incremental sales growth, as well as continued refreshes and upgrades of existing product lines. Graco has made a number of strategic acquisitions that expand and complement organically developed products and provide new market and channel opportunities.

Manufacturing is a key competency of the Company. Our management team in Minneapolis provides strategic manufacturing expertise and is also responsible for factories not fully aligned with a single division. Our largest manufacturing facilities are in the U.S. We also manufacture some of our products in Switzerland (Industrial segment), Italy (Industrial segment), the United Kingdom (Process segment), the People's Republic of China (all segments), Belgium (all segments) and Romania (Industrial segment). Our primary distribution facilities are located in the U.S., Belgium, Switzerland, United Kingdom, P.R.C., Japan, Italy, Korea, India, Australia and Brazil.

### Supply Chain and Inflation

In 2023, the Company's supply chain stabilized, and the associated effects of inflation largely subsided. While the Company experienced isolated supply chain disruptions in 2023, the impact was not as significant as compared to previous years in 2022 and 2021. Pricing actions implemented in 2022 and 2023 have generally mitigated the effects of inflation.

**Results of Operations**

A summary of financial results follows (in millions except per share amounts):

	2023	2022
Net Sales	\$ 2,195.6	\$ 2,143.5
Operating Earnings	646.8	572.7
Net Earnings	506.5	460.6
Diluted Net Earnings per Common Share	\$ 2.94	\$ 2.66
Adjusted (non-GAAP) <sup>(1)</sup> :		
Operating Earnings, adjusted	\$ 646.0	\$ 572.7
Net Earnings, adjusted	523.9	455.5
Diluted Net Earnings per Common Share, adjusted	\$ 3.04	\$ 2.63

(1) Excludes the impact of a pension settlement loss, contingent consideration fair value adjustment, impairment charge, excess tax benefits from stock option exercises and certain non-recurring tax provision adjustments. See Financial Results Adjusted for Comparability below for a reconciliation of adjusted non-GAAP financial measures to GAAP

Certain events in the last two years caused fluctuations in financial results. Excess tax benefits related to stock option exercises reduced income taxes by \$10 million in 2023 and \$5 million in 2022. Other expense for 2023 included a \$42 million non-cash pension settlement loss. In 2023, the Company recorded a goodwill impairment and contingent consideration adjustment related to an acquisition that was not material to the financial statements. Other benefits from tax planning activities further reduced income taxes in 2023. Excluding the impacts of those items presents a more consistent basis for comparison of financial results. A calculation of the non-GAAP adjusted measurements of operating earnings, earnings before income taxes, income taxes, effective income tax rates, net earnings and diluted earnings per share follows (in millions except per share amounts):

	2023	2022
Operating earnings, as reported	\$ 646.8	\$ 572.7
Contingent consideration	(8.6)	—
Impairment	7.8	—
Operating earnings, adjusted	<u>\$ 646.0</u>	<u>\$ 572.7</u>
Earnings before income taxes, as reported	\$ 608.8	\$ 565.7
Pension settlement loss	42.1	—
Contingent consideration	(8.6)	—
Impairment	7.8	—
Earnings before income taxes, adjusted	<u>\$ 650.1</u>	<u>\$ 565.7</u>
Income taxes, as reported	\$ 102.3	\$ 105.1
Pension settlement tax effect	8.8	—
Other non-recurring tax benefit	4.8	—
Excess tax benefit from option exercises	10.3	5.1
Income taxes, adjusted	<u>\$ 126.2</u>	<u>\$ 110.2</u>
Effective income tax rate		
As reported	16.8 %	18.6 %
Adjusted	19.4 %	19.5 %
Net Earnings, as reported	\$ 506.5	\$ 460.6
Pension settlement loss, net	33.3	—
Contingent consideration	(8.6)	—
Impairment	7.8	—
Other non-recurring tax benefit	(4.8)	—
Excess tax benefit from option exercises	(10.3)	(5.1)
Net Earnings, adjusted	<u>\$ 523.9</u>	<u>\$ 455.5</u>
Weighted Average Diluted Shares	172.2	172.9
Diluted Net Earnings per Share		
As reported	\$ 2.94	\$ 2.66
Adjusted	\$ 3.04	\$ 2.63

### Components of Net Earnings as a Percentage of Sales:

The following table presents an overview of components of net earnings as a percentage of net sales:

	2023	2022
Net Sales	100.0 %	100.0 %
Cost of products sold	47.1	50.7
Gross profit	52.9	49.3
Product development	3.7	3.7
Selling, marketing and distribution	11.9	11.7
General and administrative	7.8	7.2
Contingent consideration	(0.4)	—
Impairment	0.4	—
Operating earnings	29.5	26.7
Interest expense	0.2	0.4
Other expense, net	1.6	(0.1)
Earnings before income taxes	27.7	26.4
Income taxes	4.6	4.9
Net Earnings	23.1 %	21.5 %
Net Earnings, adjusted (see non-GAAP measurements above)	23.9 %	21.3 %

### Net Sales

The following table presents net sales by geographic region (in millions):

	2023	2022
Americas <sup>(1)</sup>	\$ 1,338.0	\$ 1,281.9
EMEA <sup>(2)</sup>	463.9	451.8
Asia Pacific	393.7	409.8
Consolidated	\$ 2,195.6	\$ 2,143.5

(1) North, Central and South America, including the U.S. Sales in the U.S. were \$1,162 million in 2023 and \$1,116 million in 2022.

(2) Europe, Middle East and Africa.

The following table presents the components of net sales change by geographic region:

	2023				2022			
	Volume and Price	Acquisitions	Currency	Total	Volume and Price	Acquisitions	Currency	Total
Americas	4%	0%	0%	4%	11%	1%	(1)%	11%
EMEA	0%	0%	3%	3%	7%	0%	(10)%	(3)%
Asia Pacific	(1)%	0%	(3)%	(4)%	16%	0%	(6)%	10%
Consolidated	2%	0%	0%	2%	11%	1%	(4)%	8%

Sales in the Americas were up modestly in 2023, as conditions varied by end market. Sales of industrial products remained favorable, however rising interest rates and other economic conditions adversely impacted sales in construction markets. EMEA sales growth in 2023 benefited mostly from favorable changes in currency translation rates. Lower finishing system sales in EMEA for 2023 offset broad-based sales growth in Western Europe and emerging countries. In the Asia Pacific region, economic conditions in China and unfavorable changes in currency translation rates more than offset underlying growth in the rest of the region for 2023.

### Gross Profit

The gross profit margin rate for 2023 increased approximately 4 percentage points compared to 2022 mostly due to realized pricing.

#### Operating Expenses

Total operating expenses for 2023 increased \$29 million compared to 2022. The increase includes increased spending on product development and other growth initiatives of \$7 million, incremental share-based compensation of \$6 million and higher sales and earnings-based expenses of \$4 million. Investment in new product development in 2023 was \$83 million, approximately 4 percent of sales.

#### Operating Earnings

Sales growth led to an 8 percent increase in operating earnings. Operating earnings expressed as a percentage of sales in 2023 increased 3 percentage points compared to 2022 as realized pricing more than offset higher product costs and operating expenses.

#### Other Expense

Interest expense decreased \$5 million compared to 2022 as private placement debt was repaid in the first quarter of 2022 and in the third quarter of 2023. Other non-operating expenses for 2023 included a non-cash pension settlement loss of \$42 million in connection with the transfer of certain pension obligations to an insurance company. Partially offsetting the pension settlement loss was an increase in interest income of approximately \$11 million for the year.

#### Income Taxes

The effective income tax rate for 2023 was 17 percent, down 2 percentage points from 2022. The decrease in 2023 was due to additional non-recurring tax benefits and excess tax benefits from stock option exercises.

### **Segment Results**

The Company has five operating segments which are aggregated into three reportable segments: Contractor, Industrial and Process. Refer to Part I Item 1. Business, for a description of the Company's three reportable segments. Management assesses performance of segments by reference to operating earnings excluding unallocated corporate expenses and asset impairments.

The following table presents net sales and operating earnings by reporting segment (in millions):

	2023	2022
<b>Sales</b>		
Contractor	\$ 985.7	\$ 999.1
Industrial	662.8	649.3
Process	547.1	495.1
<b>Total</b>	<u>\$ 2,195.6</u>	<u>\$ 2,143.5</u>
<b>Operating Earnings</b>		
Contractor	\$ 285.3	\$ 249.9
Industrial	234.1	231.3
Process	165.3	122.3
Unallocated corporate (expense) <sup>(1)</sup>	(38.7)	(30.8)
Contingent consideration	8.6	—
Impairment	(7.8)	—
<b>Total</b>	<u>\$ 646.8</u>	<u>\$ 572.7</u>

(1) Unallocated corporate (expense) includes such items as stock compensation, certain acquisition transaction items, bad debt expense, charitable contributions, and certain facility expenses.

### Contractor Segment

The following table presents net sales and operating earnings as a percentage of sales for the Contractor segment (dollars in millions):

	2023	2022
<b>Sales</b>		
Americas	\$ 730.2	\$ 739.1
EMEA	179.5	176.8
Asia Pacific	76.0	83.2
<b>Total</b>	<b>\$ 985.7</b>	<b>\$ 999.1</b>
Operating Earnings as a Percentage of Sales	29 %	25 %

The following table presents the components of net sales change by geographic region for the Contractor segment:

	2023				2022			
	Volume and Price	Acquisitions	Currency	Total	Volume and Price	Acquisitions	Currency	Total
Americas	(1)%	0%	0%	(1)%	7%	0%	(1)%	6%
EMEA	(1)%	0%	2%	1%	(6)%	1%	(9)%	(14)%
Asia Pacific	(5)%	0%	(4)%	(9)%	0%	0%	(6)%	(6)%
Segment Total	(1)%	0%	0%	(1)%	4%	0%	(3)%	1%

Contractor segment sales decreased 1 percent for the year. Favorable response to new product offerings was more than offset for the year by slower economic activity in worldwide construction markets. The operating margin rate for this segment improved 4 percentage points for the year. Realized pricing drove most of the improvement in the operating margin rate for the year.

Sales in the Americas represents the majority of sales for the Contractor segment. Management regularly reviews economic and financial indicators for North America, including levels of residential, commercial and institutional construction, remodeling rates and interest rates. Management also reviews gross domestic product for the regions and the level of the U.S. dollar versus the Euro and other currencies.

### Industrial Segment

The following table presents net sales and operating earnings as a percentage of sales for the Industrial segment (dollars in millions):

	2023	2022
<b>Sales</b>		
Americas	\$ 263.6	\$ 239.3
EMEA	207.6	205.7
Asia Pacific	191.6	204.3
<b>Total</b>	<b>\$ 662.8</b>	<b>\$ 649.3</b>
Operating Earnings as a Percentage of Sales	35 %	36 %

The following table presents the components of net sales change by geographic region for the Industrial segment:

	2023				2022			
	Volume and Price	Acquisitions	Currency	Total	Volume and Price	Acquisitions	Currency	Total
Americas	10%	0%	0%	10%	13%	0%	(1)%	12%
EMEA	(2)%	0%	3%	1%	15%	0%	(12)%	3%
Asia Pacific	(3)%	0%	(3)%	(6)%	14%	0%	(6)%	8%
Segment Total	2%	0%	0%	2%	14%	0%	(6)%	8%

Industrial segment sales increased 2 percent for the year as continued strength in the automotive, industrial and machinery end markets in the Americas was mostly offset by lower finishing system sales in EMEA and Asia Pacific. The operating margin rate for this segment decreased 1 percentage point for the year as realized pricing and lower product costs were offset by unfavorable changes in currency translation rates and higher operating expenses.

In this segment, sales in each geographic region are significant, and management looks at economic and financial indicators in each region, including gross domestic product, industrial production, capital investment rates, automobile production, building construction and the level of the U.S. dollar versus the euro, the Swiss franc, the Canadian dollar, the Chinese renminbi and various other Asian currencies.

#### Process Segment

The following table presents net sales and operating earnings as a percentage of sales for the Process segment (dollars in millions):

	2023	2022
<b>Sales</b>		
Americas	\$ 344.2	\$ 303.5
EMEA	76.8	69.3
Asia Pacific	126.1	122.3
<b>Total</b>	<b>\$ 547.1</b>	<b>\$ 495.1</b>
<b>Operating Earnings as a Percentage of Sales</b>	<b>30 %</b>	<b>25 %</b>

The following table presents the components of net sales change by geographic region for the Process segment:

	2023				2022			
	Volume and Price	Acquisitions	Currency	Total	Volume and Price	Acquisitions	Currency	Total
Americas	13%	0%	0%	13%	22%	3%	0%	25%
EMEA	10%	0%	1%	11%	22%	1%	(8)%	15%
Asia Pacific	5%	0%	(2)%	3%	34%	0%	(5)%	29%
Segment Total	11%	0%	0%	11%	25%	2%	(2)%	25%

Process segment sales increased in all businesses and regions for the year, reflecting continued favorable conditions in many end markets, such as vehicle services, industrial pumps, oil and gas, mining, industrial lubrication and semi-conductors. The operating margin rate for this segment increased 5 percentage points for the year, primarily due to realized pricing, lower product costs and expense leverage.

Although the Americas represent the majority of sales for the Process segment, management monitors indicators such as levels of gross domestic product, capital investment, industrial production, oil and natural gas markets and mining activity worldwide.

## Financial Condition and Cash Flow

**Working Capital.** The following table highlights several key measures of asset performance (dollars in millions):

	2023	2022
Working capital	\$ 970.6	\$ 805.7
Current ratio	3.5	3.0
Days of sales in receivables outstanding	58	57
Inventory turnover (LIFO)	2.2	2.5

Higher cash and cash equivalent balances primarily drove increases in working capital in 2023. Changes in receivables were consistent with higher sales levels. Inventories decreased as supply chain disruptions eased and the associated effects of inflation subsided. As inventory purchases decreased, trade accounts payable decreased. The current ratio increased in 2023 in line with the changes in working capital.

**Capital Structure.** At December 29, 2023, the Company's capital structure included current notes payable of \$30 million and shareholders' equity of \$2,224 million. At December 30, 2022, the Company's capital structure included current notes payable of \$21 million, long-term debt of \$75 million and shareholders' equity of \$1,860 million.

Shareholders' equity increased by \$365 million in 2023. The increase provided by current year earnings of \$507 million was primarily offset by dividends of \$161 million and share repurchases of \$102 million. Other increases in shareholders' equity included share issuances, stock compensation and other comprehensive income of \$122 million.

**Liquidity and Capital Resources.** The Company evaluates liquidity as its ability to generate cash to fund its operating, investing and financing activities. Historically the Company has funded cash requirements for working capital, capital expenditures, businesses acquisitions, repayment of debt obligations, retirement plans, dividends, and common stock repurchases, all as applicable, through cash provided by its operations. The Company's other primary source of liquidity includes funds available through various debt financing arrangements.

As of December 29, 2023, the Company had available liquidity of \$1,313 million, including cash held in deposit accounts of \$538 million, of which \$129 million was held outside of the U.S., and available credit under existing committed credit facilities of \$775 million.

Internally generated funds and unused financing sources are expected to provide the Company with the flexibility to meet its liquidity needs in 2024, including its capital expenditure plan of approximately \$120 million, including \$60 million for building projects to expand production capacity, planned dividends estimated at \$171 million, share repurchases and acquisitions. If acquisition opportunities increase, the Company believes that reasonable financing alternatives are available for the Company to execute on those opportunities. The Company has no significant off-balance sheet debt or other unrecorded obligations. The Company believes it has the ability to meet its long-term cash requirements by using available cash and internally generated funds and to borrow under its committed and uncommitted credit facilities.

In December 2023, the Board of Directors increased the Company's regular quarterly dividend from \$0.235 to \$0.255 per share, an increase of 9 percent.

**Cash Flow.** A summary of cash flow follows (in millions):

	2023	2022
Operating activities	\$ 651.0	\$ 377.4
Investing activities	(185.3)	(226.8)
Financing activities	(268.0)	(434.4)
Effect of exchange rates on cash	1.0	(1.3)
Net cash provided	198.7	(285.1)
Cash and cash equivalents at end of year	\$ 537.9	\$ 339.2

**Cash Flows From Operating Activities.** Net cash provided by operating activities was \$651 million in 2023, up \$274 million compared to 2022, due primarily to higher net earnings and fewer inventory purchases in 2023. Other decreases in working capital further contributed to the increase in cash provided by operating activities in 2023.

**Cash Flows Used in Investing Activities.** Cash flows used in investing activities totaled \$185 million in 2023, including \$185 million for capital additions. Cash flows used in investing activities totaled \$227 million in 2022 including \$201 million for capital additions and \$25 million for business acquisitions.

**Cash Flows Used in Financing Activities.** Cash flows used in financing activities totaled \$268 million in 2023 and included share repurchases of \$102 million (partially offset by net proceeds from share issuances of \$60 million), dividends of \$158 million, and net payments on long-term debt and outstanding lines of credit of \$65 million.

Cash flows used in financing activities totaled \$434 million in 2022 and included dividends of \$142 million and net proceeds from share issuances totaling \$36 million.

On December 7, 2018, the Board of Directors authorized the purchase of up to 18 million shares of common stock, primarily through open market transactions. The authorization is for an indefinite period of time or until terminated by the Board. As of December 29, 2023, approximately 14 million shares remain available for purchase under the authorization.

The Company repurchased and retired 1.4 million shares in 2023 and 3.6 million shares in 2022. The Company did not repurchase and retire shares in 2021. The Company has made and may continue to make opportunistic share repurchases in 2024 via open market transactions or short-dated accelerated share repurchase ("ASR") programs.

**Critical Accounting Estimates**

The Company prepares its consolidated financial statements in conformity with generally accepted accounting principles in the United States of America ("U.S. GAAP"). The Company's most significant accounting policies are disclosed in Note A (Summary of Significant Accounting Policies) to the consolidated financial statements. The preparation of the consolidated financial statements, in conformity with U.S. GAAP, requires management to make estimates and judgments that affect the amounts reported in the consolidated financial statements and accompanying notes. Actual amounts will differ from those estimates. The Company considers the following policies to involve the most judgment in the preparation of the Company's consolidated financial statements.

**Retirement Benefits.** The measurements of the Company's pension and postretirement medical obligations are dependent on a number of assumptions including estimates of the present value of projected future payments, taking into consideration future events such as salary increases and demographic experience. These assumptions may have an impact on the expense and timing of future contributions.

The assumptions used in developing the required estimates for pension obligations include discount rate, inflation, salary increases, retirement rates, expected return on plan assets and mortality rates. The assumptions used in developing the required estimates for postretirement medical obligations include discount rates, rate of future increase in medical costs and participation rates.

For U.S. plans, the Company establishes its discount rate assumption by reference to a yield curve published by an actuary and projected plan cash flows. For plans outside the U.S., the Company establishes a rate by country by reference to highly rated corporate bonds. These reference points have been determined to adequately match expected plan cash flows. The Company bases its inflation assumption on an evaluation of external market indicators. The salary assumptions are based on actual historical experience, the near-term outlook and assumed inflation. Retirement rates are based on experience. The investment return assumption is based on the expected long-term performance of plan assets. In setting this number, the Company considers the input of actuaries and investment advisers, its long-term historical returns, the allocation of plan assets and projected returns on plan assets. For 2024, the Company will use an investment return assumption of 7.6 percent for the funded U.S. plan, consistent with the rate assumed for 2023. Mortality rates are based on current common group mortality tables for males and females.

At December 29, 2023, a one-half percentage point decrease in the indicated assumptions would have the following effects (in millions):

Assumption	Funded Status	Expense
Discount rate	\$ (15.3)	\$ 2.0
Expected return on assets	—	1.2

**Goodwill and Other Intangible Assets.** The Company performs impairment testing for goodwill annually in the fourth quarter or more frequently if events or changes in circumstances indicate that the asset might be impaired. The Company estimates the fair value of the reporting units using a present value of future cash flows calculation cross-checked by an allocation of market capitalization approach. The goodwill impairment test is performed by comparing the fair value of the relevant reporting unit with its carrying amount. An impairment charge is recognized for the amount by which the carrying amount exceeds the reporting unit's fair value.

The Company's primary identifiable intangible assets include customer relationships, trademarks, trade names, proprietary technology and patents. Finite lived intangibles are amortized and are evaluated for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. Indefinite lived intangibles are reviewed for impairment annually in the fourth quarter, or more frequently if events or changes in circumstances indicate the asset might be impaired.

A considerable amount of management judgment and assumptions are required in performing the impairment tests. Management makes several assumptions, including earnings and cash flow projections, discount rate, product offerings and market strategies, customer attrition, and royalty rates, each of which have a significant impact on the estimated fair values. Though management considers its judgments and assumptions to be reasonable, changes in these assumptions could impact the estimated fair value.

In the third quarter of 2023, the Company recognized a goodwill impairment related to the reorganization of a business acquired in 2020 that is not material to the consolidated financial statements. We completed our annual impairment testing of goodwill and other intangible assets in the fourth quarter of 2023. No additional impairment charges were recorded as a result of that test.

**Income Taxes.** In the preparation of the Company's consolidated financial statements, management calculates income taxes. This includes estimating current tax liability as well as assessing temporary differences resulting from different treatment of items for tax and financial statement purposes. These differences result in deferred tax assets and liabilities, which are recorded on the balance sheet using statutory rates in effect for the year in which the differences are expected to reverse. These assets and liabilities are analyzed regularly, and management assesses the likelihood that deferred tax assets will be recoverable from future taxable income. A valuation allowance is established to the extent that management believes that recovery is not likely. Liabilities for uncertain tax positions are also established for potential and ongoing audits of federal, state and international issues. The Company routinely monitors the potential impact of such situations and believes that liabilities are properly stated. Valuations related to amounts owed and tax rates could be impacted by changes to tax codes and the Company's interpretation thereof, changes in statutory rates, the Company's future taxable income levels and the results of tax audits.

#### **Item 7A. Quantitative and Qualitative Disclosures About Market Risk**

The Company sells and purchases products and services in currencies other than the U.S. dollar and pays variable interest rates on borrowings under certain credit facilities. Consequently, the Company is subject to profitability risk arising from exchange and interest rate movements. The Company may use a variety of financial and derivative instruments to manage foreign currency and interest rate risks. The Company does not enter into any of these instruments for trading purposes to generate revenue. Rather, the Company's objective in managing these risks is to reduce fluctuations in earnings and cash flows associated with changes in foreign currency exchange and interest rates.

The Company may use forward exchange contracts, options and other hedging activities to hedge the U.S. dollar value resulting from anticipated currency transactions and net monetary asset and liability positions. At December 29, 2023, the currencies to which the Company had the most significant balance sheet exchange rate exposure were the euro, Swiss franc, Canadian dollar, British pound, Japanese yen, Australian dollar, Chinese renminbi, South Korean won and Indian rupee. It is not possible to determine the true impact of currency rate changes; however, the direct translation effect on net sales and net earnings can be estimated. In 2023, changes in currency translation rates reduced sales by approximately \$2 million and reduced net earnings by approximately \$4 million. In 2022, changes in currency translation rates reduced sales by approximately \$66 million and reduced net earnings by approximately \$31 million.

#### **2024 Outlook**

The Company expects its core growth strategies of developing new products, expanding distribution, seeking adjacent markets and targeting strategic acquisitions will continue to drive shareholder value. Entering 2024, demand levels generally remain steady in an uncertain macroeconomic environment. As a result, the Company's outlook for 2024 is low single-digit revenue growth on an organic, constant currency basis.

At January 31, 2024 exchange rates, assuming the same volumes, mix of products and mix of business by currency as in 2023, the movement in foreign currencies would not have an impact on net sales or net earnings for 2024.

While the Company's backlog in recent years has been elevated relative to historic levels, backlog is not a good indicator of future long-term business levels. In addition to economic growth, the successful launch of new products and expanded distribution coverage, the sales outlook is dependent on many factors, including realization of price increases and stable foreign currency exchange rates.

## Forward-Looking Statements

The Company desires to take advantage of the “safe harbor” provisions regarding forward-looking statements of the Private Securities Litigation Reform Act of 1995 and is filing this Cautionary Statement in order to do so. From time to time various forms filed by our Company with the Securities and Exchange Commission, including this Annual Report on Form 10-K and our Form 10-Qs and Form 8-Ks, and other disclosures, including our overview report, press releases, earnings releases, analyst briefings, conference calls and other written documents or oral statements released by our Company, may contain forward-looking statements. Forward-looking statements generally use words such as “expect,” “foresee,” “anticipate,” “believe,” “project,” “should,” “estimate,” “will,” and similar expressions, and reflect our Company’s expectations concerning the future. All forecasts and projections are forward-looking statements. Forward-looking statements are based upon currently available information, but various risks and uncertainties may cause our Company’s actual results to differ materially from those expressed in these statements. The Company undertakes no obligation to update these statements in light of new information or future events.

Future results could differ materially from those expressed, due to the impact of changes in various factors. These risk factors include, but are not limited to, risks relating to the demand for our products and the level of commercial and industrial activity worldwide; changes in currency translation rates; Russia’s invasion of Ukraine and other political instability; interest rate fluctuations and changes in credit markets; global sourcing of materials; interruptions of or intrusions into our information systems; intellectual property rights; the use of generative artificial intelligence; conducting business internationally; catastrophic events; our ability to attract, develop and retain qualified personnel; public health crises; our growth strategies and acquisitions; potential goodwill impairment; our ability to compete effectively; our dependence on a few large customers; our dependence on cyclical industries; changes in laws and regulations; climate-related laws, regulations and accords; environmental, social and governance-related expectations and requirements; compliance with anti-corruption and trade laws; changes in tax rates or the adoption of new tax legislation; costs associated with legal proceedings; and other risks and uncertainties including those discussed in Item 1A of this Annual Report on Form 10-K. Shareholders, potential investors and other readers are urged to consider these factors in evaluating forward-looking statements and are cautioned not to place undue reliance on such forward-looking statements.

Investors should realize that factors other than those identified in Item 1A might prove important to the Company’s future results. It is not possible for management to identify each and every factor that may have an impact on the Company’s operations in the future as new factors can develop from time to time.

## Item 8. Financial Statements and Supplementary Data

## REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the shareholders and the Board of Directors of Graco Inc.

### Opinion on the Financial Statements

We have audited the accompanying consolidated balance sheets of Graco Inc. and subsidiaries (the "Company") as of December 29, 2023 and December 30, 2022, the related consolidated statements of earnings, comprehensive income, shareholders' equity, and cash flows, for each of the three years in the period ended December 29, 2023, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of December 29, 2023 and December 30, 2022, and the results of its operations and its cash flows for each of the three years in the period ended December 29, 2023, in conformity with accounting principles generally accepted in the United States of America.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the Company's internal control over financial reporting as of December 29, 2023, based on criteria established in *Internal Control — Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission and our report dated February 20, 2024, expressed an unqualified opinion on the Company's internal control over financial reporting.

### Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audits. We are a public accounting firm registered with the PCAOB and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

### Critical Audit Matter

The critical audit matter communicated below is a matter arising from the current-period audit of the financial statements that was communicated or required to be communicated to the audit committee and that (1) relates to accounts or disclosures that are material to the financial statements and (2) involved our especially challenging, subjective, or complex judgments. The communication of critical audit matters does not alter in any way our opinion on the financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

#### **Retirement Benefits – U.S. Pension Benefit Obligation – Refer to Note J to the financial statements**

##### *Critical Audit Matter Description*

The Company has both funded and unfunded defined benefit pension plans. The actuarial determination of the present value of the pension obligation on an annual basis requires management to make significant assumptions related to the selection of the discount rates used in the calculation of the net present value of future pension benefits. The Company establishes the discount rate assumptions for the U.S. pension plans by reference to a yield curve published by an actuary and projected plan cash flows.

Given the significance of the U.S. pension obligation and the requirement of management to make significant assumptions related to the selection of the discount rates, performing audit procedures to evaluate the reasonableness of the discount rates selected for the U.S. pension plans required a high degree of auditor judgment and an increased extent of effort, including the need to involve our actuarial specialists.

*How the Critical Audit Matter Was Addressed in the Audit*

Our audit procedures related to selection of the discount rates for the U.S. pension obligation included the following, among others:

- a. We tested the effectiveness of internal controls over the valuation of the pension obligation, including management's controls over selection of the discount rates.
- b. With the assistance of our actuarial specialists, we evaluated the reasonableness of the discount rates by:
  - Evaluating the methodology utilized to select the discount rates for conformity with applicable accounting guidance.
  - Testing the source information underlying the determination of the discount rates, including the methodology used to construct the yield curve, the characteristics of the bonds underlying the yield curve analysis, and the mathematical accuracy of the calculation.
  - Developing independent estimates using external published yield curves and comparing them to the discount rates selected by management.

See notes to consolidated financial statements.

**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS****Graco Inc. and Subsidiaries**

Years Ended December 29, 2023, December 30, 2022 and December 31, 2021

**A. Summary of Significant Accounting Policies**

**Fiscal Year.** The fiscal year of Graco Inc. and Subsidiaries (the Company) is 52 or 53 weeks, ending on the last Friday in December. The year ended December 31, 2021 was a 53-week year whereas the years ended December 29, 2023 and December 30, 2022 were 52-week years.

**Basis of Statement Presentation.** The consolidated financial statements include the accounts of the parent company and its subsidiaries after elimination of intercompany balances and transactions. As of December 29, 2023, all subsidiaries are 100 percent controlled by the Company. Certain reclassifications have been made to the prior year's consolidated financial statements to conform to the current year presentation.

**Foreign Currency Translation.** The functional currency of certain subsidiaries is the local currency. Accordingly, adjustments resulting from the translation of those subsidiaries' financial statements into U.S. dollars are charged or credited to accumulated other comprehensive income (loss). The U.S. dollar is the functional currency for all other foreign subsidiaries. Accordingly, gains and losses from the translation of foreign currency balances and transactions of those subsidiaries are included in other expense, net.

**Accounting Estimates.** The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Such estimates and assumptions also affect the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**Fair Value Measurements.** The three levels of inputs in the fair value measurement hierarchy are as follows:

Level 1 – based on quoted prices in active markets for identical assets

Level 2 – based on significant observable inputs

Level 3 – based on significant unobservable inputs

Assets and liabilities measured at fair value on a recurring basis and fair value measurement level were as follows (in thousands):

	Level	2023	2022
<b>Assets</b>			
Cash surrender value of life insurance	2	\$ 22,255	\$ 19,192
<b>Liabilities</b>			
Contingent consideration	3	\$ 1,375	\$ 14,914
Deferred compensation	2	6,445	5,842
Forward exchange contracts	2	422	520
<b>Total liabilities at fair value</b>		<b>\$ 8,242</b>	<b>\$ 21,276</b>

Contracts insuring the lives of certain employees who are eligible to participate in certain non-qualified pension and deferred compensation plans are held in trust. Cash surrender value of the contracts is based on performance measurement funds that shadow the deferral investment allocations made by participants in certain deferred compensation plans. The deferred compensation liability balances are valued based on amounts allocated by participants to the underlying performance measurement funds.

The Company's policy and accounting for forward exchange contracts are described below, in Derivative Instruments and Hedging Activities.

Contingent consideration liability represents the estimated value (using a probability-weighted expected return approach) of future payments to be made to previous owners of certain acquired businesses based on future revenues.

Disclosures related to other fair value measurements are included below in Impairment of Long-Lived Assets, in [Note F](#) (Debt) and in [Note J](#) (Retirement Benefits).

**Cash Equivalents.** All highly liquid investments with a maturity of three months or less at the date of purchase are considered to be cash equivalents.

**Accounts Receivable.** Accounts receivable includes trade receivables of \$343 million in 2023 and \$334 million in 2022. Other receivables totaled \$11 million in 2023 and \$12 million in 2022.

**Allowance for Credit Losses.** Receivables reflected in the financial statements represent the net amount expected to be collected. An allowance for credit losses is established based on expected losses. Expected losses are estimated by reviewing individual accounts, considering aging, financial condition of the debtor, recent payment history, current and forecast economic conditions and other relevant factors.

Following is a summary of activity in the allowance for credit losses (in thousands):

	2023	2022	2021
Balance, beginning	\$ 6,130	\$ 3,254	\$ 3,745
Additions (reversals) charged to costs and expenses	1,125	3,567	(27)
Deductions from reserves <sup>(1)</sup>	(2,711)	(633)	(676)
Other additions (deductions) <sup>(2)</sup>	111	(58)	212
Balance, ending	<u>\$ 4,655</u>	<u>\$ 6,130</u>	<u>\$ 3,254</u>

(1) Represents amounts determined to be uncollectible and charged against reserves, net of collections on accounts previously charged against reserves.

(2) Includes effects of foreign currency translation.

**Inventory Valuation.** Inventories are stated at the lower of cost or net realizable value. The last-in, first-out (LIFO) cost method is used for valuing most U.S. inventories. Inventories of foreign subsidiaries are valued using the first-in, first-out (FIFO) cost method.

**Other Current Assets.** Amounts included in other current assets were (in thousands):

	2023	2022
Prepaid income taxes	\$ 14,546	\$ 18,702
Prepaid expenses and other	20,524	24,922
Total	<u>\$ 35,070</u>	<u>\$ 43,624</u>

**Impairment of Long-Lived Assets.** The Company evaluates long-lived assets (including property and equipment, goodwill and other intangible assets) for impairment annually in the fourth quarter, or whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

In the third quarter of 2023, the Company recognized a goodwill impairment related to the reorganization of a business acquired in 2020 that is not material to the consolidated financial statements. We completed our annual impairment test of all long-lived assets in the fourth quarter of 2023. No additional impairment charges were recorded as a result of that review. There were no impairment charges in 2022 or 2021.

**Property, Plant and Equipment.** For financial reporting purposes, plant and equipment are depreciated over their estimated useful lives, primarily by using the straight-line method as follows:

Buildings and improvements	10 to 30 years
Leasehold improvements	lesser of 5 to 10 years or life of lease
Manufacturing equipment	lesser of 5 to 10 years or life of equipment
Office, warehouse and automotive equipment	3 to 10 years

**Goodwill and Other Intangible Assets.** Goodwill has been assigned to reporting units. Changes in the carrying amounts of goodwill for each reportable segment were (in thousands):

	Industrial	Process	Contractor	Total
Balance, January 1, 2022	\$ 137,155	\$ 141,304	\$ 77,796	\$ 356,255
Additions, adjustments from business acquisitions	—	16,994	—	16,994
Foreign currency translation	(2,384)	(1,932)	(762)	(5,078)
Balance, December 30, 2022	134,771	156,366	77,034	368,171
Additions, adjustments from business acquisitions	—	—	—	—
Impairment	—	(7,800)	—	(7,800)
Foreign currency translation	8,361	988	508	9,857
Balance, December 29, 2023	\$ 143,132	\$ 149,554	\$ 77,542	\$ 370,228

Components of other intangible assets, net were (dollars in thousands):

	Finite Life			Indefinite Life	Total
	Customer Relationships	Patents and Proprietary Technology	Trademarks, Trade Names and Other	Trade Names	
As of December 29, 2023					
Cost	\$ 191,417	\$ 14,174	\$ 1,300	\$ 62,633	\$ 269,524
Accumulated amortization	(128,248)	(8,547)	(561)	—	(137,356)
Foreign currency translation	(7,591)	(344)	—	2,025	(5,910)
Book value	\$ 55,578	\$ 5,283	\$ 739	\$ 64,658	\$ 126,258
Weighted average life in years	13	9	6	N/A	
As of December 30, 2022					
Cost	\$ 202,103	\$ 26,374	\$ 1,300	\$ 62,633	\$ 292,410
Accumulated amortization	(123,603)	(18,027)	(330)	—	(141,960)
Foreign currency translation	(10,060)	(894)	—	(1,989)	(12,943)
Book value	\$ 68,440	\$ 7,453	\$ 970	\$ 60,644	\$ 137,507
Weighted average life in years	13	10	6	N/A	

Amortization of intangibles was \$17.6 million in 2023, \$18.9 million in 2022 and \$17.9 million in 2021. Estimated future annual amortization expense based on the current carrying amount of other intangible assets is as follows (in thousands):

	2024	2025	2026	2027	2028	Thereafter
Estimated Amortization Expense	\$ 16,929	\$ 16,459	\$ 9,247	\$ 6,423	\$ 4,258	\$ 8,284

In 2022 and 2021 the Company completed acquisitions that were not material to the consolidated financial statements.

**Other Assets.** Components of other assets were (in thousands):

	2023	2022
Cash surrender value of life insurance	\$ 22,255	\$ 19,192
Capitalized software	2,602	2,189
Equity method investment	9,661	8,767
Deposits and other	3,332	2,970
<b>Total</b>	<b>\$ 37,850</b>	<b>\$ 33,118</b>

The Company has entered into contracts insuring the lives of certain employees who are eligible to participate in certain non-qualified pension and deferred compensation plans. These insurance contracts are used to fund the non-qualified pension and deferred compensation arrangements. The insurance contracts are held in a trust and are available to general creditors in the event of the Company's insolvency. Changes in cash surrender value are recorded in other expense, net. The cash surrender value increased \$3.1 million in 2023, decreased \$4.0 million in 2022 and increased \$3.3 million in 2021.

Capitalized software is amortized over its estimated useful life (generally 2 to 5 years) beginning at date of implementation.

**Other Current Liabilities.** Components of other current liabilities were (in thousands):

	2023	2022
Accrued self-insurance retentions	\$ 8,654	\$ 9,338
Accrued warranty and service liabilities	15,408	14,674
Accrued trade promotions	14,312	13,799
Payable for employee stock purchases	16,639	16,497
Customer advances and deferred revenue	51,578	50,747
Income taxes payable	9,837	15,987
Tax payable, other	12,289	9,614
Operating lease liabilities, current	8,242	9,555
Right of return refund liability	17,826	18,449
Other	30,574	32,133
<b>Total</b>	<b>\$ 185,359</b>	<b>\$ 190,793</b>

**Self-Insurance.** The Company is self-insured for certain losses and costs relating to product liability, workers' compensation, and employee medical benefit claims. The Company has stop-loss coverage in order to limit its exposure to significant claims. Accrued self-insurance retentions are based on claims filed, estimates of claims incurred but not reported, and other actuarial assumptions. Self-insured reserves totaled \$8.7 million as of December 29, 2023 and \$9.3 million as of December 30, 2022.

**Product Warranties.** A liability is established for estimated future warranty and service claims that relate to current and prior period sales. The Company estimates warranty costs based on historical claim experience and other factors including evaluating specific product warranty issues. Following is a summary of activity in accrued warranty and service liabilities (in thousands):

	2023	2022
Balance, beginning of year	\$ 14,674	\$ 14,463
Assumed in business acquisition	—	38
Charged to expense	11,128	8,946
Margin on parts sales reversed	3,875	3,292
Reductions for claims settled	(14,269)	(12,065)
<b>Balance, end of year</b>	<b>\$ 15,408</b>	<b>\$ 14,674</b>

**Revenue Recognition.** Revenue is recognized at a single point in time upon the satisfaction of performance obligations, which occurs when control of the good or service transfers to the customer. This is generally on the date of shipment for product sales; however certain sales have terms requiring recognition when the goods are received by the customer. In cases where there are specific customer acceptance provisions, revenue is recognized at the later of customer acceptance or shipment (subject to shipping terms). Payment terms are established based on the type of product, distributor capabilities and competitive market conditions, and do not exceed one year. Standalone selling prices are determined based on the prices charged to customers for all material performance obligations.

Variable consideration is accounted for as a price adjustment (sales adjustment). Following are examples of variable consideration that affect the Company's reported revenue. Early payment discounts are provided to certain customers and within certain regions. Rights of return are typically contractually limited and amounts are estimable. The Company records a refund liability and establishes a recovery asset for the value of product expected to be returned at the time revenue is recognized. This includes promotions when, from time to time, the Company may promote the sale of new products by agreeing to accept returns of superseded products. Provisions for sales returns are recorded as a reduction of net sales, and provisions for warranty claims are recorded in selling, marketing and distribution expenses. Historically, sales returns have been approximately 3 percent of sales. Trade promotions are offered to distributors and end users through various programs, generally with terms of one year or less. Such promotions include rebates based on annual purchases and sales growth, coupons and reimbursement for competitive products. Payment of incentives may take the form of cash, trade credit, promotional merchandise or free product. Rebates are accrued based on the program rates and progress toward the probability weighted estimate of annual sales amount and sales growth.

Additional promotions include cooperative advertising arrangements. Under cooperative advertising arrangements, the Company reimburses the distributor for a portion of its advertising costs related to the Company's products. Estimated costs are accrued at the time of sale and classified as selling, marketing and distribution expense. The estimated costs related to coupon programs are accrued at the time of sale and classified as selling, marketing and distribution expense or cost of products sold, depending on the type of incentive offered. The considerations payable to customers are deemed as broad based and are not recorded against net sales.

Shipping and handling costs incurred for the delivery of goods to customers are included in cost of goods sold. Amounts billed to customers for shipping and handling are included in net sales.

Revenue is deferred when cash payments are received or due in advance of performance, including amounts which are refundable. This is also the case for services associated with certain product sales. The balance in the deferred revenue and customer advances was \$51.6 million as of December 29, 2023 and \$50.7 million as of December 30, 2022. Net sales for 2023 included \$49.6 million that was in deferred revenue and customer advances as of December 30, 2022. Net sales for 2022 included \$60.4 million that was in deferred revenue and customer advances as of December 31, 2021.

Shipping and handling activities that occur after control of the related good transfers are accounted for as fulfillment activities instead of assessing such activities as performance obligations.

Sales taxes related to revenue producing transactions collected from the customer for a governmental authority are excluded from the transaction price.

Revenue standard requirements are applied to a portfolio of contracts (or performance obligations) with similar characteristics for transactions where it is expected that the effects on the financial statements of applying the revenue recognition guidance to the portfolio would not differ materially from applying this guidance to the individual contracts (or performance obligations) within that portfolio.

Promised goods or services are not assessed as performance obligations if they are immaterial in the context of the contract with the customer. If the revenue related to a performance obligation that includes goods or services that are immaterial in the context of the contract is recognized before those immaterial goods or services are transferred to the customer, then the related costs to transfer those goods or services are accrued.

Incremental costs of obtaining a contract are generally expensed when incurred because the amortization period would be less than one year. Such costs primarily relate to sales commissions and are recorded in selling, marketing and distribution expense.

**Earnings Per Common Share.** Basic net earnings per share is computed by dividing earnings available to common shareholders by the weighted average number of shares outstanding during the year. Diluted net earnings per share is computed after giving effect to the exercise of all dilutive outstanding option grants.

**Comprehensive Income.** Comprehensive income is a measure of all changes in shareholders' equity except those resulting from investments by and distributions to owners, and includes such items as net earnings, certain foreign currency translation items, changes in the value of qualifying hedges and pension liability adjustments.

**Derivative Instruments and Hedging Activities.** The Company accounts for all derivatives, including those embedded in other contracts, as either assets or liabilities and measures those financial instruments at fair value. The accounting for changes in the fair value of derivatives depends on their intended use and designation.

As part of its risk management program, the Company may periodically use forward exchange contracts to manage known market exposures. Terms of derivative instruments are structured to match the terms of the risk being managed and are generally held to maturity. The Company does not hold or issue derivative financial instruments for trading purposes. All other contracts that contain provisions meeting the definition of a derivative also meet the requirements of, and have been designated as, normal purchases or sales. The Company's policy is to not enter into contracts with terms that cannot be designated as normal purchases or sales.

The Company periodically evaluates its monetary asset and liability positions denominated in foreign currencies. The Company enters into forward contracts or options, or borrows in various currencies, in order to hedge its net monetary positions. These instruments are recorded at fair value and the gains and losses are included in other expense, net. The notional amounts of contracts outstanding as of December 29, 2023, totaled \$62 million. The Company believes it uses strong financial counterparties in these transactions and that the resulting credit risk under these hedging strategies is not significant.

The Company uses significant other observable inputs (level 2 in the fair value hierarchy) to value the derivative instruments used to hedge net monetary positions, including reference to market prices and financial models that incorporate relevant market assumptions. Net derivative assets are reported on the balance sheet in accounts receivable and net derivative liabilities are reported as other current liabilities. The fair market value of such instruments follows (in thousands):

	2023	2022
Foreign Currency Contracts		
Assets	\$ 26	\$ 157
Liabilities	(448)	(677)
Net Assets (Liabilities)	\$ (422)	\$ (520)

## B. Segment Information

The Company has five operating segments which are aggregated into three reportable segments: Contractor, Industrial and Process.

Beginning with the first quarter of 2022, our high performance coatings and foam product offerings previously included within the Applied Fluid Technologies division of the Industrial segment were realigned and are now managed under the Contractor segment. This change aligns the types of products offered and markets served within the segments. Prior year segment information has been restated to conform to the current organizational structure.

The Contractor segment markets sprayers and equipment that apply paint to walls and other structures, texture to walls and ceilings, insulation to building walls and other items, highly viscous coatings to roofs, and markings on roads, parking lots, athletic fields and floors.

The Industrial segment includes our Industrial and Powder divisions. The Industrial segment markets equipment and solutions for moving and applying paints, coatings, sealants, adhesives and other fluids. Markets served include automotive and vehicle assembly and components production, including Electro or e-mobility, wood and metal products, rail, marine, aerospace, farm, construction, bus, recreational vehicles and various other industries.

The Process segment includes our Process and Lubrication divisions. The Process segment markets pumps, valves, meters and accessories to move and dispense chemicals, oil and natural gas, water, wastewater, petroleum, food,

lubricants and other fluids. Markets served include food and beverage, dairy, oil and natural gas, pharmaceutical, cosmetics, electronics, semiconductor fabrication, wastewater, mining, fast oil change facilities, service garages, fleet service centers, automobile dealerships and industrial lubrication applications.

The accounting policies of the segments are the same as those described in the summary of significant accounting policies. The cost of manufacturing for each segment is based on product cost, and expenses are based on actual costs incurred along with cost allocations of shared and centralized functions based on activities performed, sales or space utilization. Depreciation expense is charged to the manufacturing or operating cost center that utilizes the asset, and is then allocated to segments on the same basis as other expenses within that cost center. Reportable segments are defined by product. Segments are responsible for development, manufacturing, marketing and sales of their products. This allows for focused marketing and efficient product development. The segments share common purchasing, certain manufacturing, distribution and administration functions.

Segment information follows (in thousands):

	2023	2022	2021
<b>Net Sales</b>			
Contractor	\$ 985,675	\$ 999,060	\$ 987,606
Industrial	662,785	649,347	602,376
Process	547,146	495,114	397,626
<b>Total</b>	<b>\$ 2,195,606</b>	<b>\$ 2,143,521</b>	<b>\$ 1,987,608</b>
<b>Operating Earnings</b>			
Contractor	\$ 285,394	\$ 249,833	\$ 266,204
Industrial	234,054	231,298	199,856
Process	165,273	122,344	91,037
Unallocated corporate (expense)	(38,678)	(30,775)	(25,774)
Contingent consideration	8,600	—	—
Impairment	(7,800)	—	—
<b>Total</b>	<b>\$ 646,843</b>	<b>\$ 572,700</b>	<b>\$ 531,323</b>
<b>Assets</b>			
Contractor	\$ 712,224	\$ 752,729	
Industrial	640,487	578,302	
Process	554,753	564,539	
Unallocated corporate	814,543	543,330	
<b>Total</b>	<b>\$ 2,722,007</b>	<b>\$ 2,438,900</b>	

Management assesses performance of segments by reference to operating earnings excluding unallocated corporate expenses and asset impairments. Unallocated corporate (expense) includes such items as stock compensation, certain acquisition transaction costs, bad debt expense, charitable contributions and certain facility expenses. Unallocated assets include cash, allowances and valuation reserves, deferred income taxes, certain capital and other assets.

Geographic information follows (in thousands):

	2023	2022	2021
<b>Net Sales (based on customer location)</b>			
United States	\$ 1,161,607	\$ 1,116,012	\$ 1,004,318
Other countries	1,033,999	1,027,509	983,290
<b>Total</b>	<b>\$ 2,195,606</b>	<b>\$ 2,143,521</b>	<b>\$ 1,987,608</b>
<b>Long-lived Assets</b>			
United States	\$ 622,430	\$ 532,401	
Other countries	119,283	75,208	
<b>Total</b>	<b>\$ 741,713</b>	<b>\$ 607,609</b>	

**Sales to Major Customers.** Worldwide sales to one customer in the Contractor and Industrial segments individually represented over 10 percent of the Company's consolidated sales in 2023, 2022 and 2021.

### C. Inventories

Major components of inventories were as follows (in thousands):

	2023	2022
Finished products and components	\$ 221,847	\$ 222,326
Products and components in various stages of completion	131,906	138,957
Raw materials and purchased components	202,294	248,636
Subtotal	556,047	609,919
Reduction to LIFO cost	(117,698)	(133,129)
Total	\$ 438,349	\$ 476,790

Inventories valued under the LIFO method were \$211.4 million in 2023 and \$253.6 million in 2022. All other inventory was valued on the FIFO method.

In 2023, certain inventory quantities were reduced, resulting in liquidation of LIFO inventory quantities, although increases in current product costs offset the impact of the decrement. The impact on net earnings was not significant.

### D. Property, Plant and Equipment

Property, plant and equipment were as follows (in thousands):

	2023	2022
Land and improvements	\$ 70,382	\$ 65,066
Buildings and improvements	500,373	376,115
Manufacturing equipment	441,824	439,109
Office, warehouse and automotive equipment	61,594	59,988
Additions in progress	132,609	126,198
Total property, plant and equipment	1,206,782	1,066,476
Accumulated depreciation	(465,069)	(458,867)
Net property, plant and equipment	\$ 741,713	\$ 607,609

Depreciation expense was \$55.0 million in 2023, \$46.0 million in 2022 and \$40.0 million in 2021.

### E. Income Taxes

Earnings before income tax expense consist of (in thousands):

	2023	2022	2021
Domestic	\$ 450,806	\$ 401,405	\$ 370,903
Foreign	157,996	164,319	137,562
Total	\$ 608,802	\$ 565,724	\$ 508,465

Income tax expense consists of (in thousands):

	2023	2022	2021
<b>Current</b>			
Federal	\$ 79,732	\$ 70,976	\$ 77,703
State and local	7,282	5,948	7,493
Foreign	23,779	38,152	29,975
Current income tax expense	<u>110,793</u>	<u>115,076</u>	<u>115,171</u>
<b>Deferred</b>			
Domestic	(6,919)	(8,733)	(42,413)
Foreign	(1,583)	(1,264)	(4,159)
Deferred income tax expense (benefit)	<u>(8,502)</u>	<u>(9,997)</u>	<u>(46,572)</u>
Total	<u>\$ 102,291</u>	<u>\$ 105,079</u>	<u>\$ 68,599</u>

Income taxes paid were \$111.3 million in 2023, \$112.3 million in 2022 and \$111.8 million in 2021.

A reconciliation between the U.S. federal statutory tax rate and the effective tax rate follows:

	2023	2022	2021
Statutory tax rate	21 %	21 %	21 %
Tax effect of international operations	(1)	1	(1)
State taxes, net of federal effect	1	1	1
U.S. general business tax credits	(1)	(1)	(1)
Stock compensation excess tax benefit	(1)	(1)	(2)
Foreign Derived Intangible Income (FDII)	(2)	(2)	(5)
Effective tax rate	<u>17 %</u>	<u>19 %</u>	<u>13 %</u>

Deferred income taxes are provided for temporary differences between the financial reporting and the tax basis of assets and liabilities. The deferred tax assets (liabilities) resulting from these differences were as follows (in thousands):

	2023	2022
Inventory valuations	\$ 1,005	\$ 678
Accrued self-insurance retentions	1,390	1,626
Accrued warranty and service liabilities	2,290	2,279
Vacation accruals	3,450	3,409
Customer allowances	4,137	4,143
Excess of tax over book depreciation and amortization	(44,197)	(42,322)
Pension benefit obligation	10,063	6,375
Postretirement medical benefit obligation	5,039	5,072
Stock compensation	12,686	12,390
Deferred compensation	2,205	2,283
Deferred revenue	2,024	2,160
Research and development	23,324	11,370
Prepayments from foreign subsidiaries	27,301	36,070
Other	2,449	2,114
Net deferred tax assets	<u>\$ 53,166</u>	<u>\$ 47,647</u>

Total deferred tax assets were \$61.4 million and \$57.1 million, and total deferred tax liabilities were \$8.2 million and \$9.4 million on December 29, 2023 and December 30, 2022, respectively. The difference between the deferred income tax provision and the change in net deferred income taxes is due to the changes in other comprehensive income (loss) items.

The Company files income tax returns in the U.S. federal jurisdiction, and various states and foreign jurisdictions. With few exceptions, the Company is no longer subject to U.S. federal, state and local, or non-U.S. income tax examinations by tax authorities for years before 2017.

The Company continues to assert that it will indefinitely reinvest earnings of foreign subsidiaries to support expansion of its international business. No additional income or withholding taxes have been provided for any remaining undistributed foreign earnings, as these amounts continue to be indefinitely reinvested in foreign operations. As of December 29, 2023, the amount of cash held outside the U.S. was not significant to the Company's liquidity and was available to fund investments abroad.

The Company records penalties and accrued interest related to uncertain tax positions in income tax expense. Total reserves for uncertain tax positions were not material.

## F. Debt

A summary of debt follows (dollars in thousands):

	Average Interest Rate as of December 29, 2023	Maturity	2023	2022
Private placement unsecured fixed-rate notes				
Series D	5.35%	July 2023	—	75,000
Unsecured revolving credit facility	N/A	December 2026	—	—
Unsecured revolving credit facility - offshore renminbi denominated	3.79%	N/A	28,099	14,327
Notes payable to banks	—%	2024	1,937	6,647
<b>Total debt</b>			<b>\$ 30,036</b>	<b>\$ 95,974</b>

The estimated fair value of the fixed interest rate Series D private placement debt was \$75 million on December 30, 2022. This debt was repaid in July of 2023. The fair value of variable rate borrowings approximates carrying value. The Company uses significant other observable inputs to estimate fair value (level 2 of the fair value hierarchy) based on the present value of future cash flows and rates that would be available for issuance of debt with similar terms and remaining maturities.

On May 23, 2023 and June 8, 2023, the Company executed amendments to its amended and restated credit agreement that amended, superseded and restated in its entirety the Company's existing credit agreement with U.S. Bank National Association, as administrative agent and a lender, and the other lenders that are parties thereto. The first amendment removed references to LIBOR for calculating rates and replaced them with SOFR and its equivalent benchmark rates such as EURIBOR, TIBOR and RFR loans.

The second amendment increased, from \$500 million to \$750 million, the amount of availability under an unsecured revolving credit facility, as well as increased, from \$200 million to \$375 million, the maximum amount of outstanding loans in currencies other than U.S. dollars. The amendment also increased, from \$250 million to \$375 million, the amount by which the size of the credit facility may be increased upon exercise of an accordion feature. The accordion feature may be exercised by means of an increase in the revolving commitments or the addition of term loans.

In addition, the second amendment increased the applicable margin percentages used for purposes of calculating the interest rates applicable to base rate loans and non-base rate loans (e.g., SOFR, EURIBOR, TIBOR and RFR loans). Under the amendment, the applicable margin percentages for base rate loans (which ranged from 0.000% to 0.750% under the prior credit agreement) range from 0.125% to 0.875%, and the applicable margin percentages for non-base rate loans (which ranged from 1.000% to 1.750% under the prior credit agreement) range from 1.125% to 1.875%.

Borrowings under the amended and restated credit agreement may be denominated in U.S. dollars or certain other currencies. In addition to paying interest on the outstanding loans, the Company is required to pay a facility fee on the unused amount of the loan commitments at a rate per annum ranging from 0.125% to 0.25%, depending on the Company's cash flow leverage ratio.

The amended and restated credit agreement contains customary representations, warranties, covenants and events of default, including but not limited to covenants restricting the Company's and its subsidiaries' ability to (i) merge or consolidate with another entity, (ii) sell, transfer, lease or convey their assets, (iii) make any material change in the nature of the core business of the Company, (iv) make certain investments, or (v) incur secured indebtedness. The amended and restated credit agreement also requires the Company to maintain a cash flow leverage ratio of not more than 3.50 to 1.00 (unless a significant acquisition has been consummated, in which case, not more than 4.00 to 1.00 during the four fiscal quarter period beginning with the quarter in which such acquisition occurs) and an interest coverage ratio of not less than 3.00 to 1.00 (unless a significant acquisition has been consummated, in which case, not less than 2.50 to 1.00 during the four fiscal quarter period beginning with the quarter in which such acquisition occurs). A change in control of the Company will constitute an event of default under the amended and restated credit agreement.

The Company maintains a revolving credit agreement with a sole lender that provides up to \$50 million of committed credit, available for general corporate purposes, working capital needs, share repurchases and acquisitions. Under the terms of the agreement, loans may be denominated in U.S. dollars or Chinese renminbi (offshore). Loans denominated in U.S. dollars bear interest, at the Company's option, at either a base rate or a HIBOR-based rate. Loans denominated in Chinese renminbi (offshore) bear interest at a HIBOR-based rate based on the Chinese offshore rate. Other terms of this revolving credit agreement are substantially similar to those of the Company's amended and restated credit agreement that expires in March 2026.

On December 16, 2022, the Company entered into an amendment to its master note agreement that extends the period in which the Company may issue, and affiliates of the lender may purchase, the Company's senior notes from January 29, 2023 to December 16, 2027. The amendment also increases the maximum aggregate principal amount of senior notes the Company may issue under the master note agreement from \$200 million to \$250 million, although the maximum aggregate amount of senior notes bearing interest at a floating rate that may be outstanding at any one time will continue to be \$100 million. The amendment also extends the maturity and average life of each senior note bearing interest at a fixed rate that may be issued under the master note agreement from no more than 12 years after the date of issuance to no more than 15 years after the date of issuance, and includes customary provisions for the replacement of LIBOR with SOFR and customary benchmark replacement provisions with respect to senior notes bearing interest at a floating rate. All other material items of the master note agreement remain unchanged. Under the terms of the master note agreement, the Company is required to maintain certain financial ratios as to cash flow leverage and interest coverage similar to the requirements of its other debt agreements.

On December 29, 2023, the Company had \$842 million in lines of credit, including the \$800 million in committed credit facilities described above and \$42 million with foreign banks. The unused portion of committed credit lines was \$775 million as of December 29, 2023. In addition, the Company has unused, uncommitted lines of credit with foreign banks totaling \$24 million. Borrowing rates under these credit lines vary with the prime rate, rates on domestic certificates of deposit and other benchmark rates (e.g. SOFR, EURIBOR, HIBOR, TIBOR and RFR). The Company pays facility fees at an annual rate of up to 0.15% on certain of these lines. No compensating balances are required.

Various debt agreements require the Company to maintain certain financial ratios as to cash flow leverage and interest coverage. The Company is in compliance with all financial covenants of its debt agreements as of December 29, 2023.

Annual maturities of debt are as follows (in thousands):

	2024	2025	2026	2027	2028	Thereafter
Maturities of debt	\$ 30,036	\$ —	\$ —	\$ —	\$ —	\$ —

Interest paid on debt was \$5.7 million in 2023, \$10.0 million in 2022 and \$9.8 million in 2021.

## G. Shareholders' Equity

At December 29, 2023, the Company had 22,549 authorized, but unissued, cumulative preferred shares, \$100 par value. The Company also has authorized, but not issued, a separate class of 3 million shares of preferred stock, \$1 par value.

Changes in components of accumulated other comprehensive income (loss), net of tax were (in thousands):

	Pension and Postretirement Medical	Cumulative Translation Adjustment	Total
Balance, December 26, 2020	\$ (114,129)	\$ (10,036)	\$ (124,165)
Other comprehensive income (loss) before reclassifications	34,953	(10,026)	24,927
Amounts reclassified from accumulated other comprehensive income	19,069	—	19,069
Balance, December 31, 2021	(60,107)	(20,062)	(80,169)
Other comprehensive income (loss) before reclassifications	16,083	(9,582)	6,501
Amounts reclassified from accumulated other comprehensive income	4,290	—	4,290
Balance, December 30, 2022	(39,734)	(29,644)	(69,378)
Other comprehensive income (loss) before reclassifications	(28,162)	25,661	(2,501)
Amounts reclassified from accumulated other comprehensive income	36,884	—	36,884
Balance, December 29, 2023	<u>\$ (31,012)</u>	<u>\$ (3,983)</u>	<u>\$ (34,995)</u>

Amounts related to pension and postretirement medical adjustments are classified to non-service components of pension cost that are included within other non-operating expenses. Included in the 2023 and 2021 reclassifications were \$42 million and \$12 million, respectively, of pension settlement losses. See [Note J](#) for additional details regarding pension and postretirement medical plans.

#### H. Share-Based Awards, Purchase Plans and Compensation Cost

**Stock Option and Award Plan.** The Company has a stock incentive plan under which it grants stock options and share awards to directors, officers and other employees. Option price is the market price on the date of grant. Options become exercisable at such time, generally over 3 years or 4 years, and in such installments as set by the Company, and expire 10 years from the date of grant.

Restricted share awards have been made to certain key employees under the plan. The market value of restricted stock at the date of grant is charged to operations over the vesting period. Compensation cost related to restricted shares is not significant.

The Company has a stock appreciation plan that provides for payments of cash to eligible foreign employees based on the change in the market price of the Company's common stock over a period of time. Compensation cost related to the stock appreciation plan was expense of \$2.0 million in 2023, a benefit of \$0.2 million in 2022 and expense of \$3.1 million in 2021.

Individual nonemployee directors of the Company may elect to receive, either currently or deferred, all or part of their retainer in the form of shares of the Company's common stock instead of cash. Under this arrangement, the Company issued 11,150 shares in 2023, 12,055 shares in 2022 and 12,070 shares in 2021. The expense related to this arrangement is not significant.

Options on common shares granted and outstanding, as well as the weighted average exercise price, are shown below (in thousands, except exercise prices):

	Option Shares	Weighted Average Exercise Price	Options Exercisable	Weighted Average Exercise Price
Outstanding, December 26, 2020	10,208	\$ 35.02	6,553	\$ 28.02
Granted	843	72.22		
Exercised	(1,309)	24.91		
Canceled	(167)	55.59		
Outstanding, December 31, 2021	9,575	39.31	7,296	33.75
Granted	1,381	71.03		
Exercised	(645)	25.58		
Canceled	(46)	49.42		
Outstanding, December 30, 2022	10,265	44.40	7,793	37.22
Granted	1,114	71.45		
Exercised	(1,354)	30.77		
Canceled	(121)	62.75		
Outstanding, December 29, 2023	9,904	\$ 49.09	7,274	\$ 41.46

The following table summarizes information for options outstanding and exercisable at December 29, 2023 (in thousands, except exercise prices and contractual term amounts):

Range of Prices	Options Outstanding			Options Exercisable	
	Options Outstanding	Weighted Average Remaining Contractual Term in Years	Weighted Average Exercise Price	Options Exercisable	Weighted Average Exercise Price
\$ 20-35	3,107	3.2	\$ 26.85	3,107	\$ 26.85
\$ 35-50	2,392	5.8	44.75	2,365	44.75
\$ 50-65	1,231	7.1	55.96	1,084	55.92
\$ 65-80	3,174	9.4	71.48	718	71.94
\$ 20-80	9,904	6.3	\$ 49.09	7,274	\$ 41.46

The aggregate intrinsic value of exercisable option shares was \$329.6 million as of December 29, 2023, with a weighted average contractual term of 4.2 years. There were approximately 9.9 million vested share options and share options expected to vest as of December 29, 2023, with an aggregate intrinsic value of \$373.2 million, a weighted average exercise price of \$49.09 and a weighted average contractual term of 6.3 years.

Information related to options exercised follows (in thousands):

	2023	2022	2021
Cash received	\$ 40,708	\$ 15,739	\$ 32,610
Aggregate intrinsic value	61,624	28,193	65,319
Tax benefit realized	12,605	6,020	13,329

**Employee Stock Purchase Plan.** Under the Company's Employee Stock Purchase Plan, the purchase price of the shares is the lesser of 85 percent of the fair market value on the first day or the last day of the plan year. Under this plan, the Company issued 322,764 shares in 2023, 316,250 shares in 2022 and 415,995 shares in 2021.

**Authorized Shares.** In April 2019, shareholders of the Company approved the Graco Inc. 2019 Stock Incentive Plan. The Plan provides for issuance of up to 10 million shares of Graco common stock. Shares authorized for issuance under the stock option and purchase plans are shown below (in thousands):

	Total Shares Authorized	Available for Future Issuance as of December 29, 2023
Stock Incentive Plan (2019)	10,000	4,743
Employee Stock Purchase Plan (2006)	21,000	11,423
<b>Total</b>	<b>31,000</b>	<b>16,166</b>

Amounts available for future issuance exclude outstanding options. Options outstanding as of December 29, 2023, include options granted under two plans that were replaced by subsequent plans. No shares are available for future grants under those plans.

**Share-based Compensation.** The Company recognized share-based compensation cost as follows (in thousands):

	2023	2022	2021
Share-based compensation	\$ 30,229	\$ 24,695	\$ 24,931
Tax benefit	3,177	2,319	1,705
<b>Share-based compensation, net of tax</b>	<b>\$ 27,052</b>	<b>\$ 22,376</b>	<b>\$ 23,226</b>

As of December 29, 2023, there was \$17.3 million of unrecognized compensation cost related to unvested options, expected to be recognized over a weighted average period of approximately 2.3 years.

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option-pricing model with the following weighted average assumptions and results:

	2023	2022	2021
Expected life in years	6.7	6.4	7.5
Interest rate	4.0 %	2.7 %	0.9 %
Volatility	26.3 %	26.2 %	25.2 %
Dividend yield	1.3 %	1.2 %	1.0 %
<b>Weighted average fair value per share</b>	<b>\$ 21.76</b>	<b>\$ 19.10</b>	<b>\$ 17.87</b>

Expected life is estimated based on vesting terms and exercise and termination history. Interest rate is based on the U.S. Treasury rate on zero-coupon issues with a remaining term equal to the expected life of the option. Expected volatility is based on historical volatility over a period commensurate with the expected life of options.

The fair value of employees' purchase rights under the Employee Stock Purchase Plan was estimated on the date of grant. The benefit of the 15 percent discount from the lesser of the fair market value per common share on the first day and the last day of the plan year was added to the fair value of the employees' purchase rights determined using the Black-Scholes option-pricing model with the following assumptions and results:

	2023	2022	2021
Expected life in years	1.0	1.0	1.0
Interest rate	5.1 %	0.9 %	0.1 %
Volatility	26.4 %	20.5 %	40.1 %
Dividend yield	1.4 %	1.2 %	1.1 %
<b>Weighted average fair value per share</b>	<b>\$ 18.04</b>	<b>\$ 16.01</b>	<b>\$ 21.50</b>

**I. Earnings per Share**

The following table sets forth the computation of basic and diluted earnings per share (in thousands, except per share amounts):

	2023	2022	2021
Net earnings available to common shareholders	\$ 506,511	\$ 460,645	\$ 439,866
Weighted average shares outstanding for basic earnings per share	168,442	168,952	169,635
Dilutive effect of stock options computed based on the treasury stock method using the average market price	3,757	3,941	4,891
Weighted average shares outstanding for diluted earnings per share	172,199	172,893	174,526
Basic earnings per share	\$ 3.01	\$ 2.73	\$ 2.59
Diluted earnings per share	\$ 2.94	\$ 2.66	\$ 2.52

Anti-dilutive stock options excluded from computations of diluted earnings per share totaled 2.0 million shares in 2023, 2.2 million shares in 2022 and 0.4 million 2021.

**J. Retirement Benefits**

The Company has a defined contribution plan, under Section 401(k) of the Internal Revenue Code, which provides retirement benefits to most U.S. employees. For all employees who choose to participate, the Company matches employee contributions at a 100 percent rate, up to 3 percent of the employee's compensation. For employees not covered by a defined benefit plan, the Company contributed an amount equal to 2 percent of the employee's compensation. Employer contributions totaled \$11.5 million in 2023, \$11.0 million in 2022 and \$10.0 million in 2021.

The Company's postretirement medical plan provides certain medical benefits for retired U.S. employees. Employees hired before January 1, 2005, are eligible for these benefits upon retirement and fulfillment of other eligibility requirements as specified by the plan.

The Company has both funded and unfunded noncontributory defined benefit pension plans that together cover most U.S. employees hired before January 1, 2006, certain directors and some of the employees of the Company's non-U.S. subsidiaries.

In December of 2023, the Company entered into an agreement under which approximately \$147 million of pension obligations of its U.S. funded defined benefit pension plan were transferred to an insurance company. Under the agreement, the Company purchased a group annuity contract for approximately 651 plan participants that provides for an irrevocable commitment to make annuity payments to the affected participants. The payment obligation and administration thereof for the affected participants was transferred from the pension plans to the insurance company. The transfer did not change the amount of the monthly pension benefits received by the affected participants.

This arrangement is part of the Company's effort to reduce the overall size and volatility of its pension plan obligations. The purchase of the group annuity contract was funded through existing plan assets. The Company recognized a non-cash pension settlement loss of approximately \$42 million as a result of the transaction. This charge represents the acceleration of deferred charges currently accrued in accumulated other comprehensive income (loss).

For U.S. plans, benefits are based on years of service and the highest 5 consecutive years' earnings in the 10 years preceding retirement. Plans are funded annually in amounts consistent with minimum funding levels and maximum tax deduction limits, although the Company may make additional voluntary contributions from time to time to improve the funded status of its plans.

Investment policies and strategies of the U.S. funded pension plan are based on participant demographics. As the plan covers active participants and retirees with higher benefit amounts, investments are based on a long-term view of economic growth and weighted toward equity securities. The primary goal of the plan's investments is to ensure that the plan's liabilities are met over time. In developing strategic asset allocation guidelines, an emphasis is placed on the long-term characteristics of individual asset classes, and the benefits of diversification among multiple asset classes. The plan invests primarily in domestic and international equities, fixed income securities, which include treasuries, highly-rated corporate bonds and high-yield bonds and real estate. Strategic target allocations for plan assets are 52 percent equity securities, 32 percent fixed income securities and 16 percent real estate and alternative investments.

Plan assets are held in a trust for the benefit of plan participants and are invested in various commingled funds, most of which are sponsored by the trustee. The fair values for commingled equity, fixed-income and real estate investments are measured using net asset values, which take into consideration the value of underlying fund investments, as well as the other accrued assets and liabilities of a fund, in order to determine a per share market value. Certain trustee-sponsored funds allow redemptions monthly or quarterly, with 10 days or 60 days advance notice, while most of the funds allow redemptions daily. The plan had unfunded commitments to make additional investments in certain funds totaling \$2.3 million as of December 29, 2023 and December 30, 2022.

The Company maintains a defined contribution plan covering employees of a Swiss subsidiary, funded by Company and employee contributions. Responsibility for pension coverage under Swiss law has been transferred to a Swiss insurance company. Plan assets are invested in an insurance contract that guarantees a federally mandated annual rate of return. The value of the plan assets is effectively the value of the insurance contract. The performance of the underlying assets held by the insurance company has no direct impact on the surrender value of the insurance contract. The insurance backed assets have no active market and are classified as level 3 in the fair value hierarchy.

Assets of all plans by category and fair value measurement level were as follows (in thousands):

	Level	December 29, 2023	December 30, 2022
Cash and cash equivalents	1	\$ 1,425	\$ 351
Insurance contract	3	36,151	32,163
Investments categorized in fair value hierarchy		37,576	32,514
Equity			
U.S. Large Cap	N/A	40,726	74,838
U.S. Small/Mid Cap	N/A	—	5,191

Net	\$ 52,724	\$ 34,632	\$ 22,654	\$ 22,930

Changes in discount rates used to value pension obligations were the main drivers of actuarial losses in 2023 and gains in 2022. In 2023 and 2022, the Company made a \$20 million voluntary contribution each year to one of its U.S. qualified defined benefit plans.

The accumulated benefit obligation as of year-end for all defined benefit pension plans was \$186 million for 2023 and \$297 million for 2022. Information for plans with an accumulated benefit obligation in excess of plan assets follows (in thousands):

	2023	2022
Projected benefit obligation	\$ 89,206	\$ 72,190
Accumulated benefit obligation	81,701	69,395
Fair value of plan assets	36,150	32,164

The components of net periodic benefit cost for the plans for 2023, 2022 and 2021 were as follows (in thousands):

	Pension Benefits			Postretirement Medical Benefits		
	2023	2022	2021	2023	2022	2021

Amortization of net loss	5,999	4,701	9,248	(133)	345	1,002
Settlement loss	42,169	—	12,285	—	—	—
Cost of pension plans which are not significant and have not adopted ASC 715	368	284	368	N/A	N/A	N/A
Net periodic benefit cost	\$ 51,695	\$ 4,553	\$ 22,144	\$ 1,380	\$ 1,700	\$ 2,504

Net periodic benefit cost is disaggregated between service cost presented as operating expense and other components of pension cost presented as non-operating expense. Other components of pension cost and changes in cash surrender value of insurance contracts intended to fund certain non-qualified pension and deferred compensation arrangements included in non-operating expenses totaled \$44 million in 2023, \$1 million in 2022 and \$12 million in 2021.

Amounts recognized in other comprehensive income (loss) in 2023 and 2022 were as follows (in thousands):

	Pension Benefits		Postretirement Medical Benefits	
	2023	2022	2023	2022
Net (loss) gain arising during the period	\$ (37,132)	\$ 11,189	\$ 237	\$ 9,044
Amortization of net loss (gain)	5,999	4,701	(133)	345
Prior service credit (cost) arising during the period	250	267	—	—
Settlement loss	42,169	—	—	—
Amortization of prior service (credit) cost	36	84	—	—
Total	\$ 11,322	\$ 16,241	\$ 104	\$ 9,389

Amounts included in accumulated other comprehensive income (loss) as of December 29, 2023 and December 30, 2022, that had not yet been recognized as components of net periodic benefit cost, were as follows (in thousands):

	Pension Benefits		Postretirement Medical Benefits	
	2023	2022	2023	2022
Prior service cost	\$ 2,163	\$ 1,668	\$ —	\$ —
Net gain (loss)	(44,195)	(55,084)	1,995	1,891
Net gain (loss) before income taxes	(42,032)	(53,416)	1,995	1,891
Income taxes	9,464	12,207	(439)	(416)
Net	\$ (32,568)	\$ (41,209)	\$ 1,556	\$ 1,475

Assumptions used to determine the Company's benefit obligations are shown below:

Weighted average assumptions	Pension Benefits		Postretirement Medical Benefits	
	2023	2022	2023	2022
<b>U.S. Plans</b>				
Discount rate	5.3 %	5.6 %	5.3 %	5.6 %
Rate of compensation increase	2.7 %	2.7 %	N/A	N/A
<b>Non-U.S. Plans</b>				
Discount rate	2.1 %	2.4 %	N/A	N/A
Rate of compensation increase	1.7 %	1.8 %	N/A	N/A

Assumptions used to determine the Company's net periodic benefit cost are shown below:

Weighted average assumptions	Pension Benefits			Postretirement Medical Benefits		
	2023	2022	2021	2023	2022	2021
<b>U.S. Plans</b>						
Discount rate	5.6 %	3.0 %	2.6 %	5.6 %	2.9 %	2.6 %
Rate of compensation increase	2.7 %	2.7 %	2.7 %	N/A	N/A	N/A
Expected return on assets	7.6 %	6.3 %	6.3 %	N/A	N/A	N/A
<b>Non-U.S. Plans</b>						
Discount rate	0.4 %	0.4 %	0.4 %	N/A	N/A	N/A
Rate of compensation increase	1.3 %	1.3 %	1.3 %	N/A	N/A	N/A
Expected return on assets	1.6 %	1.0 %	1.0 %	N/A	N/A	N/A

Several sources of information are considered in determining the expected rate of return assumption, including the allocation of plan assets, the input of actuaries and professional investment advisers, and historical long-term returns. In setting the return assumption, the Company recognizes that historical returns are not always indicative of future returns and also considers the long-term nature of its pension obligations.

The Company's U.S. retirement medical plan limits the annual cost increase that will be paid by the Company to 3 percent. In measuring the accumulated postretirement benefit obligation (APBO), the annual trend rate for health care costs was assumed to be 8.2 percent for 2024, decreasing each year to a constant rate of 4.5 percent for 2038 and thereafter, subject to the plan's annual increase limitation.

The Company expects to contribute \$1.7 million to its unfunded pension plans and \$1.7 million to the postretirement medical plan in 2024. The Company will not be required to make contributions to the funded pension plan under minimum funding requirements for 2024. Estimated future benefit payments are as follows (in thousands):

	Pension Benefits	Postretirement Medical Benefits
2024	\$ 7,165	\$ 1,745
2025	6,455	1,717
2026	9,455	1,689
2027	11,380	1,697
2028	11,270	1,670
Years 2029-2033	67,316	7,974

## K. Commitments and Contingencies

### Operating Lease Liabilities and Assets

The Company owns most of the assets used in its operations, but leases certain buildings and land, vehicles, office equipment and other rental assets. The Company determines if an arrangement is a lease at inception. All of the Company's current lease arrangements are classified as operating leases. The Company historically has not entered into financing leases. Operating lease assets and obligations are recognized at the lease commencement date based on the present value of lease payments over the lease term. Lease expense is recognized by amortizing the amount recorded as an asset on a straight-line basis over the lease term.

In determining lease asset value, the Company considers fixed or variable payment terms, prepayments, incentives, and options to extend, terminate or purchase. Renewal, termination or purchase options affect the lease term used for determining lease asset value only if the option is reasonably certain to be exercised. The Company generally uses its incremental borrowing rate based on information available at the lease commencement date in determining the present value of lease payments.

Supplemental information related to the Company's lease activities is as follows (in thousands):

	2023		2022
Operating lease expense	\$ 11,688	\$	12,307
Operating lease payments	11,903		11,886
Non-cash additions to operating lease assets	6,141		8,859

Additional information related to operating leases is as follows:

	2023		2022
Weighted average remaining lease term (years)	3.1		3.0
Weighted average discount rate	5.13 %		3.00 %

Variable lease costs and short term lease costs were not significant for the twelve months ended December 29, 2023 and December 30, 2022.

As of December 29, 2023, future maturities of operating lease liabilities were as follows (in thousands):

2024	\$	8,242
2025		7,339
2026		3,552
2027		1,240
2028		612
Thereafter		616
Total lease payments	\$	21,601
Present value adjustment		(1,574)
Operating lease liabilities	\$	20,027

**Other Commitments.** The Company is committed to pay suppliers under the terms of open purchase orders issued in the normal course of business totaling approximately \$156 million at December 29, 2023. The Company also has commitments with certain suppliers to purchase minimum quantities, and under the terms of certain agreements, the Company is committed for certain portions of the supplier's inventory. The Company does not purchase, or commit to purchase, quantities in excess of normal usage or amounts that cannot be used within one year. The Company estimates that the maximum commitment amount under such agreements does not exceed \$56 million.

The Company enters into contracts with vendors to receive services. Commitments under these service contracts with non-cancelable terms of more than one year totaled \$10 million in 2024, \$5 million in 2025, \$2 million in 2026 and \$1 million thereafter.

In addition, the Company could be obligated to perform under standby letters of credit totaling \$11 million at December 29, 2023. The Company has also guaranteed the debt of its subsidiaries for up to \$5 million. All debt of subsidiaries is reflected in the consolidated balance sheets.

**Contingencies.** The Company is party to various legal proceedings arising in the normal course of business. The Company is actively pursuing and defending these matters and has recorded an estimate of the probable costs where appropriate. Management does not expect that resolution of these matters will have a material adverse effect on the Company, although the ultimate outcome cannot be determined based on available information.

## **Item 9. Changes in and Disagreements With Accountants on Accounting and Financial Disclosure**

None.

### **Item 9A. Controls and Procedures**

#### **Evaluation of Disclosure Controls and Procedures**

As of the end of the fiscal year covered by this Annual Report, the Company carried out an evaluation of the effectiveness of the design and operation of its disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) of the Securities Exchange Act of 1934, as amended. This evaluation was done under the supervision and with the participation of the Company's President and Chief Executive Officer, the Chief Financial Officer and Treasurer, and the Executive Vice President, Corporate Controller and Information Systems. Based upon that evaluation, they concluded that the Company's disclosure controls and procedures are effective.

#### **Management's Report on Internal Control Over Financial Reporting**

Management is responsible for establishing and maintaining adequate internal control over financial reporting. The internal control system was designed to provide reasonable assurance to management and the board of directors regarding the reliability of financial reporting and preparation of financial statements in accordance with generally accepted accounting principles.

Management assessed the effectiveness of the Company's internal control over financial reporting as of December 29, 2023. In making this assessment, management used the criteria set forth by the Committee of Sponsoring Organizations of the Treadway Commission (COSO) in *Internal Control-Integrated Framework* (2013).

Based on our assessment and those criteria, management believes the Company's internal control over financial reporting is effective as of December 29, 2023.

The Company's independent auditors have issued an attestation report on the Company's internal control over financial reporting, which is included herein.

#### **Changes in Internal Control Over Financial Reporting**

During the fourth quarter, there was no change in the Company's internal control over financial reporting that has materially affected or is reasonably likely to materially affect the Company's internal control over financial reporting.

### **REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM**

To the shareholders and the Board of Directors of Graco Inc.

#### **Opinion on Internal Control over Financial Reporting**

We have audited the internal control over financial reporting of Graco Inc. and subsidiaries (the "Company") as of December 29, 2023, based on criteria established in *Internal Control — Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 29, 2023, based on criteria established in *Internal Control — Integrated Framework (2013)* issued by COSO.

We have also audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States) (PCAOB), the consolidated financial statements as of and for the year ended December 29, 2023, of the Company and our report dated February 20, 2024, expressed an unqualified opinion on those financial statements.

#### **Basis for Opinion**

The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit. We are a public accounting firm registered with the PCAOB and are

required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, testing and evaluating the design and operating effectiveness of internal control based on the assessed risk, and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

#### **Definition and Limitations of Internal Control over Financial Reporting**

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Minneapolis, Minnesota  
February 20, 2024

#### **Item 9B. Other Information**

During the three months ended December 29, 2023, none of the Company's directors or officers (as defined in Rule 16a-1(f) of the Securities Exchange Act of 1934) adopted, terminated or modified a Rule 10b5-1 trading arrangement or non-Rule 10b5-1 trading arrangement (as such terms are defined in Item 408 of Regulation S-K of the Securities Act of 1933).

#### **Item 9C. Disclosure Regarding Foreign Jurisdictions that Prevent Inspections**

Not applicable.

**PART III**

**Item 10. Directors, Executive Officers and Corporate Governance**

The information under the heading "Information About Our Executive Officers" in Part I of this 2023 Annual Report on Form 10-K and the information under the heading "Board of Directors" in our Company's Proxy Statement for its 2024 Annual Meeting of Shareholders to be held on April 26, 2024 (the "Proxy Statement"), is incorporated herein by reference.

**Audit Committee Members and Audit Committee Financial Expert**

The information under the heading "Committees of the Board of Directors" in our Company's Proxy Statement is incorporated herein by reference.

**Corporate Governance Guidelines, Committee Charters and Code of Ethics**

Our Company has adopted Corporate Governance Guidelines and Charters for each of the Audit, Governance, and Management Organization and Compensation Committees of the Board of Directors. We have also issued a Code of Ethics and Business Conduct ("Code of Ethics") that applies to our principal executive officer, principal financial officer, principal accounting officer, all officers, directors, and employees of Graco Inc. and all of its subsidiaries, representative offices and branches worldwide. The Corporate Governance Guidelines, Committee Charters, and Code of Ethics, with any amendments or waivers thereto, may be accessed free of charge by visiting the Graco website at [www.graco.com](http://www.graco.com).

Our Company intends to post on the Graco website any amendment to, or waiver from, a provision of the Code of Ethics that applies to our principal executive officer, principal financial officer, principal accounting officer, controller and other persons performing similar functions within four business days following the date of such amendment or waiver.

**Delinquent Section 16(a) Reports**

The information under the heading "Delinquent Section 16(a) Reports" in our Company's Proxy Statement is incorporated herein by reference.

**Item 11. Executive Compensation**

The information contained under the headings "Director Compensation," "Executive Compensation" (other than under the subheading "Pay Versus Performance"); and "Report of the Management Organization and Compensation Committee" in the Proxy Statement is incorporated herein by reference.

**Item 12. Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters**

The information contained under the headings "Equity Compensation Plan Information" and "Beneficial Ownership of Shares" in the Proxy Statement is incorporated herein by reference.

**Item 13. Certain Relationships and Related Transactions, and Director Independence**

The information under the headings "Related Person Transaction Approval Policy" and "Director Independence" in the Proxy Statement is incorporated herein by reference.

**Item 14. Principal Accountant Fees and Services**

The information under the headings "Independent Registered Public Accounting Firm Fees and Services" and "Pre-Approval Policies" in the Proxy Statement is incorporated herein by reference.

## **EXHIBIT 10.18**

### **Key Employee Agreement**

This Key Employee Agreement (“Agreement”) is entered into effective \_\_\_\_\_ (the “Effective Date”) by and between Graco Inc., a Minnesota corporation (the “Company”), and \_\_\_\_\_, a resident of Minnesota (“Executive”).

#### **Background**

A. The Company desires [*For an Executive with an existing KEA who enters into a new KEA or a current employee receiving a KEA, include: to continue*] to employ Executive in accordance with the terms and conditions stated in this Agreement.

B. [*For an Executive with an existing KEA who enters into a new KEA, include: The Company and Executive are parties to a key employee agreement dated «Date» (the “Prior Agreement”), which the parties desire to amend and restate in its entirety as set forth in this Agreement.*]

C. Executive [*For an Executive with an existing KEA who enters into a new KEA, include: is*] [*For any Executive without an existing KEA, include: will be*] a key member of the management of the Company and is expected [*For an Executive with an existing KEA who enters into a new KEA or a current employee receiving a KEA, include: to continue*] to devote substantial skill and effort to the affairs of the Company, and the Company desires to recognize the significant personal contribution that Executive [*For an Executive with an existing KEA who enters into a new KEA: makes and*] is expected [*For an Executive with an existing KEA who enters into a new KEA or a current employee receiving a KEA, include: to continue*] to make to further the best interests of the Company and its shareholders.

D. It is desirable and in the best interests of the Company and its shareholders [*For an Executive with an existing KEA who enters into a new KEA or a current employee receiving a KEA, include: to continue*] to obtain the benefits of Executive’s services and attention to the affairs of the Company.

E. It is desirable and in the best interests of the Company and its shareholders to provide inducement for Executive (1) to remain in the service of the Company in the event of any proposed or anticipated change of control of the Company and (2) to remain in the service of the Company in order to facilitate an orderly transition in the event of a change of control of the Company.

F. It is desirable and in the best interests of the Company and its shareholders that Executive be in a position to make judgments and advise the Company with respect to proposed changes of control of the Company without regard to the possibility that Executive’s employment may be terminated without compensation in the event of certain changes of control of the Company.

G. Executive will [*For an Executive with an existing KEA who enters into a new KEA or a current employee receiving a KEA, include: continue to*] have access to confidential, proprietary and trade secret information of the Company. It is desirable and in the best interests of the Company and its shareholders to protect confidential, proprietary and trade secret information of the Company, to prevent current and former executives from engaging in certain activities during and following employment with the Company and to secure cooperation from former executives with respect to matters related to their employment with the Company.

H. It is desirable and in the best interests of the Company and its shareholders to obtain certain commitments from Executive with respect to Executive’s service with the Company and compliance with Company policies, and to facilitate a smooth transition upon separation from service and to provide for releases of claims from former executives.

#### **Agreement**

In consideration of the foregoing premises and the respective agreements of the Company and Executive set forth below, the Company and Executive, intending to be legally bound, agree as follows:

---

1. Definitions. The capitalized terms used in this Agreement shall have the following meanings:

(a) "Annual Compensation" means the sum of (i) Executive's annual base salary in effect as of the Termination Date, plus (ii) Executive's target bonus award that would have been payable to Executive under the Annual Bonus Plan described in Section 3(b) for the annual performance period in which the Termination Date occurs, as if all performance targets have been met.

(b) "Board" means the Board of Directors of the Company, or any authorized committee of the Board of Directors of the Company.

(c) "Cause" means:

(i) Executive's conviction or guilty or no contest plea to any felony or other criminal act involving moral turpitude;

(ii) gross misconduct or any act of fraud, disloyalty or dishonesty by Executive related to or connected with Executive's employment by the Company or otherwise likely to cause material harm to the Company or its reputation;

(iii) a willful and material violation by Executive of the Company's written policies or codes of conduct, including without limitation policies relating to business ethics, conflict of interest, non-discrimination, confidentiality and protection of trade secrets, and insider trading;

(iv) wrongful appropriation by Executive of Company funds or property or other material breach of Executive's fiduciary duties to the Company; or

(v) the willful and material breach of this Agreement by Executive.

(d) A "Change of Control" means:

(i) an acquisition by any individual, entity or group (within the meaning of Section 13(d)(3) or 14(d)(2) of the Securities Exchange Act of 1934), (a "Person"), of beneficial ownership (within the meaning of Rule 13d-3 under the Securities Exchange Act of 1934) which, together with other acquisitions by such Person, results in the aggregate beneficial ownership by such Person of 30% or more of either

(A) the then outstanding shares of Common Stock of the Company (the "Outstanding Company Common Stock") or

(B) the combined voting power of the then outstanding voting securities of the Company entitled to vote generally in the election of directors (the "Outstanding Company Voting Securities");

provided, however, that the following acquisitions will not result in a Change of Control:

(1) an acquisition by any employee benefit plan (or related trust) sponsored or maintained by the Company or any corporation controlled by the Company,

(2) an acquisition by Executive or any group that includes Executive, or

(3) an acquisition by any entity pursuant to a transaction that complies with clauses (A), (B) and (C) of Section 1(d)(iii) below; or

(ii) Individuals who, as of the date hereof, constitute the Board of Directors of the Company (the "Incumbent Board") cease for any reason to constitute at least a majority of said Board; provided, however, that any individual becoming a director subsequent to the date hereof whose election, or nomination for election by the

Company's shareholders, was approved by a vote of at least a majority of the directors then comprising the Incumbent Board will be considered as though such individual were a member of the Incumbent Board, but excluding, for this purpose, any such individual whose initial membership on the Board occurs as a result of an actual or threatened election contest with respect to the election or removal of directors or other actual or threatened solicitation of proxies by or on behalf of a Person other than the Board; or

(iii) Consummation of a reorganization, merger or consolidation of the Company with or into another entity or a statutory exchange of Outstanding Company Common Stock or Outstanding Company Voting Securities or sale or other disposition of all or substantially all of the assets of the Company ("Business Combination"); excluding, however, such a Business Combination pursuant to which

(A) all or substantially all of the individuals and entities who were the beneficial owners of the Outstanding Company Common Stock and Outstanding Company Voting Securities immediately prior to such Business Combination beneficially own, directly or indirectly, a majority of, respectively, the then outstanding shares of common stock and the combined voting power of the then outstanding voting securities entitled to vote generally in the election of directors (or comparable equity interests), as the case may be, of the surviving or acquiring entity resulting from such Business Combination (including, without limitation, an entity that as a result of such transaction beneficially owns 100% of the outstanding shares of common stock and the combined voting power of the then outstanding voting securities (or comparable equity securities) or all or substantially all of the Company's assets either directly or indirectly) in substantially the same proportions (as compared to the other holders of the Company's common stock and voting securities prior to the Business Combination) as their respective ownership, immediately prior to such Business Combination, of the Outstanding Company Common Stock and Outstanding Company Voting Securities,

(B) no Person (excluding (1) any employee benefit plan (or related trust) sponsored or maintained by the Company or such entity resulting from such Business Combination or any entity controlled by the Company or the entity resulting from such Business Combination, (2) any entity beneficially owning 100% of the outstanding shares of common stock and the combined voting power of the then outstanding voting securities (or comparable equity securities) or all or substantially all of the Company's assets either directly or indirectly and (3) Executive and any group that includes Executive) beneficially owns, directly or indirectly, 30% or more of the then outstanding shares of common stock (or comparable equity interests) of the entity resulting from such Business Combination or the combined voting power of the then outstanding voting securities (or comparable equity interests) of such entity, and

(C) immediately after the Business Combination, a majority of the members of the board of directors (or comparable governors) of the entity resulting from such Business Combination were members of the Incumbent Board at the time of the execution of the initial agreement, or of the action of the Board, providing for such Business Combination; or

(iv) approval by the shareholders of the Company of a complete liquidation or dissolution of the Company.

(e) "Code" means the Internal Revenue Code of 1986, as amended, and any successor statute thereto.

(f) "Company" means the Company as defined in the first sentence of this Agreement and any successor to its business and/or assets which assumes or agrees to perform this Agreement by operation of law or otherwise.

(g) "Disability" means a continuing condition of Executive that has been determined to meet the criteria set forth in the Company's Long Term Disability Plan, or similar successor plan, to render Executive eligible for long-term disability benefits under said plan, whether or not Executive is in fact covered by such plan. The determination shall be made by the insurer of the plan or, if Executive is not covered by the plan, by the Company in its sole discretion.

(h) “Good Reason” means any of the following conditions arising during the Transition Period, without the consent of Executive:

(i) the assignment to Executive of any duties materially inconsistent in any respect with Executive’s duties, responsibilities or authority, or any other action by the Company which results in a material diminution in such duties, responsibilities or authority, as in effect immediately prior to the Transition Period, excluding for this purpose an isolated, insubstantial and inadvertent action not taken in bad faith and which is remedied by the Company promptly after receipt of notice thereof given by Executive;

(ii) any material reduction in Executive’s Annual Compensation, as in effect immediately prior to the Transition Period, other than any such material reduction in Executive’s Annual Compensation that is consistent with any across-the-board reductions in annual base salaries and/or target bonuses for all senior executives of the Company;

(iii) the Company requiring Executive to be based at any office or location more than 50 miles from the location at which Executive was based immediately prior to the Transition Period or the Company requiring Executive to travel on Company business to a substantially greater extent than required immediately prior to the Transition Period; or

(iv) any failure by the Company to comply with and satisfy Section 13(c) of this Agreement;

provided, however, that “Good Reason” shall not exist unless Executive has first provided written notice to the Company detailing one or more of the conditions under clauses (i) through (iv) above within thirty (30) calendar days after Executive’s actual knowledge of the initial occurrence of such alleged Good Reason event, and such condition is not remedied by the Company within thirty (30) calendar days after the Company’s receipt of written notice from Executive, and the Termination Date as a result of such event occurs within ten (10) calendar days after the expiration of the Company’s cure period. For purposes of this Good Reason definition, a notice shall be sufficient if it is transmitted by facsimile or email to the Board and if it provides a general indication of the nature of the asserted acts, omissions, breach or breaches triggering “Good Reason.”

(i) “Restricted Period” means [*For the CEO*: the period commencing on the Effective Date and continuing during Executive’s employment with the Company or any Subsidiary and for twenty-four (24) months after the Termination Date, whether such termination is with or without Cause, is at the instance of Executive or the Company or occurs before or after expiration of the Term.] [*For all Executives other than the CEO*: the period commencing on the Effective Date and continuing during Executive’s employment with the Company or any Subsidiary and for twelve (12) months after the Termination Date, whether such termination is with or without Cause, is at the instance of Executive or the Company or occurs before or after expiration of the Term; provided, however, (i) that in the event that Executive is entitled to payments under Section 9(a) and has satisfied the conditions in Section 12, then the Restricted Period for purposes of Sections 7(b) and (c) shall continue during Executive’s employment with the Company or any Subsidiary and for twelve (12) months after the Termination Date plus each additional month thereafter that the Company in its sole discretion elects to pay Executive additional installments of supplemental separation pay and to provide benefits (if applicable) in the same manner set forth in Sections 9(a)(iii) and 9(a)(v), but ending no later than twenty-four (24) months after the Termination Date, and (ii) that in the event that Executive is entitled to payments under Sections 10(a) and has satisfied the conditions in Section 12, then the Restricted Period for purposes of Sections 7(b) and (c) shall continue during Executive’s employment with the Company or any Subsidiary and for twelve (12) months after the Termination Date.]

(j) “Subsidiary” means, with respect to the Company, any corporation or other entity that is required to be combined with the Company as a single employer under Code § 414(b) or (c).

(k) “Term” means the period of Executive’s employment under this Agreement, commencing on the Effective Date and ending on the first (1<sup>st</sup>) anniversary of the Effective Date, provided that such period shall be automatically extended for successive one (1) year periods unless either party gives written notice of non-renewal to the other party at least six (6) months prior to the expiration of such first (1<sup>st</sup>) anniversary, or annual renewal, as the case may be, that such party elects not to extend the term of such employment under this Agreement;

provided, further, that if a Change of Control occurs prior to the expiration of the Term specified in the preceding clause (including any extension year then in effect), then the Term shall end upon expiration of the Transition Period.

(l) “Termination Date” means the date of Executive’s “separation from service” (within the meaning of Code § 409A(a)(2)(A)(i)) with the Company and its Subsidiaries, as determined by the Company.

(m) “Transition Period” means the period commencing at the time a Change of Control first occurs during the Term and ending on the date that is two (2) years thereafter.

2. Position and Duties. During Executive’s employment under this Agreement, Executive will perform such duties and responsibilities of an executive nature as the Company may assign from time to time. Executive will serve the Company faithfully and to the best of Executive’s ability and will devote Executive’s full working time, attention, and efforts to the business and affairs of the Company. Executive will report to [*For the CEO: the Board*][*For all Executives other than the CEO who report to the CEO, include: the CEO*][*For any Executives who do not report to the CEO, include: the [list Executive’s supervisor]*]. Executive will follow and comply with applicable policies and procedures adopted by the Company from time to time, including without limitation policies relating to business ethics, conflict of interest, non-discrimination, confidentiality and protection of trade secrets, and insider trading. Executive will not engage in other employment or other material business activity, except as approved in writing by [*For the CEO: the Board*][*For all Executives other than the CEO who report to the CEO, include: the CEO*][*For any Executives who do not report to the CEO, include: the [list Executive’s supervisor]*]. It shall not be a violation of this Agreement for Executive to (i) serve on corporate, civic or charitable boards or committees or (ii) manage personal investments, so long as such activities do not significantly interfere with the performance of Executive’s responsibilities in accordance with this Agreement. Executive hereby represents and confirms that Executive is under no contractual or legal commitments that would prevent Executive from fulfilling Executive’s duties and responsibilities as set forth in this Agreement.

3. Compensation. During Executive’s employment under this Agreement, Executive will be provided with the following compensation and benefits:

(a) Base Salary. The Company will pay to Executive for services provided hereunder a base salary at a rate determined from time to time by the Board, which base salary will be paid in accordance with the Company’s normal payroll policies and procedures. The Board will review Executive’s performance on an annual basis and determine any adjustments to Executive’s base salary in its sole discretion.

(b) Incentive Compensation. Executive will be eligible to participate in an annual cash incentive plan of the Company as designated by the Board, in accordance with the terms and conditions of such plan as may be in effect from time to time (the “Annual Bonus Plan”).

(c) Employee Benefits. Executive will be entitled to participate in all employee benefit plans and programs generally available to executive employees of the Company, as determined by the Company and to the extent that Executive meets the eligibility requirements for each individual plan or program. Executive’s participation in any plan or program will be subject to the provisions, rules, and regulations of, or applicable to, the plan or program. The Company provides no assurance as to the adoption or continuation of any particular employee benefit plan or program.

(d) Expenses. The Company will reimburse Executive for all reasonable and necessary out-of-pocket business, travel, and entertainment expenses incurred by Executive in the performance of Executive’s duties and responsibilities to the Company during the Term. Such reimbursement shall be subject to the Company’s normal policies and procedures for expense verification, documentation, and reimbursement; provided, however, that Executive shall submit verification of expenses within forty-five (45) calendar days after the date the expense was incurred, and the Company shall reimburse Executive for such expenses eligible for reimbursement within thirty (30) calendar days thereafter. The right to reimbursement hereunder is not subject to liquidation or exchange for any other benefit, and the amount of expenses eligible for reimbursement in a calendar year shall not affect the expenses eligible for reimbursement in any other calendar year.

4. **Confidential Information.** Except as authorized in writing by the Board or as necessary in carrying out Executive's responsibilities for the Company, Executive will not at any time during or following Executive's employment with the Company or any Subsidiary divulge, furnish, or make accessible to anyone or use in any way, any confidential, proprietary, or secret knowledge or information of the Company or any Subsidiary that Executive has acquired or will acquire about the Company or any Subsidiary, whether developed by Executive or by others, concerning (i) any trade secrets, (ii) any confidential, proprietary, or secret designs, inventions, discoveries, programs, processes, formulae, plans, devices, or material (whether or not patented or patentable) directly or indirectly useful in any aspect of the business of the Company or any Subsidiary, (iii) any customer or supplier lists, (iv) any confidential, proprietary, or secret development or research work, (v) any strategic or other business, marketing, or sales plans, systems or techniques, (vi) any financial data or plans, or (vii) any other confidential or proprietary information or secret aspects of the business of the Company or any Subsidiary. Executive acknowledges that the above-described knowledge and information constitute a unique and valuable asset of the Company and represent a substantial investment of time and expense by the Company, and that any disclosure or other use of such knowledge or information other than for the sole benefit of the Company would be wrongful and would cause irreparable harm to the Company. Executive will refrain from intentionally committing any acts that would materially reduce, and shall take reasonable steps to protect, the value of such knowledge or information to the Company. The foregoing obligations of confidentiality shall not apply to any knowledge or information that (i) is now or subsequently becomes generally publicly known, other than as a direct or indirect result of the breach by Executive of this Agreement, (ii) is independently made available to Executive in good faith by a third party who has not violated a confidential relationship with the Company or any Subsidiary, or (iii) is required to be disclosed by law or legal process. Executive understands and agrees that Executive's obligations under this Agreement to maintain the confidentiality of the Company's confidential information are in addition to any obligations of Executive under applicable statutory or common law. In addition, notwithstanding any other provision of this Agreement, Executive understands that Executive will not be held criminally or civilly liable under any federal or state trade secret law for any disclosure of confidential, proprietary, or secret knowledge or information of the Company that is made: (i) in confidence to a federal, state, or local government official, either directly or indirectly, or to an attorney, and solely for the purpose of reporting or investigating a suspected violation of law; or (ii) in a complaint or other document that is filed under seal in a lawsuit or other proceeding. Executive also understands that if Executive files a lawsuit for retaliation by the Company for Executive's having reported a suspected violation of law, Executive may disclose confidential, proprietary, or secret knowledge or information of the Company to Executive's attorney and use such information in the court proceeding if Executive files any document containing the information under seal and does not disclose the trade secret, except pursuant to court order.

5. **Ventures.** If, during Executive's employment with the Company, Executive participates in the planning or implementing of any project, program, or venture involving the Company, all rights in such project, program, or venture belong to the Company. Except as approved in writing by the Board, Executive will not be entitled to any interest in any such project, program, or venture or to any commission, finder's fee, or other compensation in connection therewith. Executive will have no interest, direct or indirect, in any customer or supplier that conducts business with the Company.

6. **Intellectual Property.**

(a) **Disclosure and Assignment.** As of the Effective Date, Executive hereby transfers and assigns to the Company (or its designee) all right, title, and interest of Executive in and to every idea, concept, invention, and improvement (whether patented, patentable or not) conceived or reduced to practice by Executive whether solely or in collaboration with others while Executive [*For an Executive with an existing KEA who enters into a new KEA or a current employee receiving a KEA, include: has been or*] is employed by the Company, and all copyrighted or copyrightable matter created by Executive whether solely or in collaboration with others while Executive [*For an Executive with an existing KEA who enters into a new KEA or a current employee receiving a KEA, include: has been or*] is employed by the Company, in each case, that relates to the Company's or any Subsidiary's business (collectively, "Creations"). Executive shall communicate promptly and disclose to the Company all information, details, and data pertaining to each Creation, whether or not specifically requested by the Company but in such form as the Company may request. Every copyrightable Creation, regardless of whether copyright protection is sought or preserved by the Company, shall be a "work made for hire" as defined in 17 U.S.C. § 101, and the Company shall own all rights in and to such matter throughout the world, without the payment of any royalty or other consideration to Executive or anyone claiming through Executive.

(b) Trademarks. All right, title, and interest in and to any and all trademarks, trade names, service marks, and logos adopted, used, or considered for use by the Company or any Subsidiary during Executive's employment (whether or not developed by Executive) to identify the Company's business or other goods or services (collectively, the "Marks"), together with the goodwill appurtenant thereto, and all other materials, ideas, or other property conceived, created, developed, adopted, or improved by Executive solely or jointly during Executive's employment by the Company and relating to its business shall be owned exclusively by the Company. Executive shall not have, and will not claim to have, any right, title, or interest of any kind in or to the Marks or such other property.

(c) Documentation. Executive shall execute and deliver to the Company such formal transfers and assignments and such other documents as the Company may request to permit the Company (or its designee) to file and prosecute such registration applications and other documents it deems useful to protect or enforce its rights hereunder. Any idea, invention, copyrightable matter, or other property relating to the Company's or any Subsidiary's business and disclosed by Executive prior to the first (1<sup>st</sup>) anniversary of the effective date of Executive's termination of employment shall be deemed to be governed by the terms of this Section 6 unless proven by Executive to have been first conceived and made after such termination date.

(d) Non-Applicability. Executive is hereby notified that Section 6(a) does not apply to any invention for which no equipment, supplies, facility, confidential information, or other trade secret information of the Company was used and which was developed entirely on Executive's own time, unless (1) the invention relates (a) directly to the business of the Company or any Subsidiary or (b) to the Company's or any Subsidiary's actual or demonstrably anticipated research or development, or (2) the invention results from any work performed by Executive for the Company.

7. Restrictive Covenants. In consideration of the benefits and promises contained in this Agreement, the compensation and benefits provided to Executive in connection with Executive's employment with the Company, the disclosure to Executive of confidential information, and training and development opportunities provided to Executive in connection with such employment, Executive agrees to the following restrictive covenants.

(a) Non-Competition During Employment. During Executive's employment with the Company or any Subsidiary, Executive will not, directly or indirectly, in any manner or capacity, including without limitation as a proprietor, principal, agent, partner, officer, director, investor, stockholder, employee, member of any association, consultant, or otherwise, other than on behalf of the Company or any Subsidiary, engage or participate in any business operation engaged in, or making plans or actively preparing to engage in, a business that competes with the business then conducted by, or proposed to be conducted by, the Company, including without limitation the design, development, manufacture, marketing or sale of fluid handling systems, products or technology similar to or competitive with the systems, products or technology of the Company. Ownership by Executive, as a passive investment, of less than one percent of the outstanding shares of capital stock of any corporation listed on a national securities exchange or publicly traded in the over-the-counter market shall not constitute a breach of this Section 7(a).

(b) Agreement Not to Solicit or Hire Employees. During the Restricted Period, Executive will not, directly or indirectly, in any manner or capacity, including without limitation as a proprietor, principal, agent, partner, officer, director, investor, stockholder, employee, member of any association, consultant, or otherwise, hire, engage, or solicit any person who is then an employee of the Company or who was an employee of the Company at any time during the six (6) month period immediately preceding Executive's termination of employment.

(c) Agreement Not to Solicit or Accept Business. During the Restricted Period, Executive will not, directly or indirectly, in any manner or capacity including without limitation as a proprietor, principal, agent, partner, officer, director, stockholder, employee, member of any association, consultant, or otherwise, (i) solicit, request, advise, or induce any then current or potential customer, supplier, vendor or other business contact of the Company to cancel, curtail, or otherwise change its relationship adversely to the Company, (ii) accept business from any then current customer, supplier, vendor or other business contact of the Company, or (iii) otherwise interfere in any manner with the relationship between the Company and any of its customers, suppliers, vendors or other business contacts.

(d) Modification. If the duration of, the scope of, or any business activity covered by, any provision of this Section 7 exceeds that which is valid and enforceable under applicable law, such provision will be construed to cover only that duration, scope, or activity that is determined to be valid and enforceable. Executive hereby acknowledges that this Section 7 will be construed so that its provisions are valid and enforceable to the maximum extent, not exceeding its express terms, possible under applicable law.

(e) No Adequate Remedy at Law. Executive hereby acknowledges that the provisions of this Section 7 are reasonable and necessary to protect the legitimate interests of the Company and that any violation of this Section 7 by Executive will cause substantial and irreparable harm to the Company to such an extent that monetary damages alone would be an inadequate remedy therefor. Accordingly, in the event of any actual or threatened breach of any such provisions, the Company will, in addition to any other remedies it may have, be entitled to injunctive and other equitable relief to enforce such provisions, and such relief may be granted without the necessity of proving actual monetary damages.

8. Termination of Employment. Executive's employment with the Company under this Agreement is at will and may be terminated by either party for any or no reason, subject to the obligations of the parties provided for in this Agreement.

9. Payments Upon Termination of Employment Prior To a Change of Control.

(a) Involuntary Termination Without Cause Prior To a Change of Control. If Executive's Termination Date occurs during the Term and prior to any Change of Control, and if such termination is involuntary at the initiative of the Company without Cause, then, in addition to such base salary that has been earned but not paid to Executive as of the Termination Date, the Company shall provide to Executive the severance payments set forth in this Section 9(a), subject to the conditions in Section 12:

(i) Separation Pay. The Company shall pay to Executive an amount equal to one-half (½) times Executive's Annual Compensation, but in no event shall such amount paid under this Section 9(a)(i) exceed the lesser of:

(A) two (2) times the limit of compensation set forth in Section 401(a)(17) of the Code as in effect for the year in which the Termination Date occurs; or

(B) two (2) times Executive's annualized compensation based upon the annual rate of pay for services to the Company for the calendar year prior to the calendar year in which the Termination Date occurs (adjusted for any increase during that year that was expected to continue indefinitely if Executive had not separated from service).

Such separation pay shall be paid to Executive in substantially equal installments, commencing on the first regular payroll date of the Company that occurs following the Termination Date and continuing for six (6) months, provided that Executive has satisfied the conditions set forth in Section 12. The Company and Executive intend the payments under this Section 9(a)(i) to be a "separation pay plan due to involuntary separation from service" under Treas. Reg. § 1.409A-1(b)(9)(iii).

(ii) Make-up Payment. In the event that Executive's separation pay under Section 9(a)(i) above is limited by application of clause (A) or (B) thereof, then the Company shall make an additional lump sum payment to Executive equal to the difference between (x) one-half times Executive's Annual Compensation and (y) the amount paid to Executive under Section 9(a)(i). Such payment shall be paid to Executive in a lump sum on the first regular payroll date of the Company to occur following the date that is six (6) months after the Termination Date, provided that Executive has satisfied the conditions set forth in Section 12.

(iii) Supplemental Separation Pay. The Company shall pay to Executive an additional amount equal to [For the CEO: one and one-half (1 ½)] [For all Executives other than the CEO: one-half (½)] times Executive's Annual Compensation. Such supplemental separation pay shall be paid to Executive in [For the CEO: eighteen (18)] [For all Executives other than the CEO: six (6)] substantially equal installments, commencing on the

first regular payroll date of the Company that occurs following the completion of all payments under Sections 9(a)(i) and 9(a)(ii) and continuing for [*For the CEO: eighteen (18)*] [*For all Executives other than the CEO: six (6)*] months immediately thereafter, provided that Executive has satisfied the conditions set forth in Section 12. [*For all Executives other than the CEO: Supplemental separation pay may be continued at the same rate for such additional period elected by the Company in its sole discretion, as described in Section 1(i)(i).*]

(iv) Pro-Rated Bonus. If the Termination Date is any day other than the last day of a performance period under the Annual Bonus Plan, then the Company shall pay to Executive an amount equal to a pro rata portion of the award that would have been payable to Executive under the Annual Bonus Plan for such annual performance period had Executive remained employed by the Company until the end of the performance period, based on actual performance results. The pro rata portion shall be calculated based on the number of calendar days during such annual performance period Executive was employed by the Company prior to the Termination Date divided by 365. Any separation pay that may become payable pursuant to this Section 9(a)(iv) shall be paid to Executive on the later of the date that awards for such annual performance period are paid to other participants in the Annual Bonus Plan and the first regular payroll date of the Company to occur following the date that is six (6) months after the Termination Date, provided that Executive has satisfied the conditions set forth in Section 12.

(v) Continued Benefits. If Executive (and/or Executive's covered dependents) is eligible for and properly elects to continue group medical, dental and/or life insurance coverage, as in place immediately prior to the Termination Date, the Company shall continue to pay the Company's portion of any such premiums or costs of coverage (on a benefit by benefit basis) until the earlier of (A) [*For the CEO: eighteen (18) months*] [*For all Executives other than the CEO: twelve (12) months after the Termination Date (or for such additional period elected by the Company in its sole discretion, as described in Section 1(i)(i)(A), up to eighteen (18) months)*], or (B) the date Executive (and Executive's covered dependents) is provided such form of coverage by a subsequent employer. In the event that Executive's participation in such plans is not possible under any of the applicable plans and laws as then in effect, the Company will purchase coverage reasonably comparable to the coverage provided under the plans provided by the Company, to the extent such coverage is reasonably available, and Executive will cooperate with the Company to obtain the most favorable rate for such coverage for Executive. All such Company-provided medical, dental and/or life insurance premiums, or costs of coverage, shall be paid directly to the insurance carrier or other provider by the Company and Executive shall make arrangements with the Company to pay Executive's portion of such coverage.

(vi) Outplacement Services. The Company shall provide to Executive executive-level outplacement services from a provider selected by the Company, consistent with Company policy then in effect for executive officers, for up to one year following the Termination Date.

(b) Other Termination Prior to a Change of Control. If Executive's Termination Date occurs during the Term and prior to any Change of Control, and if such termination is:

- (i) by reason of Executive's abandonment of or resignation from employment for any reason;
- (ii) by reason of termination of Executive's employment by the Company for Cause;
- (iii) because of Executive's death or Disability; or
- (iv) upon or following expiration of the Term,

then the Company will pay to Executive, or Executive's beneficiary or Executive's estate, as the case may be, such base salary that has been earned but not paid to Executive as of the Termination Date, payable pursuant to the Company's normal payroll practices and procedures, and such incentive compensation and benefits that have been earned as of the Termination Date, payable to the extent and in the manner provided in the applicable plans or programs, and Executive shall not be entitled to any additional compensation or benefits provided under Section 9 hereof.

10. Payments Upon Termination of Employment During The Transition Period.

(a) Payments and Benefits Upon Involuntary Termination Without Cause or Resignation for Good Reason During The Transition Period. If Executive's Termination Date occurs during the Transition Period, and if such termination is involuntary at the initiative of the Company without Cause or at the initiative of Executive for Good Reason, then, in addition to such base salary and incentive compensation that has been earned but not paid to Executive as of the Termination Date, the Company shall provide to Executive the severance payments set forth in this Section 10(a), subject to the conditions in Section 12:

(i) Separation Pay. The Company shall pay to Executive an amount equal to [*For the CEO: three (3)*] [*For all Executives other than the CEO: two (2)*] times Executive's Annual Compensation.

(ii) Pro-Rated Bonus. If the Termination Date is any day other than the last day of a performance period under the Annual Bonus Plan, then the Company shall pay to Executive an amount equal to a pro rata portion of the target award that would have been payable to Executive under the Annual Bonus Plan for the annual performance period in which the Termination Date occurs, as if all performance targets been met. The pro rata portion shall be calculated based on the number of calendar days during such annual performance period Executive was employed by the Company prior to the Termination Date divided by 365.

(iii) Continued Benefits. If Executive (and/or Executive's covered dependents) is eligible and properly elects to continue group medical, dental and/or life insurance coverage, as in place immediately prior to the Termination Date, the Company shall continue to pay the Company's portion of any such premiums or costs of coverage (on a benefit by benefit basis) until the earlier of (A) eighteen (18) months after the Termination Date, or (B) the date Executive (and Executive's covered dependents) is provided such form of coverage by a subsequent employer. In the event that Executive's participation in such plans is not possible under any of the applicable plans and laws as then in effect, the Company will purchase coverage reasonably comparable to the coverage provided under the plans provided by the Company, to the extent such coverage is reasonably available, and Executive will cooperate with the Company to obtain the most favorable rate for such coverage for Executive. All such Company-provided medical, dental and/or life insurance premiums, or costs of coverage, shall be paid directly to the insurance carrier or other provider by the Company and Executive shall make arrangements with the Company to pay Executive's portion of such coverage.

(iv) Retirement/Restoration Benefits. If Executive is a participant in the Company's Restoration Plan, the Company shall credit Executive with additional years of service under such plan for purposes of calculating all benefits and rights under such plan, as if Executive had remained employed by the Company for an additional [*For the CEO: three (3)*] [*For all Executives other than the CEO: two (2)*] years following the Termination Date.

(b) Timing and Form of Payments Following a Change of Control.

(i) Lump Sum Payment. Except as provided in Section 10(b)(ii) below, in the event that Executive is entitled to payments under Section 10(a) above, then any payments to which Executive is entitled under Sections 10(a)(i) or (ii) above shall be paid to Executive in a lump sum on the first regular payroll date of the Company to occur following the date that is six (6) months after the Termination Date, provided that Executive has satisfied the conditions set forth in Section 12.

(ii) 409A Timing Exceptions. Notwithstanding the provisions of Section 10(b)(i) above, if, as of the Termination Date, the Change of Control does not constitute a change "in the ownership or effective control" of the Company, or "in the ownership of a substantial portion of the assets" of the Company, as such phrases are defined in Section 409A(2)(a)(v) of the Code, then the payments under Section 10(a) shall be made as follows:

(A) A portion of the amount payable under Section 10(a)(i), such portion equal to the aggregate amounts that would have been payable to Executive pursuant to Sections 9(a)(i), (ii) and (iii) in the event of an involuntary termination prior to a Change of Control, shall be paid to Executive in the

same manner and at the same time as if such payments were being made pursuant to Section 9(a)(i), (ii) and (iii) above.

(B) The remaining portion of the amount payable to Executive under Section 10(a)(i) shall be paid to Executive in substantially equal installments, commencing on the first regular payroll date of the Company that occurs following the completion of all payments under Section 10(b)(ii)(A) and continuing for twelve (12) months.

(C) The amount payable under Section 10(a)(ii) shall be paid to Executive on the later of the date that awards for the annual performance period during which the Termination Date occurred are paid to other participants in the Annual Bonus Plan and the first regular payroll date of the Company to occur following the date that is six (6) months after the Termination Date.

(c) Possible Payment Reduction. Notwithstanding any provision to the contrary contained in this Agreement, if the cash payments due and the other benefits to which Executive shall become entitled under Section 10(a), either alone or together with other payments in the nature of compensation to Executive which are contingent on a change in the ownership or effective control of the Company or in the ownership of a substantial portion of the assets of the Company or otherwise, would (i) constitute a “parachute payment” (as defined in Section 280G of the Code or any successor provision thereto) and (ii) be subject to the excise tax imposed by Code Section 4999, then such benefits shall either be: (A) delivered to Executive in full, or (B) delivered to Executive to such lesser extent as would result in no portion of such severance benefits being subject to excise tax under Code Section 4999, whichever of the foregoing amounts, taking into account the applicable federal, state and local income and employment taxes and the excise tax imposed by Code Section 4999, results in the receipt by Executive, on an after-tax basis, of the greatest amount of benefits, notwithstanding that all or some portion of such benefits may be subject to excise tax under Code Section 4999. Any determination required under this Section 10(c) will be made in writing by an accounting firm selected by the Company or such other person or entity to which the parties mutually agree (the “Accountants”), whose determination will be conclusive and binding upon Executive and the Company for all purposes. For purposes of making the calculations required by this Section 10(c), the Accountants may make reasonable assumptions and approximations concerning applicable taxes and may rely on reasonable, good faith interpretations concerning the application of Code Sections 280G and 4999. The Company and Executive shall furnish to the Accountants such information and documents as the Accountants may reasonably request in order to make a determination under this Section 10(c). The Company shall bear all costs the Accountants may reasonably incur in connection with any calculations contemplated by this Section 10(c). Any reduction in payments and/or benefits required by this Section 10(c) shall occur by first reducing or eliminating the portion of the payments and benefits that are payable in cash and then by reducing or eliminating the non-cash portion of the payments and benefits, in each case in reverse chronological order such that the applicable payment or benefit owed on the latest date following the occurrence of the event triggering such excise tax will be the first applicable payment or benefit to be reduced.

(d) Other Termination Following a Change of Control. If Executive’s Termination Date occurs during the Transition Period or otherwise following a Change of Control, and such termination is:

(i) by reason of Executive’s abandonment of or resignation from employment for any reason (other than, during the Transition Period, for Good Reason);

(ii) by reason of termination of Executive’s employment by the Company for Cause;

(iii) because of Executive’s death or Disability; or

(iv) upon or following expiration of the Term,

then the Company will pay to Executive, or Executive’s beneficiary or Executive’s estate, as the case may be, such base salary that has been earned but not paid to Executive as of the Termination Date, payable pursuant to the Company’s normal payroll practices and procedures, and such incentive compensation and benefits that have been earned as of the Termination Date, payable to the extent and in the manner as provided in the applicable plans or

programs, and Executive shall not be entitled to any additional compensation or benefits provided under Section 10 hereof.

11. Other Post-Termination Obligations.

(a) In the event of termination of Executive's employment, the sole obligation of the Company under this Agreement will be its obligation to make the payments called for by Sections 9 or 10 hereof, as the case may be, and the Company will have no other obligation to Executive or to Executive's beneficiary or Executive's estate, except as otherwise provided by law or by the terms of any employee benefit plans or programs, or of any incentive compensation or stock ownership plans, then maintained by the Company in which Executive participates. In no event shall Executive be eligible for payments under both Section 9 and Section 10.

(b) Immediately upon termination of Executive's employment with the Company for any reason, Executive will resign all positions then held as a director or officer of the Company and of any Subsidiary, parent or affiliated entity of the Company.

(c) Upon termination of Executive's employment with the Company, Executive shall promptly deliver to the Company any and all Company records and any and all Company property in Executive's possession or under Executive's control, including without limitation manuals, books, blank forms, documents, letters, memoranda, notes, notebooks, reports, printouts, computer disks, flash drives or other digital storage media, source codes, data, tables or calculations and all copies thereof, documents that in whole or in part contain any trade secrets or confidential, proprietary or other secret information of the Company and all copies thereof, and keys, access cards, access codes, passwords, credit cards, personal computers, handheld personal computers or other digital devices, telephones and other electronic equipment belonging to the Company.

(d) Following termination of Executive's employment with the Company for any reason, Executive will, upon reasonable request of the Company or its designee, cooperate with the Company in connection with the transition of Executive's duties and responsibilities for the Company; consult with the Company regarding business matters that Executive was directly and substantially involved with while employed by the Company; and be reasonably available, with or without subpoena, to be interviewed, review documents or things, give depositions, testify, or engage in other reasonable activities in connection with any litigation or investigation, with respect to matters that Executive then has or may have knowledge of by virtue of Executive's employment by or service to the Company or any related entity.

(e) Executive will not malign, defame or disparage the reputation, character, image, products or services of the Company, or the reputation or character of the Company's directors, officers, employees or agents, provided that nothing in this Section 11(e) shall be construed to limit or restrict Executive from taking any action that Executive in good faith reasonably believes is necessary to fulfill Executive's fiduciary obligations to the Company, or from providing truthful information in connection with any legal proceeding, government investigation or other legal matter.

(f) In the event any payments or benefits become payable to Executive pursuant to Sections 9(a) or 10(a), then such payments or benefits will supersede and replace any other payments or benefits applicable to Executive under this Agreement or any other agreement, plan or program applicable to Executive to the extent that such other agreement, plan or program provides payments or benefits to Executive in the event of involuntary termination at the initiative of the Company without Cause or voluntary termination on the initiative of Executive for Good Reason, and Executive shall be entitled to payments only pursuant to Sections 9(a) or 10(a), as applicable.

12. Termination Payment Conditions. Notwithstanding anything above to the contrary, the Company will not be obligated to make any payments to Executive under Sections 9(a) or 10(a) hereof unless: (a) Executive has signed a release of claims in favor of the Company and its affiliates and related entities, and their directors, officers, insurers, employees and agents, in a form prescribed by the Company (which release shall not include any claims Executive may have to indemnification or advance of expenses with respect to Executive's actions as an officer or director of the Company); (b) all applicable rescission periods provided by law for releases of claims shall have expired and Executive has not rescinded the release of claims; (c) Executive is in strict compliance with the terms of this Agreement as of the dates of such payments; and (d) Executive does not, for the [For the CEO: twenty-

four (24)] *[For all Executives other than the CEO: twelve (12)]* month period immediately after the Termination Date, directly or indirectly, in any manner or capacity, including without limitation as a proprietor, principal, agent, partner, officer, director, investor, stockholder, employee, member of any association, consultant, or otherwise, engage or participate in any business operation engaged in, or making plans or actively preparing to engage in, a business that competes with the business then conducted by the Company, which business as of the Effective Date includes without limitation the design, development, manufacture, marketing or sale of fluid handling systems, products or technology similar to or competitive with the systems, products or technology of the Company (the "Restrictive Covenant Condition"); provided, however, that ownership by Executive, as a passive investment, of less than one percent of the outstanding shares of capital stock of any corporation listed on a national securities exchange or publicly traded in the over-the-counter market shall not violate the Restrictive Covenant Condition. For avoidance of doubt, the Restrictive Covenant Condition does not prohibit Executive from participating in the management of, being employed by, providing services to, or otherwise being involved in any type of business operation during the *[For the CEO: twenty-four (24)] [For all Executives other than the CEO: twelve (12)]* month period immediately after the Termination Date, but if Executive satisfies the conditions identified in (a)-(c) of this Section 12 and does not also satisfy the Restrictive Covenant Condition at any point during the *[For the CEO: twenty-four (24)] [For all Executives other than the CEO: twelve (12)]* month period immediately after the Termination Date, then the Company will not be obligated to continue to make any payments to Executive under Section 9(a) or 10(a) hereof and, if Executive has already received any payments to Executive under Section 9(a) or 10(a) hereof, then Executive is required to repay the entire gross amount of such payments to the Company no later than thirty (30) calendar days after Executive first fails to satisfy the Restrictive Covenant Condition; provided, however, in any event if Executive has satisfied the conditions identified in (a)-(c) of this Section 12 but Executive does not satisfy the Restrictive Covenant Condition at any point during the *[For the CEO: twenty-four (24)] [For all Executives other than the CEO: twelve (12)]* month period immediately after the Termination Date, then Executive will be entitled to receive (if Executive has not then received any payments under Section 9(a) or 10(a)) or retain (if Executive has then received any payments under Section 9(a) or 10(a)) an amount equal to *[For the CEO: one-sixth (1/6<sup>th</sup>)] [For all Executives other than the CEO: one-twelfth (1/12<sup>th</sup>)]* of Executive's Annual Compensation in consideration of such satisfaction. Executive understands, acknowledges and agrees that Executive must provide written notice to the Board prior to the date Executive first fails to satisfy the Restrictive Covenant Condition. In addition, Executive must, upon written request by the Company during the *[For the CEO: twenty-four (24)] [For all Executives other than the CEO: twelve (12)]* month period immediately after the Termination Date, promptly provide truthful and accurate information to the Company regarding whether Executive is then satisfying, and has satisfied, the Restrictive Covenant Condition.

13. Successors.

(a) This Agreement is personal to Executive and without the prior written consent of the Company shall not be assignable by Executive otherwise than by will or the laws of descent and distribution. This Agreement shall inure to the benefit of and be enforceable by Executive's legal representatives.

(b) This Agreement shall inure to the benefit of and be binding upon the Company and its successors and assigns.

(c) The Company will require any successor (whether direct or indirect, by purchase, merger, consolidation or otherwise) to all or substantially all of the business and/or assets of the Company to assume expressly and agree to perform this Agreement in the same manner and to the same extent that the Company would be required to perform it if no such succession had taken place.

14. Miscellaneous.

(a) Tax Withholding. The Company may withhold from any amounts payable under this Agreement such federal, state and local income and employment taxes as the Company shall determine are required to be withheld pursuant to any applicable law or regulation.

(b) Section 409A. This Agreement is intended to provide for payments that are exempt from or that satisfy the requirements for deferred compensation under Section 409A of the Code, including of Section

409A(a)(2), (3) and (4) of the Code, including current and future guidance and regulations interpreting such provisions, and should be interpreted accordingly. Specifically, it is intended that any payment or benefit that is provided pursuant to or in connection with this Agreement that is considered to be deferred compensation subject to Section 409A of the Code shall be paid and provided in a manner, and at such time and form, as complies with the applicable requirements of Section 409A of the Code to avoid the unfavorable tax consequences provided therein for non-compliance. It is further intended that any payment or benefit that is provided pursuant to or in connection with this Agreement shall, to the maximum extent permissible under Section 409A of the Code, be exempt from Section 409A of the Code under either (i) the exception for involuntary separation pay to the extent that all payments are payable within the limitations described in Treasury Regulation Section 1.409A-1(b)(9), or (ii) the short-term deferral exception described in Treasury Regulation Section 1.409A-1(b)(4) to the extent that all payments are payable no later than two and a half (2½) months after the end of the first taxable year in which the right to the payment is no longer subject to a substantial risk of forfeiture. For purposes of this Agreement, all rights to payments and benefits hereunder shall be treated as rights to receive a series of separate payments and benefits to the fullest extent allowed by Section 409A of the Code.

(c) Application of Compensation Recovery Policy. Notwithstanding any other provision of this Agreement to the contrary, all compensation provided for herein is subject to recovery by the Company pursuant to any compensation recovery policy adopted by the Board or any compensation committee of the Board at any time, as amended from time to time, including any such policy adopted in response to the requirements of Section 10D of the Securities Exchange Act of 1934, the Securities and Exchange Commission's final rules thereunder, and any applicable listing rules or other rules and regulations implementing the foregoing or as otherwise required by law.

(d) Governing Law. All matters relating to the interpretation, construction, application, validity, and enforcement of this Agreement will be governed by the laws of the State of Minnesota without giving effect to any choice or conflict of law provision or rule, whether of the State of Minnesota or any other jurisdiction, that would cause the application of laws of any jurisdiction other than the State of Minnesota.

(e) Jurisdiction and Venue. Executive and the Company consent to jurisdiction of the courts of the State of Minnesota and/or the United States District Court, District of Minnesota, for the purpose of resolving all issues of law, equity, or fact arising out of or in connection with this Agreement. Any action involving claims of a breach of this Agreement must be brought in such courts. Each party consents to personal jurisdiction over such party in the state and/or federal courts of Minnesota and hereby waives any defense of lack of personal jurisdiction. Venue, for the purpose of all such suits, will be in Hennepin County, State of Minnesota.

(f) Waiver of Jury Trial. To the extent permitted by law, Executive and the Company waive any and all rights to a jury trial with respect to any dispute arising out of or relating to this Agreement.

(g) Attorneys' Fees. If any action at law or in equity, including any action for declaratory or injunctive relief, is brought which arises out of this Agreement, or which seeks to enforce or interpret this Agreement or to seek damages for its breach, the prevailing party shall be entitled to recover reasonable attorney fees from the non-prevailing party, which fees may be set by the court or arbitrator in the trial of such action, or may be enforced in a separate action brought for that purpose, and which fees shall be in addition to any other relief which may be awarded.

(h) Entire Agreement. This Agreement contains the entire agreement of the parties relating to Executive's employment with the Company and supersedes all prior agreements and understandings with respect to such subject matter [*For an Executive with an existing KEA who enters into a new KEA, include:*, including without limitation the Prior Agreement]. The parties hereto have made no agreements, representations, or warranties relating to the subject matter of this Agreement that are not set forth herein.

(i) No Violation of Other Agreements. Executive hereby represents and agrees that neither (i) Executive's entering into this Agreement nor (ii) Executive's carrying out the provisions of this Agreement, will violate any other agreement (oral, written, or other) to which Executive is a party or by which Executive is bound.

(j) Amendments. No amendment or modification of this Agreement will be effective unless made in writing and signed by the parties hereto.

(k) Counterparts. This Agreement may be executed by facsimile signature and in any number of counterparts, and such counterparts executed and delivered, each as an original, will constitute but one and the same instrument.

(l) Severability. Subject to Section 7(d) hereof, to the extent that any portion of any provision of this Agreement is held invalid or unenforceable, it will be considered deleted herefrom and the remainder of such provision and of this Agreement will be unaffected and will continue in full force and effect.

(m) Survival. The provisions of this Agreement that by their terms or implication extend beyond the Term, including without limitation Sections 4, 5, 6 and 7 of this Agreement, shall survive the termination or expiration of the Term and termination of Executive's employment with the Company for any reason.

(n) Captions and Headings. The captions and paragraph headings used in this Agreement are for convenience of reference only and will not affect the construction or interpretation of this Agreement or any of the provisions hereof.

(o) Notices. Any notice required or permitted to be given under this Agreement shall be in writing and shall be deemed to have been duly given when (i) delivered personally; (ii) sent by facsimile or other similar electronic device with confirmation; (iii) delivered by reliable overnight courier; or (iv) three (3) business days after being sent by registered or certified mail, postage prepaid, and in the case of (iii) and (iv) addressed as follows, or to such other address as the party may designate by giving notice hereunder:

**Certification**

I, Mark W. Sheahan, certify that:

1. I have reviewed this annual report on Form 10-K of Graco Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors:
  - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**GRACO INC.**

**INCENTIVE COMPENSATION RECOVERY POLICY**

**Adopted September 15, 2023**

**Policy**

The Board of Directors (the “Board”) of Graco Inc. (the “Company”) has adopted this Incentive Compensation Recovery Policy (this “Policy”) pursuant to Rule 10D-1 of the Securities and Exchange Act of 1934, as amended (the “Exchange Act”), the Securities and Exchange Commission (“SEC”) regulations promulgated thereunder, and applicable New York Stock Exchange (“NYSE”) listing standards. Subject to and in accordance with the terms of this Policy, upon a Recovery Event, each Covered Executive shall be obligated to return to the Company, reasonably promptly, the amount of Erroneously Awarded Compensation that was received by such Covered Executive during the Lookback Period.

**Administration**

This Policy will be administered by the Management Organization and Compensation Committee of the Board (the “Committee”). Any determinations made by the Committee will be final and binding on all affected individuals.

**Definitions**

“Accounting Restatement” means an accounting restatement due to the material noncompliance of the Company with any financial reporting requirement under the securities laws, including any required accounting restatement to correct an error in previously issued financial statements that (a) is material to the previously issued financial statements (commonly referred to as a “Big R” restatement), or (b) would result in a material misstatement if the error were corrected in the current period or left uncorrected in the current period (commonly referred to as a “little r” restatement).

“Covered Executive” means each of the Company’s current and former Section 16 Officers.

“Erroneously Awarded Compensation” means, with respect to each Covered Executive in connection with an Accounting Restatement, the excess of the amount of Incentive-Based Compensation received by the Covered Executive during the Lookback Period over the amount of Incentive-Based Compensation that otherwise would have been received had it been determined based on the restated amounts, computed without regard to any taxes paid. For Incentive-Based Compensation based on stock price or total shareholder return, where the amount of Erroneously Awarded Compensation is not subject to mathematical recalculation directly from the information in an Accounting Restatement: (a) the amount must be based on a reasonable estimate of the effect of the Accounting Restatement on the stock price or total shareholder return upon which the Incentive-Based Compensation was received; and (b) the Company must maintain documentation of the determination of that reasonable estimate and provide such documentation to NYSE.

“Financial Reporting Measures” are any measures that are determined and presented in accordance with the accounting principles used in preparing the Company’s financial statements, and any measures derived wholly or in part from such measures. Stock price and total shareholder

---

return are also Financial Reporting Measures. A Financial Reporting Measure need not be presented within the financial statements or included in a filing with the SEC.

“Incentive-Based Compensation” is any compensation that is granted, earned, or vested based wholly or in part upon the attainment of a Financial Reporting Measure.

“Lookback Period” means the three completed fiscal years immediately preceding the Required Restatement Date and any transition period (that results from a change in the Company’s fiscal year) of less than nine months within or immediately following those three completed fiscal years.

A “Recovery Event” occurs when the Company is required to prepare an Accounting Restatement.

“Required Restatement Date” means the earlier to occur of: (a) the date the Company’s Board, a committee of the Board, or the officer(s) of the Company authorized to take such action if Board action is not required, concludes, or reasonably should have concluded, that the Company is required to prepare an Accounting Restatement, or (b) the date a court, regulator, or other legally authorized body directs the Company to prepare an Accounting Restatement.

“Section 16 Officer” is defined as an “officer” of the Company within the meaning of Rule 16a-1(f) of the Exchange Act.

“Section 409A” means Section 409A of the Internal Revenue Code and the regulations and guidance promulgated thereunder.

#### **Amount Subject to Recovery**

The Incentive-Based Compensation that is subject to recovery under this Policy includes such compensation that is received by a Covered Executive (i) on or after October 2, 2023 (even if such Incentive-Based Compensation was approved, awarded or granted prior to this date), (ii) after the individual began service as a Covered Executive, (iii) if the individual served as a Section 16 Officer at any time during the performance period for such Incentive-Based Compensation, and (iv) while the Company has a class of securities listed on a national securities exchange or national securities association.

The amount of Incentive-Based Compensation subject to recovery from a Covered Executive upon a Recovery Event is the Erroneously Awarded Compensation, which amount shall be determined by the Committee.

For purposes of this Policy, Incentive-Based Compensation is deemed “received” in the Company’s fiscal period during which the Financial Reporting Measure specified in the Incentive-Based Compensation award is attained, even if the payment or grant of the Incentive-Based Compensation occurs after the end of that period.

#### **Recovery of Erroneously Awarded Compensation**

Promptly following a Recovery Event, the Committee will determine the amount of Erroneously Awarded Compensation for each Covered Executive, and the Company will provide each such Covered Executive with a written notice of such amount and a demand for repayment or return. Upon receipt of such notice, each affected Covered Executive shall promptly repay or return such Erroneously Awarded Compensation to the Company.

If such repayment or return is not made within a reasonable time, the Company shall recover Erroneously Awarded Compensation in a reasonable and prompt manner using any lawful method determined by the Committee; provided that recovery of any Erroneously Awarded Compensation must be made in compliance with Section 409A.

### **Limited Exceptions**

Erroneously Awarded Compensation will be recovered in accordance with this Policy unless the Committee determines that recovery would be impracticable and one of the following conditions is met:

- the direct expense paid to a third party to assist in enforcing this Policy would exceed the amount to be recovered, provided the Company has first made a reasonable effort to recover the Erroneously Awarded Compensation; or
- the recovery would likely cause a U.S. tax-qualified retirement plan to fail to meet the requirements of Internal Revenue Code Sections 401(a)(13) and 411(a) and the regulations thereunder.

Reliance on any of the above exemptions further must comply with applicable listing standards, including without limitation, documenting the reason for the impracticability and providing required documentation to NYSE.

### **No Insurance or Indemnification**

Neither the Company nor any of its affiliates or subsidiaries may indemnify any Covered Executive against the loss of any Erroneously Awarded Compensation (or related expenses incurred by the Covered Executive) pursuant to a recovery of Erroneously Awarded Compensation under this Policy, nor will the Company nor any of its affiliates or subsidiaries pay or reimburse a Covered Executive for any insurance premiums on any insurance policy obtained by the Covered Executive to protect against the forfeiture or recovery of any compensation pursuant to this Policy.

### **Interpretation**

The Committee is authorized to interpret and construe this Policy and to make all determinations necessary, appropriate, or advisable for the administration of this Policy. This Policy shall be applied and interpreted in a manner that is consistent with the requirements of Rule 10D-1 and any applicable regulations, rules or standards adopted by SEC or the rules of any national securities exchange or national securities association on which the Company's securities are listed. In the event that this Policy does not meet the requirements of Rule 10D-1, the SEC regulations promulgated thereunder, or the rules of any national securities exchange or national securities association on which the Company's securities are listed, this Policy shall be deemed to be amended to meet such requirements.

### **Amendment; Termination**

The Board or the Committee may amend this Policy in its discretion and shall amend this Policy as it deems necessary to comply with the regulations adopted by the SEC under Rule 10D-1 and the rules of any national securities exchange or national securities association on which the Company's securities are listed. The Board or the Committee may terminate this Policy at any time. Notwithstanding anything herein to the contrary, no amendment or termination of this Policy shall be effective if that amendment or termination would cause the Company to violate any federal

securities laws, SEC rules or the rules of any national securities exchange or national securities association on which the Company's securities are listed.

**Other Recovery Rights**

Any right of recovery under this Policy is in addition to, and not in lieu of, any other remedies or rights of recovery that may be available to the Company pursuant to the terms of any similar provision in any employment agreement or other compensation plan or agreement and any other legal remedies available to the Company. This Policy is in addition to any other clawback or compensation recovery, recoupment or forfeiture policy in effect or that may be adopted by the Company from time to time, or any laws, rules or listing standards applicable to the Company, including without limitation, the Company's right to recover compensation subject to Section 304 of the Sarbanes-Oxley Act of 2002. To the extent that application of this Policy would provide for recovery of Erroneously Awarded Compensation that the Company recovers pursuant to another policy or provision, the amount that is recovered will be credited to the required recovery under this Policy.

**Successors**

This Policy shall be binding and enforceable against all Covered Executives and their beneficiaries, heirs, executors, administrators or other legal representatives.
