Contracts insuring the lives of certain employees who are eligible to participate in certain non-qualified pension and deferred compensation plans are held in trust. Cash surrender value of the contracts is based on performance measurement funds that shadow the deferral investment allocations made by participants in certain deferred compensation plans. The deferred compensation liability balances are valued based on amounts allocated by participants to the underlying performance measurement funds.

Long-term notes payable with fixed interest rates have a carrying amount of $300 million and an estimated fair value of $320 million as of June 28, 2013 and $330 million as of December 28, 2012. The fair value of variable rate borrowings approximates carrying value. The Company uses significant other observable inputs to estimate fair value based on the present value of future cash flows and rates that would be available for issuance of debt with similar terms and remaining maturities.

11. The Company accounts for all derivatives, including those embedded in other contracts, as either assets or liabilities and measures those financial instruments at fair value. The accounting for changes in the fair value of derivatives depends on their intended use and designation.

As part of its risk management program, the Company may periodically use forward exchange contracts and interest rate swaps to manage known market exposures. Terms of derivative instruments are structured to match the terms of the risk being managed and are generally held to maturity. The Company does not hold or issue derivative financial instruments for trading purposes. All other contracts that contain provisions meeting the definition of a derivative also meet the requirements of, and have been designated as, normal purchases or sales. The Company's policy is to not enter into contracts with terms that cannot be designated as normal purchases or sales.

The Company periodically evaluates its monetary asset and liability positions denominated in foreign currencies. The Company enters into forward contracts or options, or borrows in various currencies, in order to hedge its net monetary positions. These instruments are recorded at current market values and the gains and losses are included in other expense (income), net. The notional amount of contracts outstanding as of June 28, 2013 totaled $21 million. The Company believes it uses strong financial counterparts in these transactions and that the resulting credit risk under these hedging strategies is not significant.

The Company uses significant other observable inputs (level 2 in the fair value hierarchy) to value the derivative instruments used to hedge and net monetary positions, including reference to market prices and financial models that incorporate relevant market assumptions. The fair market value and balance sheet classification of such instruments follows (in thousands):

	Balance Sheet Classification	Jun 28, 2013	Dec 28, 2012
Gain (loss) on foreign currency forward contracts			
Gains		$ 436	$ 553
Losses		(151)	(62)
Net	Accounts receivable	$ 285	$ 491

12. On April 2, 2012, the Company completed the purchase of the finishing businesses of Illinois Tool Works Inc. (“ITW”). The acquisition included powder finishing and liquid finishing equipment operations, technologies and brands (separately, the “Powder Finishing” and “Liquid Finishing” businesses). Results of the Powder Finishing businesses have been included in the Industrial segment since the date of acquisition, including $62 million of sales and $9 million of operating earnings in the first half of 2013 and $31 million of sales and $0.2 million of net operating loss in the first half of 2012 (starting in the second quarter).

In May 2012, the United States Federal Trade Commission (“FTC”) issued a proposed decision and order which requires Graco to sell the Liquid Finishing business assets no later than 180 days from the date the order becomes final. The FTC has not yet issued its final decision and order.

The Company has retained the services of an investment bank to help it market the Liquid Finishing businesses and identify potential buyers. While it seeks a buyer, Graco must hold the Liquid Finishing business assets separate from its other businesses and maintain them as viable and competitive.

The Company does not have a controlling interest in the Liquid Finishing businesses, nor is it able to exert significant influence over those businesses. Consequently, the Company’s investment in the shares of the Liquid Finishing businesses has been reflected as a cost-method investment on the Consolidated Balance Sheets, and its results of operations have not been consolidated with those of the Company.

As a cost-method investment, income is recognized based on dividends received from current earnings of Liquid Finishing. Dividends of $11 million received in the second quarter of 2013 and $15 million received year-to-date, along with $4 million received in the second quarter of 2012, are included in other expense (income) on the Consolidated Statements of Earnings. Also in the first quarter of 2013, ITW reimbursed Graco approximately $1 million for payments of pre-acquisition tax liabilities paid by Liquid Finishing businesses after the acquisition date. This reimbursement was recorded as a reduction of the cost-method investment on the Consolidated Balance Sheet.

The Company evaluates its cost-method investment for other-than-temporary impairment at each reporting period. As of June 28, 2013, the Company evaluated its investment in Liquid Finishing and determined that there was no impairment.

Sales and operating earnings of the Liquid Finishing businesses were as follows (in thousands):

	Thirteen Weeks Ended		Twenty-six Weeks Ended	
	Jun 28, 2013	Jun 29, 2012	Jun 28, 2013	Jun 29, 2012

Operating Earnings	16,398	12,801	29,978	24,384

The following pro forma information reflects the combined results of Graco and Powder Finishing operations as if the acquisition had occurred at the beginning of 2011 (in thousands, except per share amounts):

	Thirteen Weeks Ended		Twenty-six Weeks Ended	
	Jun 28, 2013	Jun 29, 2012	Jun 28, 2013	Jun 29, 2012

Basic earnings per share	0.94	0.72	1.80	1.37
Diluted earnings per share	0.92	0.71	1.76	1.34

Pro forma results for the 2012 year-to-date period reflect additional depreciation and amortization of $2 million, as if the acquisition of Powder Finishing had occurred at the beginning of 2011. Non-recurring acquisition expenses of $7 million for the second quarter and $11 million year-to-date were eliminated from the 2012 pro forma results. Purchase accounting effects of $7 million related to inventory were removed from the second quarter and year-to-date 2012 pro forma results.

Item 2. **GRACO INC. AND SUBSIDIARIES**

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Overview

The Company designs, manufactures and markets systems and equipment to move, measure, control, dispense and spray fluid and coating materials. Management classifies the Company's business into three reportable segments: Industrial, Contractor and Lubrication. Key strategies include developing and marketing new products, expanding distribution globally, opening new markets with technology and channel expansion and completing strategic acquisitions.

The following Management's Discussion and Analysis reviews significant factors affecting the Company's results of operations and financial condition. This discussion should be read in conjunction with the financial statements and the accompanying notes to the financial statements.

Acquisition

On April 2, 2012, the Company completed the purchase of the finishing businesses of ITW. The acquisition included Powder Finishing and Liquid Finishing equipment operations, technologies and brands. Results of the Powder Finishing business have been included in the Industrial segment since the date of acquisition.

Pursuant to a March 2012 order, the Liquid Finishing businesses were to be held separate from the rest of Graco's businesses while the United States Federal Trade Commission ("FTC") considered a settlement with Graco and determined which portions of the Liquid Finishing businesses Graco must divest.

In May 2012, the FTC issued a proposed decision and order which requires Graco to sell the Liquid Finishing business assets, including certain business activities related to the development, manufacture, and sale of products under the Binks®, DeVilbiss®, Ransburg® and BGK® brand names, no later than 180 days from the date the order becomes final. The FTC has not yet issued its final decision and order.

The Company has retained the services of an investment bank to help it market the Liquid Finishing businesses and identify potential buyers. While it seeks a buyer, Graco must continue to hold the Liquid Finishing business assets separate from its other businesses and maintain them as viable and competitive.

The Company does not control the Liquid Finishing businesses, nor is it able to exert influence over those businesses. Consequently, the Company's investment in the shares of the Liquid Finishing businesses has been reflected as a cost-method investment, and its financial results have not been consolidated with those of the Company.

As a cost-method investment, income is recognized based on dividends received from current earnings of Liquid Finishing. Dividends of $11 million received in the second quarter of 2013 and $15 million received year-to-date, along with $4 million received in the second quarter of 2012, are included in other expense (income) on the Consolidated Statements of Earnings. Also in the first quarter of 2013, ITW reimbursed Graco approximately $1 million for payments of pre-acquisition tax liabilities paid by Liquid Finishing businesses after the acquisition date. This reimbursement was recorded as a reduction of the cost-method investment on the Consolidated Balance Sheet.

The Company evaluates its cost-method investment for other-than-temporary impairment at each reporting period. As of June 28, 2013, the Company evaluated its investment in Liquid Finishing and determined that there was no impairment.

Consolidated Results

Net sales, net earnings and earnings per share were as follows (in millions except per share amounts and percentages):

	Thirteen Weeks Ended			Twenty-six Weeks Ended		
	Jun 28, 2013	Jun 29, 2012	% Change	Jun 28, 2013	Jun 29, 2012	% Change
Net Sales	$ 286.0	$ 268.2	7%	$ 555.1	$ 502.3	11%
Net Earnings	$ 57.8	$ 34.4	68%	$ 110.0	$ 69.7	58%
Diluted Net Earnings per Common Share	$ 0.92	$ 0.56	64%	$ 1.76	$ 1.13	56%

Sales for the quarter increased 7 percent from last year, driven by strong sales in the Contractor segment. Year-to-date sales increased 11 percent, including 6 percentage points from the full-year impact of the Powder Finishing operations acquired in April 2012, and strong growth in Contractor segment sales.

Higher sales and strong gross margin rates, decreases in acquisition-related expenses, higher investment income from Liquid Finishing businesses held separate, and favorable changes in the income tax provision all contributed to significant growth in net earnings for both the quarter and the year-to-date.

Changes in currency translation rates did not have a significant effect on quarterly or year-to-date operating results.

Consolidated	$ 286.0	$ 268.2	$ 555.1	$ 502.3

[1] North and South America, including the U.S.
[2] Europe, Middle East and Africa

Sales for the quarter increased 7 percent, including increases of 14 percent in the Americas and 2 percent in EMEA. Sales decreased 6 percent in Asia Pacific. Year-to-date sales increased 11 percent, including increases of 12 percent in the Americas, 13 percent in EMEA and 4 percent in Asia Pacific. The first quarter impact of the Powder Finishing operations acquired in April 2012 contributed approximately 6 percentage points of the total year-to-date growth and accounted for all of the growth in EMEA and Asia Pacific.

Gross profit margin, expressed as a percentage of sales, was 55 ½ percent for both the quarter and year-to date, up from 52 percent and 54 percent for the quarter and year-to-date last year, respectively. Non-recurring purchase accounting effects totaling $7 million related to inventory reduced last year's gross margin rate by approximately 3 percentage points for the quarter and 1 ½ points year-to-date.

Total operating expenses for the quarter decreased by $4 million, including a $7 million drop in acquisition and divestiture costs. Year-to-date operating expenses were $1 million higher than last

Table of Contents

year, with higher expenses from acquired operations and other volume-related increases mostly offset by a $10 million decrease in acquisition and divestiture costs.

Other expense (income) included dividends of $11 million for the quarter and $15 million year-to-date received from the Liquid Finishing businesses that are held separate from the Company's other businesses. The Company received the first of such dividends in the second quarter of 2012, in the amount of $4 million.

The effective income tax rate of 29 percent for the quarter and the year-to-date rate of 28 percent were lower than the comparable periods last year. This year's rate includes the impact of the federal R&D credit that was renewed in the first quarter, effective retroactive to the beginning of 2012. There was no R&D credit recognized in 2012. The effective rate in 2013 also reflects the effect of higher after-tax dividend income received from the Liquid Finishing businesses held separate.

Segment Results

Certain measurements of segment operations compared to last year are summarized below:

Industrial

	Thirteen Weeks Ended		Twenty-six Weeks Ended	
	Jun 28, 2013	Jun 29, 2012	Jun 28, 2013	Jun 29, 2012
Net sales (in millions)				
Americas	$ 70.2	$ 65.6	$ 136.4	$ 125.0
EMEA	49.8	49.9	100.1	86.7
Asia Pacific	39.7	42.7	87.3	80.6
Total	$ 159.7	$ 158.2	$ 323.8	$ 292.3
Operating earnings as a percentage of net sales	32%	27%	33%	31%

Industrial segment sales for the quarter increased 1 percent, with a 7 percent increase in the Americas mostly offset by a decrease in Asia Pacific. Year-to-date sales increased 11 percent, with 10 percentage points of the increase from Powder Finishing operations acquired in April 2012. Operating margin rate for the Industrial segment improved compared to last year, which included the effects of purchase accounting related to inventory that reduced the rate for the second quarter of 2012 by approximately 4 percentage points.

Contractor

	Thirteen Weeks Ended		Twenty-six Weeks Ended	
	Jun 28, 2013	Jun 29, 2012	Jun 28, 2013	Jun 29, 2012
Net sales (in millions)				
Americas	$ 69.9	$ 54.6	$ 121.4	$ 100.8
EMEA	18.0	17.2	34.1	33.2
Asia Pacific	10.6	10.3	20.6	20.1
Total	$ 98.5	$ 82.1	$ 176.1	$ 154.1
Operating earnings as a percentage of net sales	25%	22%	23%	20%

Contractor segment sales for the quarter increased 20 percent, including increases of 28 percent in the Americas, 5 percent in EMEA and 2 percent in Asia Pacific. Year-to-date sales were up 14 percent, driven by increases in the Americas. Initial stocking of expanded product offerings in the home centers channel and the recovery in the U.S. housing market contributed to higher sales in this segment. Higher sales volume, improved gross margin rate and expense leverage led to higher operating margin rates in the Contractor segment.

Lubrication

	Thirteen Weeks Ended		Twenty-six Weeks Ended	
	Jun 28, 2013	Jun 29, 2012	Jun 28, 2013	Jun 29, 2012
Net sales (in millions)				
Americas	$ 20.6	$ 20.5	$ 41.1	$ 40.8
EMEA	3.0	2.3	5.5	4.2
Asia Pacific	4.3	5.1	8.5	10.9
Total	$ 27.9	$ 27.9	$ 55.1	$ 55.9
Operating earnings as a percentage of net sales	24%	20%	21%	21%

Lubrication segment sales were flat for the quarter and down 1 percent year-to-date. Increases in the Americas and EMEA were offset by a decrease in Asia Pacific, where several large industrial lubrication transactions in 2012 were not repeated in 2013. Improved manufacturing performance and limited spending increases led to higher operating margin rates in this segment.

Liquidity and Capital Resources

Net cash provided by operating activities was $100 million in 2013 and $65 million in 2012. The increase mostly reflects the increase in net earnings. Accounts receivable and inventory balances have increased since the end of 2012 due to first half increases in business activity.

In May 2012, the FTC issued a proposed decision and order which requires Graco to sell the Liquid Finishing business assets, including certain business activities related to the development, manufacture, and sale of products under the Binks, DeVilbiss, Ransburg and BGK brand names, no later than 180 days from the date the order becomes final. The FTC has not yet issued its final decision and order.

The Company has retained the services of an investment bank to help it market the Liquid Finishing businesses and identify potential buyers. The Company believes its investment in the Liquid Finishing businesses, carried at a cost of $426 million, is not impaired.

Under terms of the FTC's hold separate order, the Company is required to provide sufficient resources to maintain the viability, competitiveness and marketability of the Liquid Finishing businesses, including general funds, capital, working capital and reimbursement of losses. To the extent that the Liquid Finishing businesses generate funds in excess of financial resources needed, the Company has access to such funds consistent with practices in place prior to the acquisition. In the first half of 2013, the Company received $15 million of dividends from current earnings of the Liquid Finishing businesses.

At June 28, 2013, the Company had various lines of credit totaling $500 million, of which $328 million was unused. Internally generated funds and unused financing sources are expected to provide the Company with the flexibility to meet its liquidity needs in 2013, including the needs of the Powder Finishing and Liquid Finishing businesses acquired in April 2012.

Outlook

We are well positioned for the remainder of the year and believe that our strategies will deliver full-year sales growth in every region. While macroeconomic conditions in EMEA and Asia Pacific are not expected to improve, comparables to the prior year are somewhat easier in these regions in the second half of 2013. When combined with our strategic initiatives, we continue to expect modest full-year growth from the EMEA and Asia Pacific regions. In the United States, the continued housing recovery should result in a sustained tailwind.

Graco Reports Record Quarterly Sales and Earnings

MINNEAPOLIS, MN (July 24, 2013) - Graco Inc. **(NYSE: GGG)** today announced results for the quarter and six months ended June 28, 2013.

Summary
$ in millions except per share amounts

	Thirteen Weeks Ended			Twenty-six Weeks Ended		
	Jun 28, 2013	Jun 29, 2012	% Change	Jun 28, 2013	Jun 29, 2012	% Change
Net Sales	$ 286.0	$ 268.2	7%	$ 555.1	$ 502.3	11%
Net Earnings	57.8	34.4	68%	110.0	69.7	58%
Diluted Net Earnings per Common Share	$ 0.92	$ 0.56	64%	$ 1.76	$ 1.13	56%

- Contractor segment sales drove the 7 percent sales increase for the quarter.
- Year-to-date sales increased 11 percent, driven by a 6 percentage point increase from the first quarter impact of the April 2012 acquisition of the Powder Finishing operations and strong Contractor segment sales.
- Gross margin rates remained strong at 55 ½ percent for the quarter and year-to-date, up from 52 percent for the second quarter last year, which included non-recurring inventory charges related to the acquisition of Powder Finishing.
- All segments generated double-digit percentage growth in operating earnings for the quarter.
- Operating expenses included acquisition and divestiture costs of $1 million, a decrease from the prior year of $7 million for the quarter and $10 million year-to-date.
- Other expense (income) included dividend income of $11 million for the quarter and $15 million for the year-to-date, up from $4 million for the quarter and year-to-date last year, received from the Liquid Finishing businesses held as a cost-method investment.
- Changes in currency translation rates did not have a significant effect on operating results.
- Cash flow from operations remained strong, with $91 million applied to reduction of long-term debt since the end of 2012.

"Thanks to the great efforts and dedication of our employees and distributors around the world, Graco achieved new quarterly records in the second quarter for both sales and earnings," said Patrick J. McHale, Graco's President and Chief Executive Officer. "Sales grew at a double-digit pace in the Americas, driven by 28 percent growth in our Contractor segment, which benefitted from an initial stocking of expanded product offerings in the home center channel and the ongoing recovery in the U.S. housing market. The Industrial segment in the Americas returned to growth in the second quarter, reflecting an increase in demand that was broad based throughout product categories. Macroeconomic conditions remained a headwind in the second quarter for regions outside of the Americas, however. In EMEA, sales grew slightly in the second quarter, aided by channel expansion in our Lubrication segment and stronger demand for Contractor segment products in emerging markets. In our Asia Pacific region, sales declined 6 percent in the second quarter, reflecting ongoing weakness in mining and general industrial applications."

Consolidated Results

Sales for the quarter increased 7 percent, including increases of 14 percent in the Americas and 2 percent in EMEA. Sales decreased 6 percent in Asia Pacific. Year-to-date sales increased 11 percent, including increases of 12 percent in the Americas, 13 percent in EMEA and 4 percent in Asia Pacific. The first quarter impact of the Powder Finishing operations acquired in April 2012 contributed approximately 6 percentage points of the total year-to-date growth and accounted for all of the growth in EMEA and Asia Pacific.

Gross profit margin, expressed as a percentage of sales, was 55 ½ percent for both the quarter and year-to date, up from 52 percent and 54 percent for the quarter and year-to-date last year, respectively. Non-recurring purchase accounting effects totaling $7 million related to inventory reduced last year's gross margin rate by approximately 3 percentage points for the quarter and 1 ½ points year-to-date.

Total operating expenses for the quarter decreased by $4 million, including a $7 million drop in acquisition and divestiture costs. Year-to-date operating expenses were $1 million higher than last year, with higher expenses from acquired operations and other volume-related increases mostly offset by a $10 million decrease in acquisition and divestiture costs.

Other expense (income) included dividends of $11 million for the quarter and $15 million year-to-date received from the Liquid Finishing businesses that are held separate from the Company's other businesses. The Company received the first of such dividends in the second quarter of 2012, in the amount of $4 million.

The effective income tax rate of 29 percent for the quarter and the year-to-date rate of 28 percent were lower than the comparable periods last year. This year's rate includes the impact of the federal R&D credit that was renewed in the first quarter, effective retroactive to the beginning of 2012. There was no R&D credit recognized in 2012. The effective rate in 2013 also reflects the effect of higher after-tax dividend income received from the Liquid Finishing businesses held separate.

Industrial segment sales for the quarter increased 1 percent, with a 7 percent increase in the Americas mostly offset by a decrease in Asia Pacific. Year-to-date sales increased 11 percent, with 10 percentage points of the increase from Powder Finishing operations acquired in April 2012. Operating margin rate for the Industrial segment improved compared to last year, which included the effects of purchase accounting related to inventory that reduced the rate for the second quarter of 2012 by approximately 4 percentage points.

Contractor segment sales for the quarter increased 20 percent, including increases of 28 percent in the Americas, 5 percent in EMEA and 2 percent in Asia Pacific. Year-to-date sales were up 14 percent, driven by increases in the Americas. Higher sales volume, improved gross margin rate and expense leverage led to higher operating margin rates in the Contractor segment.

Lubrication segment sales were flat for the quarter and down 1 percent year-to-date. Increases in the Americas and EMEA were offset by a decrease in Asia Pacific, where several large industrial lubrication transactions in 2012 were not repeated in 2013. Improved manufacturing performance and limited spending increases led to higher operating margin rates in this segment.

Acquisition in 2012

On April 2, 2012, the Company completed the purchase of the finishing businesses of Illinois Tool Works Inc. The acquisition included Powder Finishing and Liquid Finishing equipment operations, technologies and brands. Results of the Powder Finishing business have been included in the Industrial segment since the date of acquisition.

Pursuant to a March 2012 order, the Liquid Finishing businesses were to be held separate from the rest of Graco’s businesses while the United States Federal Trade Commission (“FTC”) considered a settlement with Graco and determined which portions of the Liquid Finishing business Graco must divest.

In May 2012, the FTC issued a proposed decision and order which requires Graco to sell the Liquid Finishing business assets, including certain business activities related to the development, manufacture, and sale of products under the Binks®, DeVilbiss®, Ransburg® and BGK® brand names, no later than 180 days from the date the order becomes final. The FTC has not yet issued its final decision and order.

The Company has retained the services of an investment bank to help it market the Liquid Finishing businesses and identify potential buyers. While it seeks a buyer, Graco must continue to hold the Liquid Finishing business assets separate from its other businesses and maintain them as viable and competitive.

The Company does not control the Liquid Finishing businesses, nor is it able to exert influence over those businesses. Consequently, the Company’s investment in the shares of the Liquid Finishing businesses has been reflected as a cost-method investment, and its financial results have not been consolidated with those of the Company. Income is recognized based on dividends received from current earnings and is included in other income.

The Liquid Finishing businesses generated sales of $71 million and EBITDA of $16 million in the second quarter.

Outlook

"We are well positioned for the remainder of the year and believe that our strategies will deliver full-year sales growth in every region," said McHale. "While macroeconomic conditions in EMEA and Asia Pacific aren't expected to improve, comparables to the prior year are somewhat easier in these regions in the second half of 2013. When combined with our strategic initiatives, we continue to expect modest full-year growth from the EMEA and Asia Pacific regions. In the U.S., the continued housing recovery should result in a sustained tailwind."
